Re: 2009 School Safety Report

Date: February 2, 2009

The Schools Against Violence in Education (SAVE) Act of 2007 provides that the Commissioner of Education report annually to the Governor and General Assembly “concerning the prevalence of violent and disruptive incidents in the public schools, and the effectiveness of school programs undertaken to reduce violence and assure the safety and security of students and school personnel.”

The attached report presents an update on the Department of Education’s progress in implementing the provisions of the Act, a summary of available violent or serious incident data, and an overview of the promising strategies being implemented in Tennessee schools.

Additionally, Tenn. Code Ann. §49-2-118 and 49-6-1007 provide that the Commissioner of Education shall annually report to the General Assembly regarding the implementation of conflict resolution and character education programs in Tennessee schools. This information is also included in this report.

Questions regarding this report may be directed to Mike Herrmann, Executive Director of the Office of School Safety and Learning Support, at (615) 741-3248.

Safe and Supportive Schools

*An Annual Report for the Tennessee General Assembly
from the Tennessee Department of Education*

Office of School Safety and Learning Support

February 2009

*Report also available on our website at:
<http://state.tn.us/education/learningsupport/>*

INTRODUCTION

Public Chapter 548 of 2007, the Schools Against Violence in Education (SAVE) Act, requires that the Commissioner of Education “report to the governor and general assembly on implementation and compliance” of the Act, as well as, the general progress of the state in providing a safe learning environment for students.

SAVE ACT IMPLEMENTATION

Establishment of a State-Level School Safety Team and Template

The SAVE Act directs the Commissioner to establish a state-level school safety team that is specifically charged with publishing “a template for use by districts in preparing their district-level safety-plans and building-level emergency response plans.” The Department of Education convened a state-level safety team consistent with the parameters outlined in the public chapter. Specific members and their organizational affiliation are identified in Appendix 1. The team reviewed the available literature and identified best practices in each of the areas specified in the Act. A self-assessment/quality indicators document was produced and is attached as Appendix 2. An extensive website with links to each of the quality indicators was built and is currently posted at <http://state.tn.us/education/learningsupport/SAVE.shtml>. Additionally, a variety of sample plans have been made available to districts upon request.

Collecting Strategies State-wide

As a part of the SAVE Act Implementation, the Department of Education is developing a new reporting template to collect specific prevention and intervention strategies being used in districts across the state. This new reporting template will serve two purposes. First, it will provide more consistent information of what types of programs are used, how many districts use each type, and what funds are being used for prevention strategies. Second, this data will assist with district collaboration around what strategies have been successful.

District and Building-Level School Safety Plans

The Act requires every district to submit its school safety plan to the Departments of Education and Safety. Every school is required to submit its plan to local law enforcement and first responder agencies.

The Act allows the Commissioner of Education to grant a two-year waiver to districts that have adopted a comprehensive school safety plan which is in substantial compliance with the requirements of the Act. Seventy-nine (79) districts were granted a waiver until October 1, 2009. All other districts were required to submit a SAVE Act Compliance Package on October 1, 2008.

The SAVE Act Compliance Package consists of the following items:

- 1) Completed and signed Self-Assessment Document.
- 2) Two copies of the district Emergency Response Plan (ERP).
- 3) A roster of key response personnel at the district and building level.
- 4) Assurance statement from director of schools.

Department staff are currently reviewing each submitted compliance package to insure completion and to identify ongoing areas of concern for districts and schools. To date, 49 compliance packages have been found to be complete and six are awaiting one or more elements before staff can verify completion. A compliance report of the non-waivered school districts is attached as Appendix 3.

Enhanced Data Collection System

The SAVE Act also requires that “The commissioner (of education), in conjunction with the commissioner of safety, shall establish a statewide uniform violent incident reporting system which all LEAs shall follow.”

In response to this mandate, as well as amendments to Tenn. Code Ann. § 49-6-3401, the Department has expanded the student management information system to include additional data regarding serious incidents that occur in Tennessee schools. The expanded reporting system will integrate zero tolerance offenses, thereby unifying both collections into a single reporting method. Below is a list of the new incident categories that school districts now use in reporting to the Department:

Incident Types

1. Possession, Use or Distribution of Illegal Drugs
2. Possession of Handgun
3. Possession of Rifle or Shotgun
4. Possession of Explosive or Incendiary Device
5. Non-Lethal Firearm
6. Possession of a Weapon Other than Firearm
7. Possession, Use or Distribution of Alcohol
8. Violation of School Rules
9. Theft of Property
10. Vandalism/ Damage of Property
11. Bomb Threat
12. Other Type of Threat
13. Bullying
14. Fighting
15. Sexual Harassment
16. Assault of Teacher or Staff
17. Assault of Student
18. Sexual Assault

19. Aggravated Assault of Teacher or Staff
20. Aggravated Assault of Student
21. Attempted Homicide
22. Homicide

Additional data that will be collected relevant to each incident includes the following: grade of offender, the school and district where the offense occurred, and the action taken by the district.

