

# BICENTENNIAL MALL URBAN MASTER PLAN UPDATE

SBC 460/000-01-2015

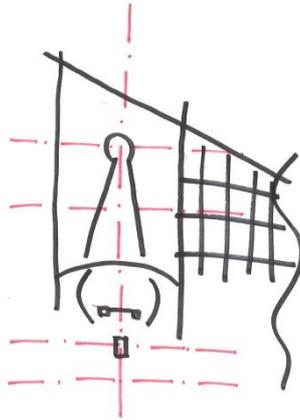

**ESa**

11 June 2015

EXISTING AERIAL

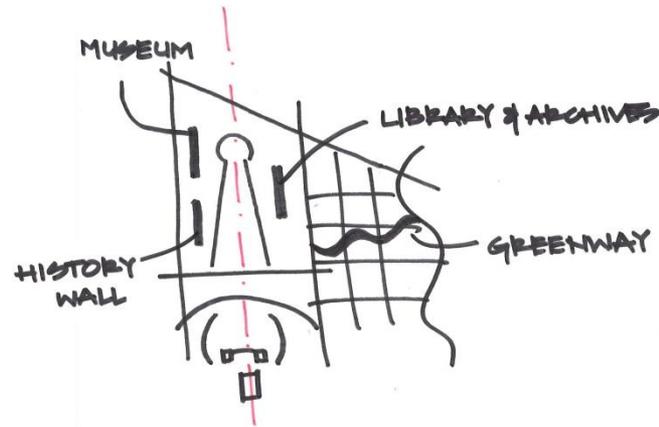

## AXIAL RELATIONSHIPS

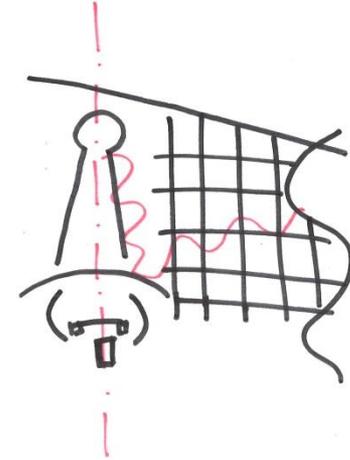

- Maintain, reinforce and create axial relationships throughout the district
- Allow axial relationships to define building entries, view corridors and circulation routes
- Axial relationship may connect components, sculptural elements, and/or natural features

## LIVING HISTORY

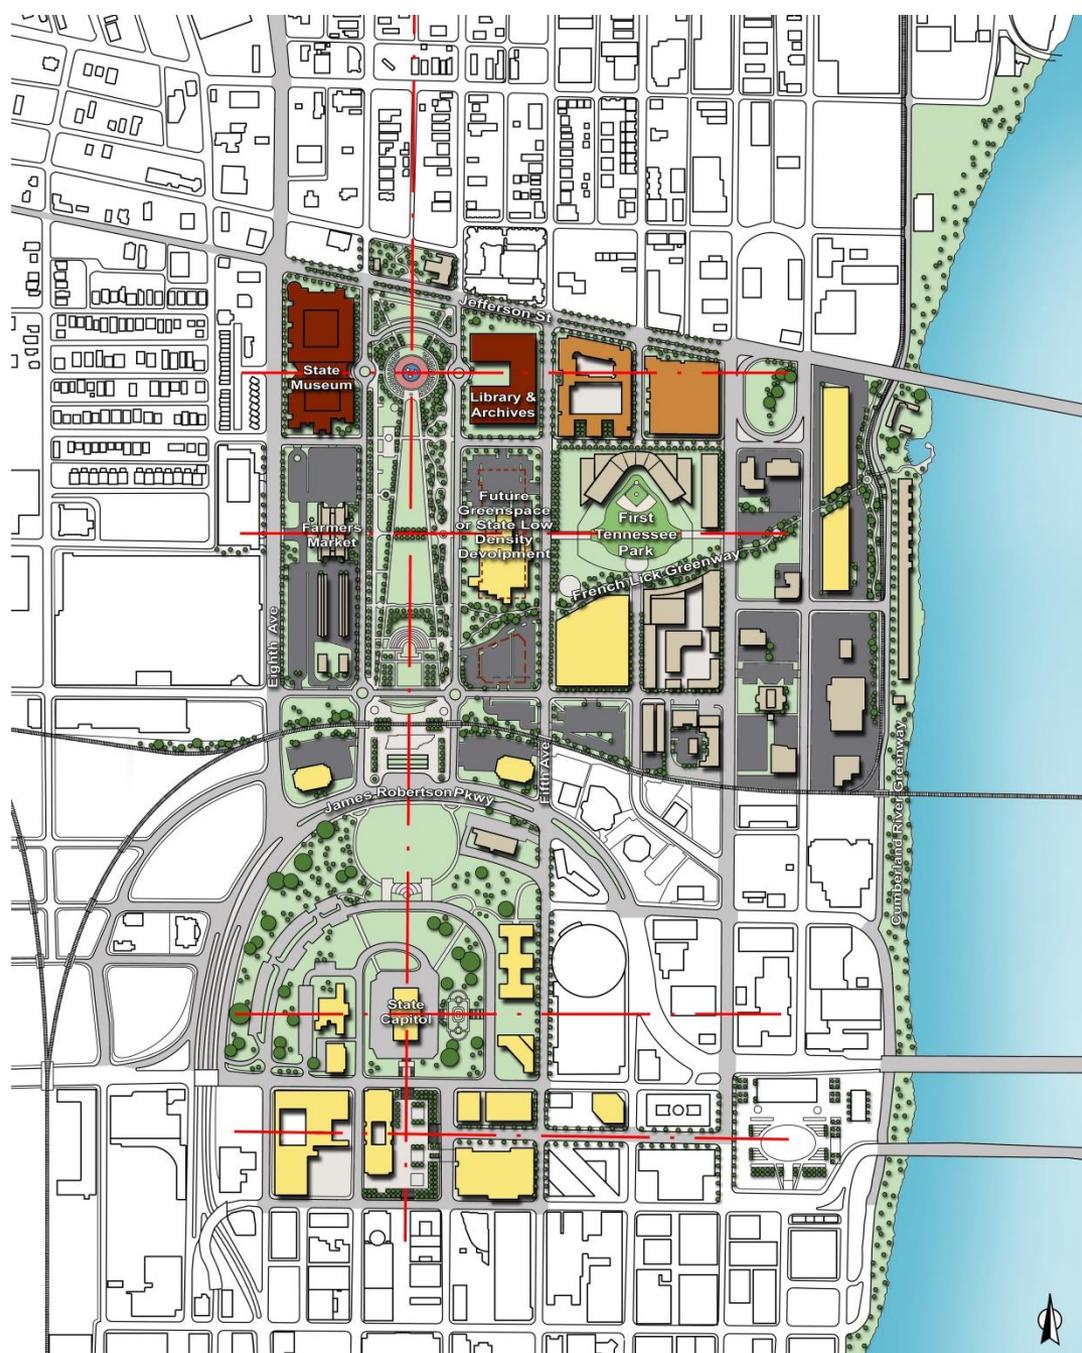

- Recognize and connect with the rich and varied history of the area
- History of French Lick
- History of Neighborhoods
- State History—Bicentennial Mall

## FORMALITY + INFORMALITY

- Formal grid of the city vs. the organic informality of the Greenway
- Formal expression of civic structures along Mall vs. informal use along this edge
- Designers are encouraged to extend this principle within the context and discipline of the Master Plan
