RE: Request for Waiver 2018-2019

Dear Ms. Fiveash:

I am writing to request an additional year of waiver of State Board of Education Rule 0520-01-03-07 requiring schools to employ a certain number of library information specialists per school who hold endorsements as library information specialists. We were granted an additional year in April 2016 and May 2017 due to the review of the Rule and any possible changes that had not been completed.

This waiver has given Paris Special School District the flexibility of utilizing a teacher who is a reading specialist to both deliver Tier III instruction and manage our library needs at Inman Middle School. At the middle school level, we have found that a library specialist does not always have the training to provide the Tier III instruction, but a reading specialist has the ability to manage the library. Tier III instruction at the middle school level is our last best chance at students reading on grade level before they begin the rigor and challenges of high school curriculum. Our students have benefitted tremendously from the ability to utilize our personnel in this method.

We respectfully request that we be granted another year of this flexibility. Please review our request and present it to the Commissioner for approval.

Sincerely,

Dr. Norma S. Gerrell
