

# ELA, Grade 1, Lesson 7

Teacher Packet

# Hercules and the Stables

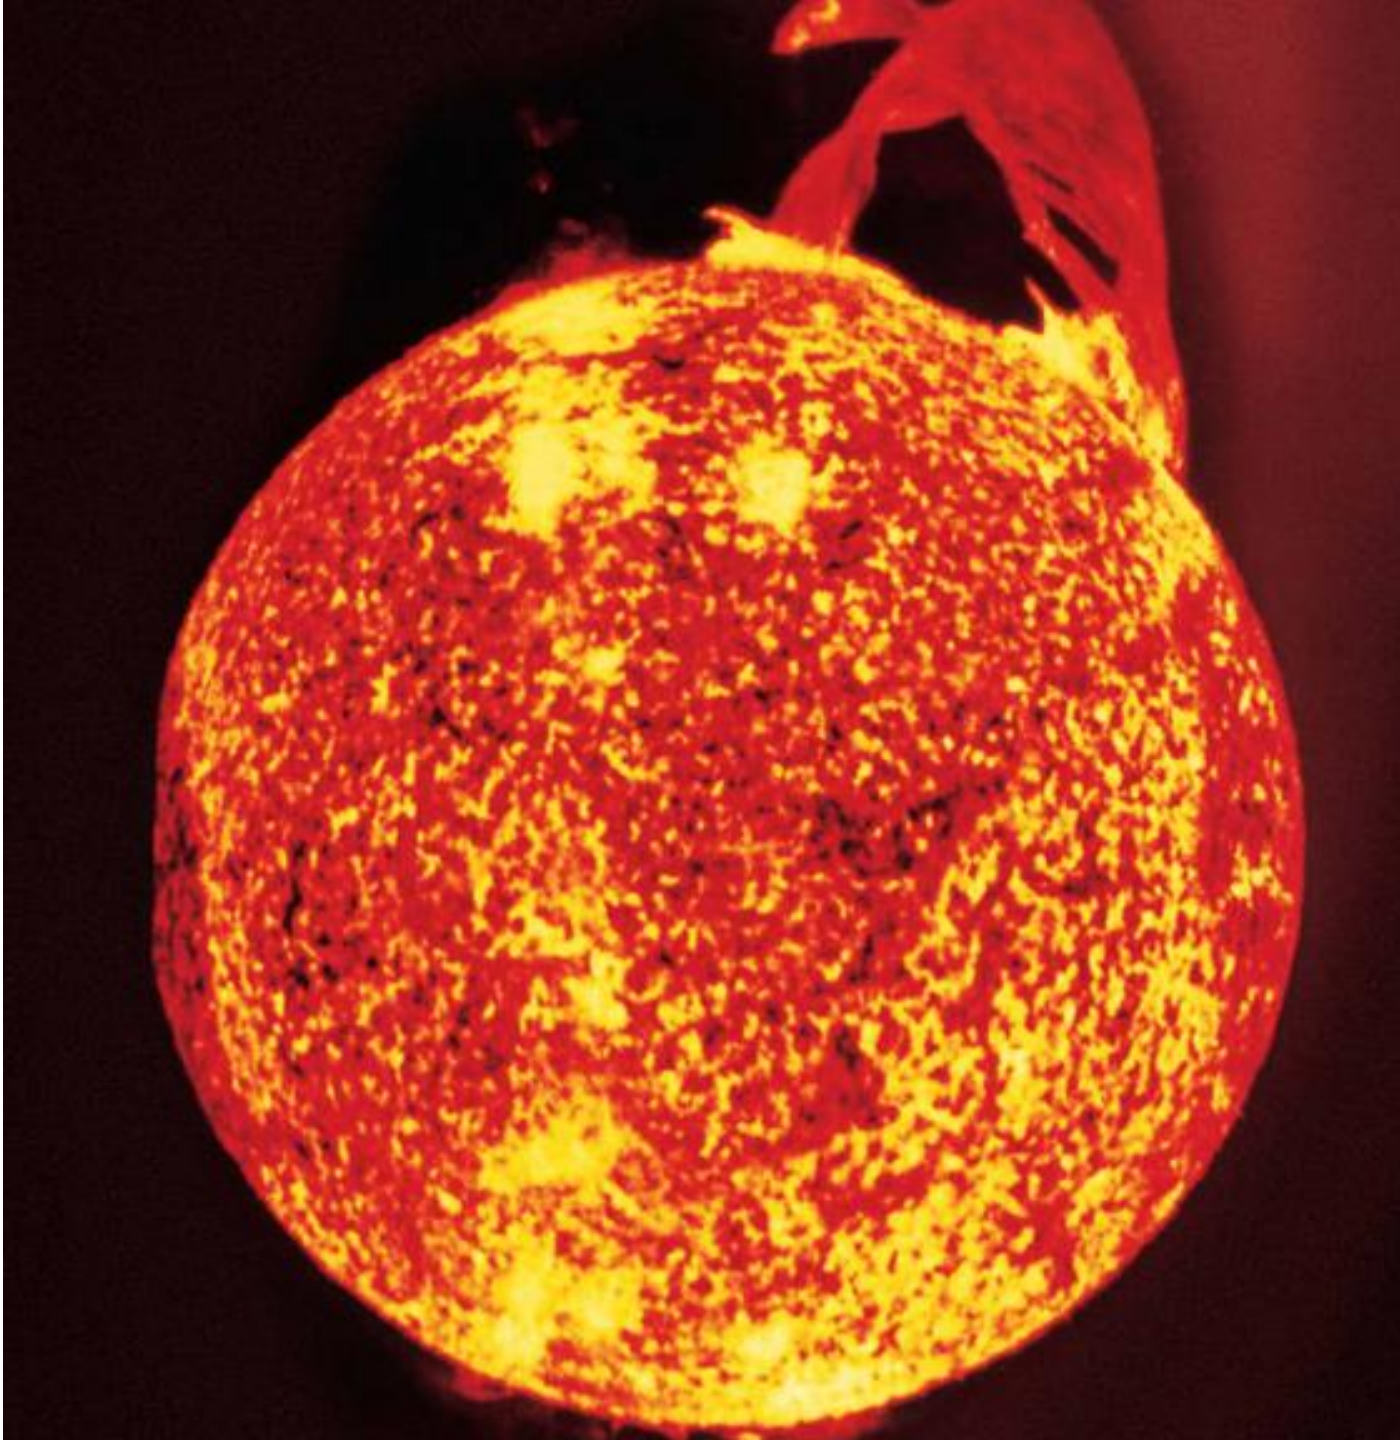

Hercules wanted some cows. He went to the king and asked him for some of his cows. The king said if he cleaned the stable in one day, he could have some cows. First, Hercules made two holes in the stable. He was very strong. Then, he dug a path to the river. The water washed the stable. The king lied and tried to break a promise. The king's son told him he promised. Finally, the king gave Hercules the cows.

