

**PSYCHIATRIC INPATIENT
SERVICES**

PSYCHIATRIC INPATIENT SERVICES

A. Need

1. The population-based estimate of the total need for psychiatric inpatient services is 30 beds per 100,000 general population (using population estimates prepared by the Department of Health and applying the data in Joint Annual Reports).
2. For adult programs, the age group of 18 years and older should be used in calculating the estimated total number of beds needed.
3. For child inpatient under age 13, and if adolescent program the age group of 13-17 should be used.
4. These estimates for total need should be adjusted by the existent staffed beds operating in the area as counted by the Department of Health in the Joint Annual Report.

B. Service Area

1. The geographic service area should be reasonable and based on an optimal balance between population density and service proximity or the Community Service Agency.
2. The relationship of the socio-demographics of the service area, and the projected population to receive services, should be considered. The proposal's sensitivity to and responsiveness to the special needs of the service area should be considered including accessibility to consumers, particularly women, racial and ethnic minorities, low income groups, and those needing services involuntarily.

C. Relationship to Existing Applicable Plans

1. The proposal's relationship to policy as formulated in state, city, county, and/or regional plans and other documents should be a significant consideration.
2. The proposal's relationship to underserved geographic areas and underserved population groups as identified in state, city, county and/or regional plans and other documents should be a significant consideration.
3. The impact of the proposal on similar services supported by state appropriations should be assessed and considered.
4. The proposal's relationship to whether or not the facility takes voluntary and/or involuntary admissions, and whether the facility serves acute and/or long-term patients, should be assessed and considered.
5. The degree of projected financial participation in the Medicare and TennCare programs should be considered.

D. Relationship to Existing Similar Services in the Area

1. The area's trends in occupancy and utilization of similar services should be considered.
2. Accessibility to specific special need groups should be an important factor.

E. Feasibility

The ability of the applicant to meet Tennessee Department of Mental Health licensure requirements (related to personnel and staffing for psychiatric inpatient facilities) should be considered.