Districts will also continue to collect and report information on student victims of violent crime as provided under the State Board of Education's Unsafe School Choice Policy. A copy of the *Student Violent Crime Victimization Report Form* is attached as Appendix 4.

Serious Incident Index

The SAVE Act states that "the commissioner shall report to the governor and the general assembly concerning the prevalence of violent and disruptive incidents in the public schools." To fulfill this legislative mandate on an interim basis until data from the expanded student management system is available, the Office of School Safety and Learning Support has created a *Serious Incident Index*.

For purposes of this report, the *Serious Incident Index*, includes the following categories of incidents:

- 1) Possession of Firearms
- 2) Possession of Weapons Other than a Firearm
- 3) Battery Against a Teacher or School Employee
- 4) Student Victim of Violent Crime at School.

The sum of all incidents is weighed against the school's average daily membership to factor in variations in enrollment and arrive at an index.

The 2007-08 Serious Incident Index Report is attached as Appendix 5. Schools that did not have any incidents to report for the 2007-2008 school year will not appear in the report.

Implementation Challenges and Future Developments

When the General Assembly enacted the SAVE Act in 2007, funding was provided for one full-time professional position to lead the development of the template, to provide ongoing training and support to schools, and to monitor compliance. The position was eligible for the state voluntary buyout program and the person filling that position chose to accept. Existing staff have been forced to assume responsibilities associated with the Act.

Because of staff limitations and travel restrictions, planned on-site monitoring and technical assistance has been suspended. The Department is working closely with the Department of Safety and the Tennessee School Resource Officers Association to provide appropriate support to school officials.

CURRENT FUNDING FOR SCHOOL SAFETY

Safe Schools Act of 1998

The Safe Schools Act of 1998 (*Tenn. Code Ann. §49-6-4302*) provides state funding for school safety and violence prevention activities. Each school district is eligible to receive these funds that are allocated based on the district's relative share of BEP funding. A 25% local match is required.

Since 1998 the General Assembly has appropriated the following amounts for this program:

School Year	Amount
2008-2009	\$ 4,841,200
2007-2008	\$ 4,841,200
2006-2007	\$ 4,841,200
2005-2006	\$ 4,841,196
2004-2005	\$ 4,841,196
2003-2004	\$ 4,841,196
2002-2003	\$ 4,841,196
2001-2002	\$ 5,600,000
2000-2001	\$ 5,600,000
1999-2000	\$ 5,600,000
1998-1999	\$10,000,000

A listing of the 2008-2009 grant awards and how these funds will be utilized may be found in Appendix 6.

Safe and Drug-Free Schools and Communities Program

Title IVA of the *No Child Left Behind Act of 2001* provides federal funding to school districts for drug and violence prevention activities. Funds are allocated on a formula basis and may be used for a variety of activities related to school safety and violence prevention. These funds have been reduced by 33.6% at the federal level since 2001.

A listing of the 2008-2009 Safe and Drug-Free Schools allocations for each district may be found in Appendix 7.

STATEWIDE SPECIAL PROJECTS

Advancing Alternative Education in Tennessee

Alternative Education has been a continued area of significant activity for the Department of Education. Students placed in Alternative Education programs often exhibit behavior that disrupts their learning and the learning of others. During the 2007-2008 school year, 1,972 students were expelled from school. Many of these students were placed in an Alternative Education program. Acknowledging the unique opportunities these programs have to positively intervene in the lives of students, the Department is actively working with Alternative Education programs to enhance the quality of programming.

