

Eligible Professionals (EPs) and Eligible Hospitals (EHs) who are planning to send data to the Tennessee Department of Health (TDH) are required to use the Trading Partner Registration (TPR) system to register their intent.

TPR is an application that allows potential trading partners (like hospitals, eligible professionals, pharmacies, laboratories, and others) to register their intent to electronically exchange data with TDH and provides a mechanism for eligible professionals and eligible hospitals to register their intent with TDH for the Meaningful Use public health measures.

Using the TPR system, trading partners can now register at one location, for Immunization Messaging, Cancer Case Reporting, Electronic Laboratory Reporting (ELR), and Syndromic Surveillance Messaging (**EHs only**), as well as view their progress through the on-boarding processes. TPR will also allow users to document the relationships between entities within their organization and provide an effective way for TDH to communicate with potential trading partners. Documentation that can be utilized for Meaningful Use attestation, milestones, and requests for actions are also displayed within the TPR organizational profiles.

Soon, all trading partners will be required to register to exchange data for all stages of Meaningful Use using the TPR system.

- At this time all eligible providers desiring to participate in Cancer Case Reporting are required to use the TPR system to register their intent.
- Eligible Hospitals working on or planning to work on ELR will be expected to register in this system **by October 1<sup>st</sup>, 2015**.
- Eligible Hospitals **with emergency departments** who plan to participate in Syndromic Surveillance for MU Stage 2 will also need to register in this system.
- The immunization program will switch to TPR starting **October 1<sup>st</sup>, 2015**. Until that point registrations of intent to exchange data with the Immunization Registry will be accepted via the existing link.

TPR Webinars are scheduled for the following dates and times:

- Friday, October 2<sup>nd</sup>, 10:00 AM - 11:00 AM CDT
- Tuesday, October 13<sup>th</sup>, 10:00 AM -11:00 AM CDT
- Thursday, October 29<sup>th</sup>, 10:00 AM -11:00 AM CDT
- Tuesday, November 3<sup>rd</sup>, 2:00 PM -3:00 PM CDT
- Thursday, November 19<sup>th</sup>, 9:30 AM -10:30 AM CDT

To receive the TPR webinar details, you **must** RSVP by sending an email with the desired date to [MU.Health@tn.gov](mailto:MU.Health@tn.gov). In your response include the name of your affiliated organization and the interface your organization wishes to register with (e.g., Cancer Case

Reporting, Electronic Laboratory Reporting, Immunizations, or Syndromic Surveillance). If that date and time is available you will receive an invite with the conference phone number and a webinar link.

If you would like to learn more about Meaningful Use public health objectives, visit the TDH Meaningful Use web page at <http://tn.gov/health/topic/meaningful-use-summary>.
