I like school becuase my friends and math work. School is ok sometimes if you do good in it. Math is hard work if you know what I mean.

If you ask me school is preet cool sometimes. My friend Jerome and me have fun at school. School work is hard to me. If I could I would go back to 1st grade. Thats how fun it was in school. School is ok.

This I go to Hight School thats cool. We are all going it's going to be fun. So get ready for all of us in time.