In collaboration with the Governor's Advisory Council for Alternative Education, the Department has been instrumental in the accomplishment of the following key items relative to Alternative Education:

1. Department staff has worked cooperatively with the Advisory Council in the development, adoption, and distribution of the new *Alternative Education Program Standards*. Furthermore, the Department coordinated a summer professional development workshop titled: *Promising Practices in Alternative Education*. The summer workshop focused on bringing the new standards to life. Seventy-four alternative educators and administrators attended the workshop.
2. In accordance with Public Charter Number 211, the Council studied issues relating to the establishment of pilot alternative schools. The Department provided staff to help research and write the *ATLAS Pilot Project: A Feasibility Study Relating to the Establishment of Alternative Education Programs in Tennessee*. The Department staff collected the data and drafted the report on behalf of the Advisory Council for Alternative Education. The report will be released in mid February of 2009.
3. In collaboration with the Advisory Council, the Department hosted a symposium on Alternative Education. The symposium brought together public agencies, not-for-profit corporations, mental health providers, and business leaders in an effort to rally all of Tennessee's resources to enhance the learning opportunities for Alternative Education students.
4. Staff has worked cooperatively with the Department's Data Management Committee to revamp the student discipline data collection. As a part of this process, staff coordinated a way to track students who are placed in an Alternative Education setting. Next school year Department staff will be able to report more meaningful findings from the new data collection.
5. Department staff have taken a leading role in providing onsite technical assistance at the request of local school districts. Numerous school/program visits and evaluations were conducted by Department staff.

Over the coming school year the Department will continue the much needed work of advancing Alternative Education in our state. For more information on Alternative Education in Tennessee visit our website at <http://state.tn.us/education/learningsupport/alted/index.shtml> or contact James Witty at (615) 532-4768.

School/Law Enforcement Partnerships

Approximately 627 law enforcement officers are specifically assigned to Tennessee schools. The General Assembly has established employment and training standards for School Resource Officers. Annually, the Department requests compliance verification from local school districts. Currently, all districts in Tennessee report adhering to the requirements established by the General Assembly. A complete list of the number of SROs in each district by school level is attached as Appendix 8.

The Tennessee Department of Safety and the Governor's Office of Homeland Security continue to work closely with the Department of Education to provide training and emergency support to Tennessee schools. Safety Commissioner Dave Mitchell meets annually with directors of schools and has directed his staff to assist the Department of Education and Tennessee School Resource Officers Association in the development of specialized training.

All Tennessee school resource officers are currently being introduced to the Tennessee Fusion Center at the Tennessee Bureau of Investigation. This new resource will allow officers in schools across the state to connect with a powerful information network. Steps are currently underway to connect Tennessee schools to the Office of Homeland Security's Automated Critical Asset Management System (ACAMS).

Mental Health Collaborations

The Department of Education is pursuing collaborations with the mental health service delivery system via several different projects.

The Office of Coordinated School Health received an 18 month grant from the U.S. Department of Education – Office of Safe and Drug Free Schools. The *Tennessee Integration of Schools and Mental Health Systems* grant will assist each LEA in the development of school policy, protocols, training and linkages with community mental health providers regarding the prevention, identification, referral and follow-up of students needing mental health services. Teams from each LEA will receive training and technical assistance to further the development of a more seamless system of care between schools, mental health providers and juvenile justice staff.

The Department continues to partner with Vanderbilt Community Mental Health Center to implement the PREPARE project. PREPARE was developed to support the creation of crisis response teams in each school district and to foster partnerships between schools and community-based mental health resources. More than 1500 school counselors, social workers, psychologists and other appropriate school personnel have participated in training to date.

Working with Dr. Ken Strong, supervising psychologist for the Memphis City Schools Threat Assessment Team, the Department has expanded the *Guidelines for Student Threat Assessment* training to include an advanced seminar for licensed school psychologists and school social workers. The seminar addresses advanced threat/mental health assessment and behavior support issues.

Finally, the Department is an active participant in the Council on Children's Mental Health established by Public Chapter 1062. The Council is charged with developing a plan for the establishment of a System of Care for Tennessee children and families.

Youth Suicide Prevention

The first documented self-inflicted gunshot wound in a Tennessee school occurred during the 2006-07 school year. Eighteen percent of Tennessee students reported on the Youth Risk Behavior Survey that they had considered suicide at some time during the past 12 months.

The Jason Flatt Act of 2007 requires every Tennessee teacher and principal to receive in-service training on suicide awareness. The Department works closely with the Jason Foundation and the Tennessee Lives Count Project of the Tennessee Suicide Prevention Network to help schools meet the in-service mandate and to address this important issue which has been linked to targeted school shooting incidents.

