InformTN Data Sources and Overview Summary

The tables below provide an overview of the data included in InformTN for 2020-21 annual plan development.

***Table 1** - Table 1 is organized by the data section where the data is found. For each of the high-level metrics, users can dig in further to see breakouts including but not limited to, by student groups, grade, assessment-type, year, and school. Deeper dives depend on the specific data and user permissions. All data is organized annually, except for College and Career Readiness data, which is organized by cohort.*
