

Proverbs 12:10 Animal Rescue

Proverbs 12:10 Animal Rescue is a no kill rescue. We place an average of 700 dogs and cats per year. We are a foster based program and pride ourselves in being a cradle to grave rescue which in essence means once an animal comes through Proverbs, it always has a place to return should the adoption fail for any reason. While we place lots of young very healthy animals, we also offer hospice care for any animal in our care who is terminal, but who still has quality of life. We offer the same amount of quality vetting to our seniors as well as our young. Another unique part of Proverbs is we provide sanctuary for any who might turn out to be unadoptable. It is our belief that all of our rescues are entitled to all that is medically available in order to get them healthy and ready for adoption. Sometimes that means we will spend thousands to restore a pet to health. Trainers are used when needed and our goal is a loving, safe home for all in our rescue. We are solely dependent upon the generosity of our supporters to continue this ministry and work tirelessly to that end. Thanks to our work there are thousands of rescue pets living a good life and of that we are proud, yet humbled by all who make this come to fruition.

Helping "HIS" helpless,

Lavonne Redferrin, Director/Founder