Early Childhood Training

Tennessee Voices for Children, in collaboration with the Departments of Education, Health, Mental Health and Developmental Disabilities, Human Services, and Children's Services as well as representatives of Head Start, Tennessee Early Childhood Training Alliance, Child Care Resource and Referral and Tennessee Institutes of Higher Education, are working with early childhood caregivers and educators to prevent problem behaviors and provide individualized interventions. The project, provided by the Center on the Social and Emotional Foundations for Early Learning (CSEFEL), seeks to embed the evidence-based practices found to develop social and emotional competence in young children ages birth to age five. Six early childhood programs representing the three grand divisions of the state were chosen as demonstration sites.

Olweus Bullying Prevention Pilot Project

For the last three years, Tennessee has implemented a pilot of the Olweus Bullying Prevention Program (OBPP) in 17 sites across the state. The Olweus program is a comprehensive, school-wide model designed for use in elementary, middle, or junior high schools. Program goals are to reduce and prevent bullying problems among school children and to improve peer relations.

In addition to its impact on reducing bullying, the program is designed to improve the social climate of classrooms and reduce related antisocial behaviors such as vandalism and truancy. Tennessee is one of a limited number of states that have hosted a training of trainers. As a result there is a cadre of 20 Certified Olweus trainers in Tennessee who are prepared to train schools in the strategies necessary to implement the program. A complete list of trainers in Tennessee is included in Appendix 9. The program is currently being implemented in 59 sites. A second cadre of trainers is currently undergoing the training and certification process.

The Methamphetamine Awareness Project

The Methamphetamine Awareness Project is a project supported by a Governor's Methamphetamine Initiative Grant received from the Tennessee Department of Finance and Administration's Office of Criminal Justice Programs. The project is a three-year effort to insure educators remain aware and proactive in responding to methamphetamine abuse and/or exposure.

During the 2007-08 school year, 124 educators participated in our regional training sessions. Participants receive an overview of the drug and are taught how to recognize the signs and symptoms of children living in a home where methamphetamine is being produced or used. Appropriate intervention strategies are also identified and discussed.

2009 Student Discipline and Alternative Education Institute

In collaboration with the Department of Education's Office of General Counsel, the Office of School Safety and Learning Support and the UT Law Enforcement Innovation Center will hold the first annual Student Discipline and Alternative Education (SDAE) Institute in mid February of 2009. The SDAE Institute will provide teachers and administrators with proactive approaches to dealing with defiant students, as well as legal and procedural issues and practices related to suspending and expelling students.

Furthermore, techniques will be demonstrated to help educators and other professionals provide meaningful and appropriate interventions to students. Finally, exemplary practices in alternative education will also be shared. Other topics areas will include the following: adventure based learning, bullying prevention, dropout prevention, life skills acquisition, positive behavior support,

school climate, service learning, student threat assessment, and transitional planning. The conference is designed to help districts most appropriately meet the needs of the challenging student, while continuing to maintain a positive and productive learning environment for all.

INNOVATIVE LOCAL PRACTICES

All Tennessee schools and school districts devote significant energy and resources to the challenge of providing a safe and disciplined learning environment. The following provides a sampling of some of the innovative approaches that districts and schools have adopted:

Henry County Schools was the first school system in Tennessee to implement the Olweus Bullying Prevention Program in every school in the district. One administrator from each school has completed the extensive training and certification process and is now responsible for training a Coordinating Committee in each school. The Olweus model emphasizes the involvement of all stakeholders including students, parents, bus drivers, custodians, etc. in ownership of the challenge. To maintain accountability, each principal submits a monthly report to Director of Schools Rick Kriesky.

A county-wide Bullying Consequence Rubric that is grade cluster specific insures that consequences and reporting are consistent county wide. Students have responded by being more vocal about reporting inappropriate behaviors and reinforcing appropriate behaviors. Surveys that are administered each spring provide information that enables specific problem areas to be addressed. Schools are able to identify grade levels, genders, hot spots in the building, and possible trends with students that might need extra intervention.

Coffee County Schools implemented a student incentive awards program in the fall of 2006 at one high school. Awards are given for academic achievements, attendance, and behavior during the previous semester. Students may receive free parking, free admission to school events, or discounts at local businesses and restaurants.

To increase safety on busses, **Murfreesboro City Schools** has added a number of features to their fleet. To prevent rear end collisions while stopped large LED brake lights were installed to the back center of each bus. Aerial lettering and numbering was added to the top of each bus to facilitate locating a missing bus. Buses are equipped with a radio for 911 contact, life safety hammers, and CPR masks. Seating charts and rosters are also required for every bus to assist police in case of an accident. Bus assistants have been placed on most buses and drivers report reduced behavior problems.