# Our Sun

# Why Do We Need the Sun?

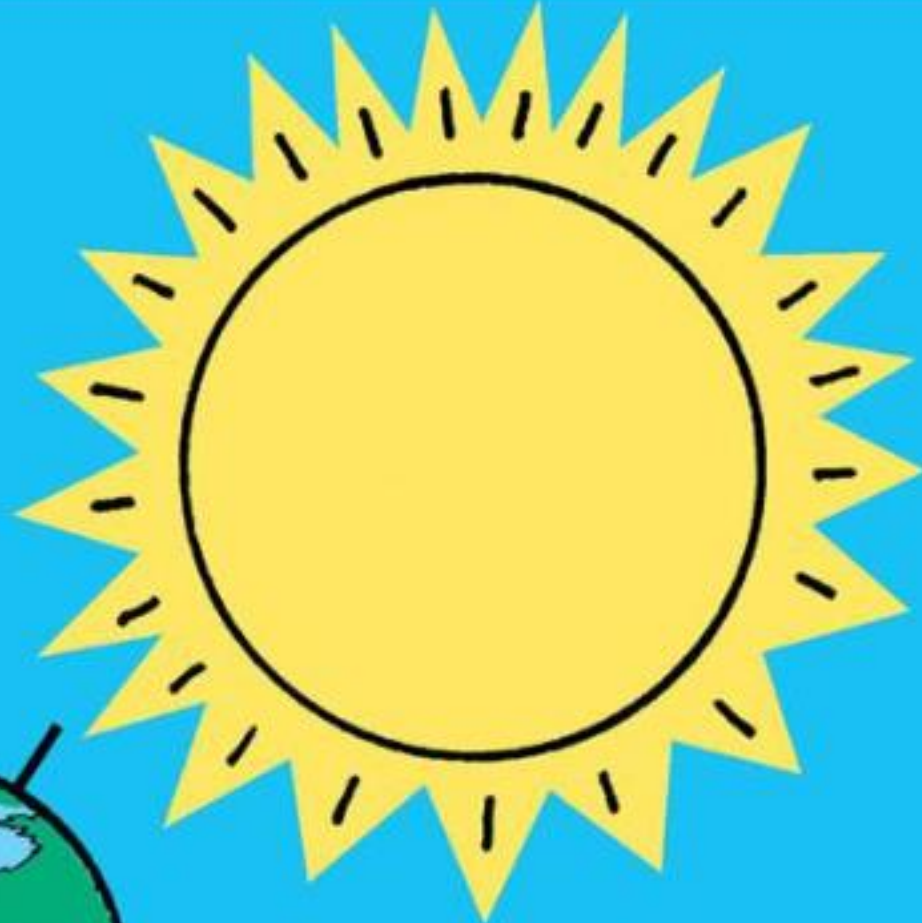

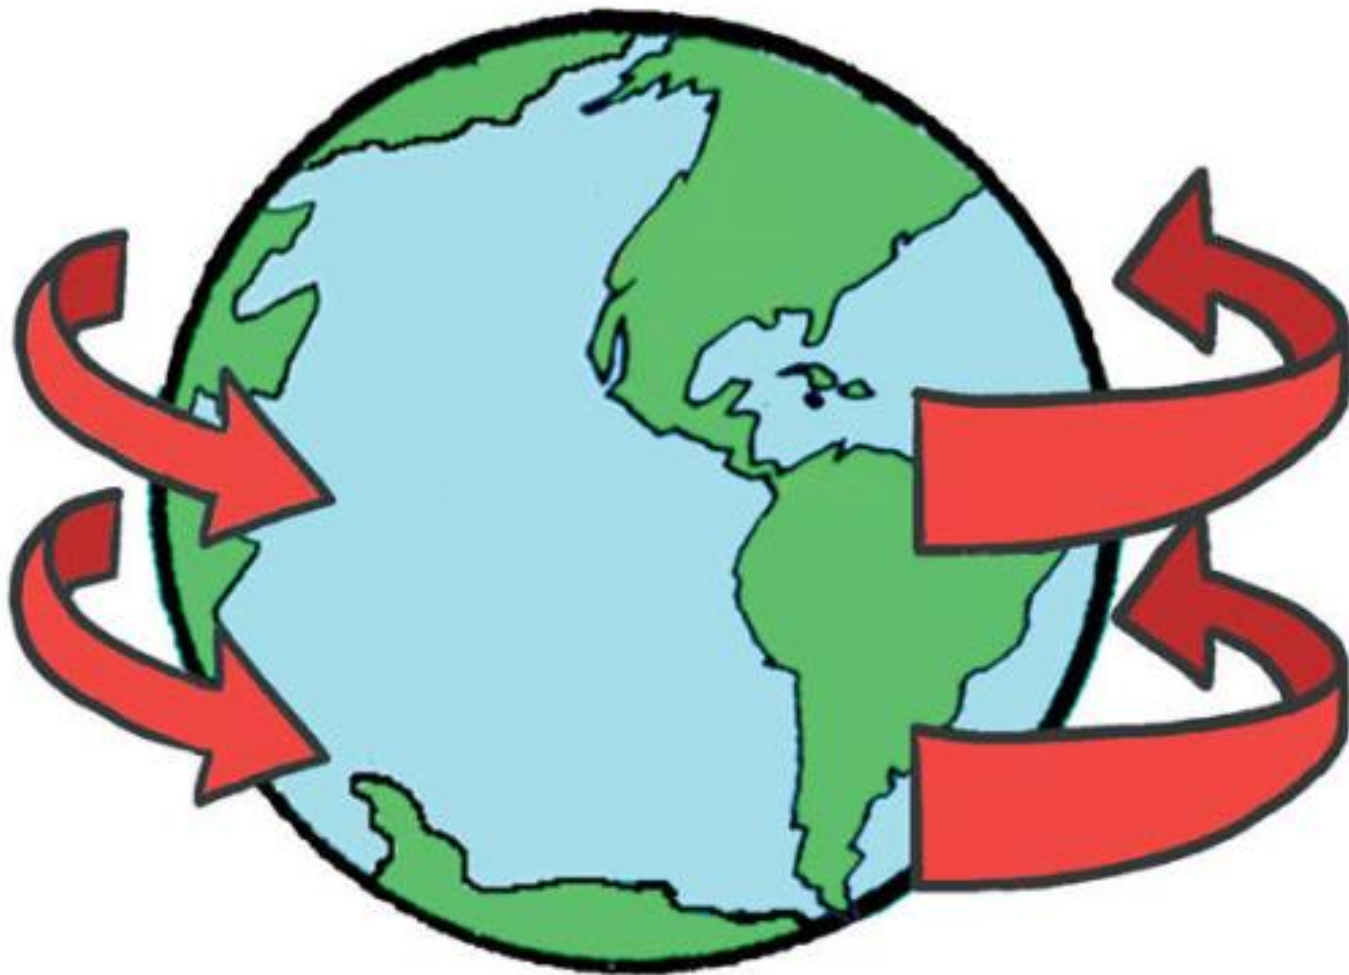

