At the conclusion of this RFQ, the State will provide the list of qualified consultants and their qualifications obtained through this RFQ process to the funded entities and the State will not be involved in the entity's selection/procurement process, which must be complete by **May 30, 2017**. If selected by a funded entity, the consultant must complete the following Master Plan work tasks by **November 30, 2017**:

1. Conduct community-based needs assessment surveys of the residents within the boundaries of the entity. The consultant will develop a questionnaire with specific input from the entity staff. The consultant will be responsible for all aspects of acquiring the information and compiling the results of the survey. Additionally, compare and contrast the entity with three other entities of equal size.

3. Evaluate existing facilities, equipment, property, programming and department (if applicable) operation in correlation with the present and projected needs of the community within the next ten (10) years. The consultant will evaluate each

property/facility and document findings that will be used to determine if adequate resources exist at each park and community-wide. The evaluation will include at a minimum:

 - Park land utilization for active and passive areas
 - Compatible usage and alternatives
 - ADA compatibility
 - Safety and security issues
 - Regional trail and open space connections; pedestrians and bicycles
 - Potential for expansion
 - Potential for consolidation of facilities; maintenance and sports complexes
4. A benchmark comparison of existing parks, facilities and programs will be conducted assessing the entity's ability to provide recreational opportunities to the existing and future residents of the community in comparison to the appropriate national standards.
 5. Evaluate existing parkland dedication ordinances and fees for appropriateness and provide recommendations for changes.
 6. Examine the entity's 5-year park and/or entity budget plans specifically in areas involving future capital projects of equipment, facilities, property acquisition, and staff, programming and general operation expenses.
 7. Evaluate the need for future park land acquisition based on community demographics and surveys, current and proposed housing development trends, and provide a map that designates specific areas of the community to be considered if park land is to be acquired or greenway corridors utilized.
 8. Evaluate existing stream corridors for blueway connections or improvements.
 9. Conduct a minimum of 2 community meetings to obtain input from public for development of the comprehensive plan and a minimum of one meeting with the entity staff to review recommendations based on the results of the master plan study.
 10. Conduct interviews or meetings with entity staff such as Mayor/County Executive, City Manager and Parks Staff and/or Advisory Board for the development of the master plan.
 11. Develop a conceptual master plan for renovation/development of existing facilities and identify new programs and services to meet the needs of the community residents. Plans will focus on determining the optimum use for existing facilities and will provide a community-wide focus as well as needed neighborhood level improvements.
 12. Develop a 10-year plan for the Parks and Recreation system that corresponds with the master plan recommendations. The plan should include future parks and recreation projects of equipment, facilities and property acquisition.

SECTION C: TECHNICAL QUALIFICATIONS, EXPERIENCE & APPROACH. The Respondent should explain its approach to providing goods or services to the State. The items listed below represent specific questions the State would request you answer in your response. For ease of review, please annotate your explanation so that it contains references to the items listed below where they are addressed. Respondent should not feel constrained to answer only the specific questions listed below in its explanation and should feel free to provide attachments if necessary in an effort to provide a more thorough response.

The Evaluation Team, made up of three (3) or more State employees, will independently evaluate and score the response to each item. Each evaluator will use the following whole number, raw point scale for scoring each item:

The Solicitation Coordinator will multiply the Item Score by the associated Evaluation Factor (indicating the relative emphasis of the item in the overall evaluation). The resulting product will be the item's raw, weighted score for purposes of calculating the section scores as indicated.