To assist students who are failing more than one subject and have multiple disciplinary referrals, **Hamilton County Schools** has piloted the Project Fresh

Start program. Students are referred by administrators or parents who see the students in trouble. The program combines online instruction as well as weekly professional counseling and adult mentoring.

Following the shooting at Central High School, **Knox County Schools** convened a safety review committee to review the district's safety and security procedures and provide recommendations for improvement. The committee was composed of national, state and local experts in the field. Committee members reviewed district policies and procedures and visited three high schools, one middle school and one elementary school as part of its work. A report was submitted to the director and school board as well as being released to parents and the community.

Hardin County Schools used implementation of the Olweus program at Hardin County High School as a springboard for a number of positive changes. Teachers are aware of "hot spots" in the school and monitor those closely. Partnerships have been developed with Juvenile Court and Hardin County Middle School. Peer mediation and mentoring programs have been established to develop positive student leadership. On January 14, 2009, an Athletic Leadership Summit was held that included 450 students and 27 coaches and administrators. Athletes have now stepped up to be leaders against bullying.

Shelby County Schools uses the intervention strategy Aggression Replacement Therapy (A.R.T.) to combat violence in their schools. Students are referred to the group for six to eight weekly hour-long sessions. Skills for controlling anger, dealing with certain social situations, and finding alternatives to violence are focused on in the program.

Sullivan County Schools have involved their students in the research and planning for school climate improvement. Students collect and analyze school climate data in their school to develop action plans and improvement plans. The initiative ties student school climate and academic achievement. Evidence of the initiative's effectiveness was documented in a U.S. Department of Justice evaluation. The strategy was also recently featured in *Educational Leadership*.

Memphis City Schools has implemented an in-depth threat assessment process based on studies conducted by the Secret Service and U.S. Department of Education as well as the work of the University of Virginia Youth Violence Project. All site administrators (principals and assistants) have been trained in the model and conduct an initial screening. If indicated, the student is referred for further screening or a full threat/mental health assessment by a specially-trained team of mental health professionals. In addition to the assessment, the team develops an individual safety plan for each student served. The team screened 387 students during the 2007-08 school year and conducted full assessments on approximately 250.

Weakley County Schools have implemented a series of in-depth training events including a large scale simulated bus event in coordination with law enforcement agencies from the 27th Judicial District Special Response Team. Fifty staff members representing Incident Response Teams from each of the system's 11 schools have completed 16 hours of Community Emergency Response Training.

Metropolitan Nashville Public Schools relies upon a balance of security and climate measures including "Bady", a K-9 used for drug detection, drug wipes, and the random use of portable walk-through metal detectors. Two student groups have been convened which meet at least twice a month to discuss student/school related issues.

CONFLICT RESOLUTION AND CHARACTER EDUCATION PROGRAMS IN TENNESSEE

Tenn. Code Ann. § 49-2-118 states that each local education agency shall implement for grades one through six an intervention program that utilizes conflict resolution and decision-making strategies aimed at preventing occurrences of disruptive acts by students within the school and on school property. Conflict resolution programs are intended to reduce violence by providing children with the skills, information, and practice needed to appropriately resolve conflict. Some of the interpersonal skills taught in a typical program include empathy, impulse control, problem solving, and anger management.

In 1999, *Tenn. Code Ann. § 49-6-1007* was amended to include that school systems report to the Department of Education and General Assembly information about their character education efforts and progress. Tennessee is one of 28 states that have legislation mandating or encouraging character education. Based on the language of the mandate, social, ethical and emotional development should be an integral part of the school day. Character education can and should create school environments where students feel safe, valued and respected and that will lead to improvements in attendance, behavior and

academics. The National Character Education Partnership (CEP) was established to provide educators with access to best practices, materials and resources. CEP, with the help of Tom Lickona, developed the “Character Education Quality Standards” (Appendix 10) as a guide for implementing character development activities. Sample character education teaching methods are included as Attachment 11.

Findings

All Tennessee school districts were included in the 2007-2008 Conflict Resolution Survey. In the 2007-2008 school year, Conflict Resolution programs reached 640,244 students in 1,319 schools in Tennessee. Character Education programs reached 808,939 students in 1,589 schools.

Of the responding districts, 125 reported improvements in the school climate as a result of the conflict resolution programs, 117 reported improved student behavior, and 94 reported improved staff and student morale.

Conclusions

The data collected suggests that these programs have been effective in reducing problem behaviors and improving the overall climate of a school. Additional information regarding conflict resolution and character education programs is available by visiting the Office of School Safety and Learning Support Program’s website at: <http://www.tennessee.gov/education/learningsupport/tssc.shtml>.

1.0: EMERGENCY MANAGEMENT

A district and school level emergency response plan (ERP) has been developed in conjunction with local emergency response agencies. The ERP is fluid and integrates a multi-hazard approach to planning, involvement from appropriate stakeholders and establishes an incident command structure synchronized with both district and school level safety teams.

	Indicators of Success	Met	Not Met/ Action Plan Required	In Progress/ Action Plan Required	Not Applicable/ Explanation Required
1.1	A district and school level emergency response plan (ERP) has been developed in coordination with local emergency response agencies and other appropriate stakeholders including the following: police and fire departments, EMS, local medical facilities, administrators, staff, parents and students, school nurse(s), school resource officer(s), mental health agencies, school transportation personnel and other appropriate community representatives.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.2	Mutual aid agreements exist with local response agencies that outline the type of assistance, and identify a chain of command for activating the agreement, define a common language for communicating before, during and after an emergency, and include response agencies when conducting functional exercises.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.3	The district and schools have readily available and provided a current copy of the ERP, floor plans/blueprints, schematics, and maps of the school interior and grounds to local emergency response agencies.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

	Indicators of Success	Met	Not Met/ Action Plan Required	In Progress/ Action Plan Required	Not Applicable/ Explanation Required
1.13	Each individual falling under the Incident Command System (ICS) has assigned and designated responsibilities during an emergency and received training accordingly.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.14	All district and school ERPs include the following elements: concept of operations, first responder team, postvention team, parent notification plan, plan for relocating and releasing students, designated primary and alternate evacuation routes, planning for school-sponsored events, field trips, bus emergencies and on-site and off-site command posts.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.15	An internal and external communication plan is developed to ensure contact is established in a way that facilitates rapid and secure distribution of critical emergency information. Furthermore, plain language is developed and used for commands that alert administrators, staff, students and local emergency response agencies to the appropriate emergency response(s).	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.16	The district ERP has outlined a media response/communication plan. At minimum the plan includes the following: a designated public information officer (PIO), the establishment of one unified message, plan for communicating information to parents and the community, identified and separate staging areas for the media, and guidelines on how to respond to media questioning during an emergency.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

	Indicators of Success	Met	Not Met/ Action Plan Required	In Progress/ Action Plan Required	Not Applicable/ Explanation Required
1.17	District, school, classroom, and bus emergency kits are on hand and include (when appropriate): specific emergency response plans (flip charts, crisis cards, etc.), staff and student emergency contact and medical information, bus route information, student release information, phone trees and emergency numbers, first aid kits and other appropriate items.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.18	District and school ERPs address and plan for the distinct needs of special populations during an emergency such as disabled and/or non-English-speaking students and staff.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.19	The district ERP and all school-level ERPs have included plans for the documentation of administrative actions during an emergency. Such records might include the following: telephone logs, detailed description of events and actions taken, records of injuries and follow-up actions, accounting for administrators, staff and students, notification of parents and parent pick up documentation.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.20	In coordination with local emergency response agencies, the district and school has developed, disseminated and implemented emergency drills/procedures for the following: evacuation, reverse evacuation, lockdown, shelter-in-place, and drop, cover and hold. Administrators, staff, and students have been trained in these procedures.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

	Indicators of Success	Met	Not Met/ Action Plan Required	In Progress/ Action Plan Required	Not Applicable/ Explanation Required
1.21	The school district has explored the issues associated with a continuity of operations plan (COOP) that would allow the district to continue mission-critical operations following an event that results in significant loss of personnel and/or extended school closing (pandemic flu).	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.22	All components of the district and school ERP are reviewed and revised annually based on deficiencies identified through drills, exercises, and actual implementation. Any new potential hazards, safety issues, and/or threats (based on yearly assessments) are accounted for in the ERP. Revisions to the ERP are made in coordination with all appropriate stakeholders and delivered to local emergency response agencies ensuring that a current plan resides with these agencies at all times.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.23	Consistent with <i>Tenn. Code Ann. § 49-6-801</i> the district has made available a summary of the system-wide ERP for public comment at least (30) days prior to its adoption.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.24	As outlined in <i>Tenn. Code Ann. § 49-6-801</i> , the district level ERP has been submitted to the Tennessee Department of Education. Supplemental materials include contact information for the following individuals: director of schools, emergency coordinator, crisis intervention/postvention coordinator, PIO, school-level emergency coordinators, and the transportation supervisor.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

➤ 2.0: PREVENTION AND INTERVENTION

Some emergencies can be prevented and/or mitigated. School safety planning includes taking appropriate steps to prevent problems from developing in the first place. Districts should attempt to defuse a crisis before it occurs by creating supportive learning environments that strive to reduce potential risks to the greatest extent possible. This includes training administrators and staff to identify students who exhibit early warning signs for the potential use of violence.

	Indicators of Success	Met	Not Met/ Action Plan Required	In Progress/ Action Plan Required	Not Applicable/ Explanation Required
2.1	The guiding philosophy and mission of the district and schools is central to student success, invokes high levels of staff support, and fosters a safe and supportive school climate.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2.2	Administrators, staff and transportation personnel are trained to identify the early-warning signs associated with students who pose a potential threat to others or themselves including training in threat assessment and crisis intervention.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2.3	The school district has established linkages to local mental health agencies, including a mobile crisis team/postvention team that will support schools during the recovery phase of a crisis.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2.4	Administrators, staff, and transportation personnel are provided in-service training to teach positive social skills, healthy lifestyles, and violence prevention and fuse these topics into the curriculum. Topics might include the following: alcohol, drugs, suicide, tobacco, violence prevention, conflict resolution, character education, communication/decision making, health and wellness education, internet safety, problem solving, sexual harassment, social skills, teamwork, and other appropriate training events.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

	Indicators of Success	Met	Not Met/ Action Plan Required	In Progress/ Action Plan Required	Not Applicable/ Explanation Required
2.5	Students have access to licensed school counselors who are implementing the <i>Tennessee Comprehensive School Counseling Model</i> and are empowered to make recommendations to outside social service agencies that can assist the student with his or her particular needs.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2.6	Parents, students and the community are partners with the district and school and take an active role in the collective responsibility for the safety of the schools.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2.7	Schools annually conduct climate assessments. Assessments cover topics such as the following: student discipline, gangs, violence, bullying (including cyber bullying), threats perceived by students, and other safety concerns. The results of the assessments are used to develop a plan of action.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

2.8	Alternatives to suspension and expulsion have been built into the disciplinary policy and are appropriately and consistently used. Alternative education programs utilize best practices in the field as outlined in <i>Tennessee’s Model for Alternative Education</i> .	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2.9	Students have opportunities before and after school to participate in extended learning and recreational activities.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

3.0: POLICIES AND PROCEDURES

Carefully developed policies and procedures can help to reduce emergencies and compliment your existing emergency response plan (ERP). Effective policies and procedures outlining specific actions regarding day-to-day operations can help prevent, or reduce the chances of an emergency and/or crisis.

	Indicators of Success	Met	Not Met/ Action Plan Required	In Progress/ Action Plan Required	Not Applicable/ Explanation Required
3.1	The district and all schools have a written code of conduct based on stakeholder input that is revised annually, ensures safe and disciplined classrooms, avoids technical jargon, and is clearly communicated to staff, students and parents. (i.e. commonly found in the student handbook)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3.2	Consistent with <i>Tenn. Code Ann. § 49-6-1016</i> , the school district has implemented a policy prohibiting and responding to an incident of harassment, intimidation, and bullying. This policy should be included in the code of conduct.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3.3	The district has a formal procedure to receive, investigate, and respond to threats, an actual incident of violence, or other misconduct by students or staff.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3.4	The State Board of Education's <i>Unsafe School Choice Policy</i> is implemented and regularly communicated to administrators, teachers, staff and students.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3.5	A memorandum of understanding exists when a school resource officer is assigned to a particular school building. The MOU designates the SRO's role within the school environment and their responsibilities during an emergency. Furthermore, a MOU exists between the district and a local mental health agency.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

A FRAMEWORK FOR BUILDING AND PRESERVING SAFE AND SUPPORTIVE LEARNING ENVIRONMENTS

Tennessee School Safety Center

Department of Education, Office of School Safety and Learning Support

SAVE Act Compliance Instrument/ Self-Assessment

	Indicators of Success	Met	Not Met/ Action Plan Required	In Progress/ Action Plan Required	Not Applicable/ Explanation Required
3.6	The district has formal procedures in place that limit access to each educational facility to authorized students, administrators and staff. Procedures include a clearly marked and centralized point for screening all visitors. Each facility also has procedures for securing the school after hours and/or when unoccupied.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3.7	Consistent with <i>Tenn. Code Ann. §. 49-5-413</i> the school district has conducted criminal history/background checks of all teachers and other employees working in close proximity to school children or children in a child care program. Furthermore, history/background checks are conducted on all vendors having direct contact or access to the grounds of a school or child care center when children are present.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3.8	The district has a policy that prohibits weapons on or in any educational facility. This policy has been communicated to administrators, staff, transportation personnel, students, parents and the community. Signs are posted in each facility that indicates the existence of this policy.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3.9	The district has an approved Safe and Drug Free Schools plan that is based on an annual needs assessment involving all appropriate stakeholders and includes the mandated advisory council or committee. The district annually reviews and revises programs funded under SDFS based on the needs of that particular district and in coordination with school climate assessments.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

A FRAMEWORK FOR BUILDING AND PRESERVING SAFE AND SUPPORTIVE LEARNING ENVIRONMENTS

Tennessee School Safety Center

Department of Education, Office of School Safety and Learning Support

SAVE Act Compliance Instrument/ Self-Assessment

	Indicators of Success	Met	Not Met/ Action Plan Required	In Progress/ Action Plan Required	Not Applicable/ Explanation Required
3.10	A certified fire marshal inspector has conducted an annual fire safety assessment of all educational facilities to ensure compliance with the guidelines set forth. Deficiencies are immediately addressed and remedied based on the inspector's findings.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3.11	The district has developed and implemented procedures for verifying that required and planned emergency drills have been conducted at each school. Furthermore, the district has participated in functional exercises that help assess emergency readiness.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3.12	The district has adopted procedures for responding to reports of a firearm on campus. Procedures include the immediate notification of local law enforcement as required by <i>Tenn. Code Ann. § 49-6-4209</i> . Furthermore, the procedure is communicated to administrators, staff, and transportation personnel.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3.13	When the school district negotiates contracts with outside agencies, the district specifies appropriate measures to ensure the safety and general well being of students benefiting from those services (i.e. requiring an emergency response plan, training, drills, etc.).	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3.14	The district has procedures in place that designate when and who has the authority to activate the district and school-level emergency response plan (ERP).	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

CHARACTER EDUCATION QUALITY STANDARDS

*Developed by the Character Education Partnership
Endorsed by the TN Character Education Partnership*

Principle #1: Character education promotes core ethical values as the basis of good character

Principle #2: Character is comprehensively defined to include thinking, feeling, and behavior.

Principle #3: Effective character education requires an intentional, proactive, and comprehensive approach that promotes the core values in all phases of school life.

Principle #4: The school is a caring community.

Principle #5: To develop character, the school provides students opportunities for moral action.

Principle #6: Effective character education includes a meaningful and challenging academic curriculum that respects all learners and helps them succeed.

Principle #7: Character education should strive to develop students' intrinsic motivation for developing good character.

Principle #8: The school staff is a learning and moral community in which all share responsibility for character education and attempt to adhere to the same core values that guide the education of students.

Principle #9: Staff and students demonstrate moral leadership.

Principle #10: The school recruits parents and community members as full partners in the character-building effort.

Principle #11: Evaluation of character education assesses the character of the school, the school staff's functioning as character educators, and the extent to which students manifest good character.

2008-2009 Sample Teaching Strategies:

Service Learning Projects – Nursing Home adoptions, Homeless Shelter adoptions, Meals-on-Wheels projects, Habitat for Humanity projects, peer tutoring.

Small Cooperative Learning groups – Small group activities such as games, discussion cards, role-play and class projects.

Mentoring programs – High School students provide drug awareness and abstinence (self-respect, responsibility) information to younger students through role-play and facilitation of cooperative groups.

Role-play – Students are guided through role-play situations where they learn to react to different statements or actions by other people challenging them to use learned character traits to respond in the proper way.

Class Discussion – Effective in bringing to the students' attention the results of making poor choices; students work on improving decision-making skills.

Language Arts activities – Use of literature and short stories featuring specific character traits, reflective/creative writing activities, storytelling and creating and performing skits.

Fine Arts activities – Students create artwork, music/songs, skits and puppets to depict positive actions and good decision making.

Peer Mediation – Students learn to help each other work through problems and strengthen their interpersonal skills and understanding of the traits covered in class (i.e. fairness, respect and responsibility).

Character.net internet site – Students research/read topics in the character education model and respond in writing about the topic. Students post their writing for others to read and discuss.