Earth

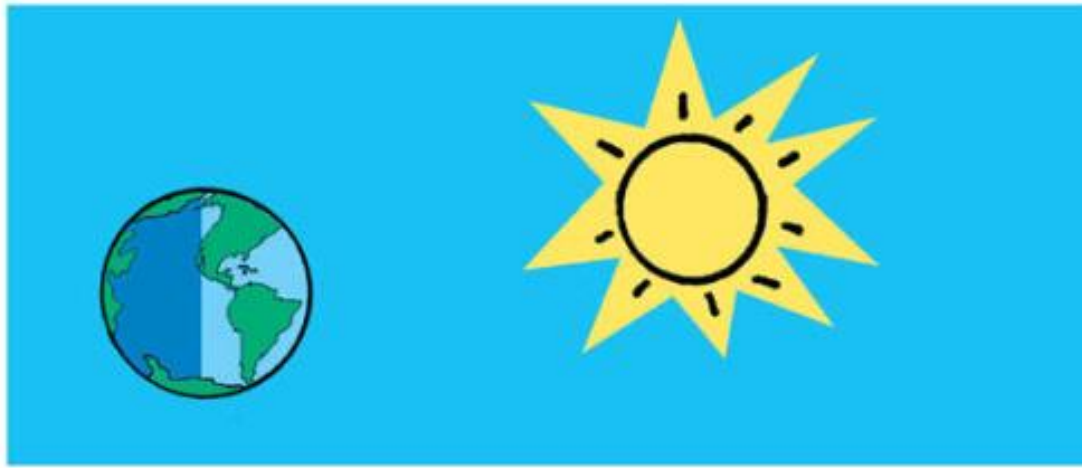

sun

# Why Do We Have Day and Night?

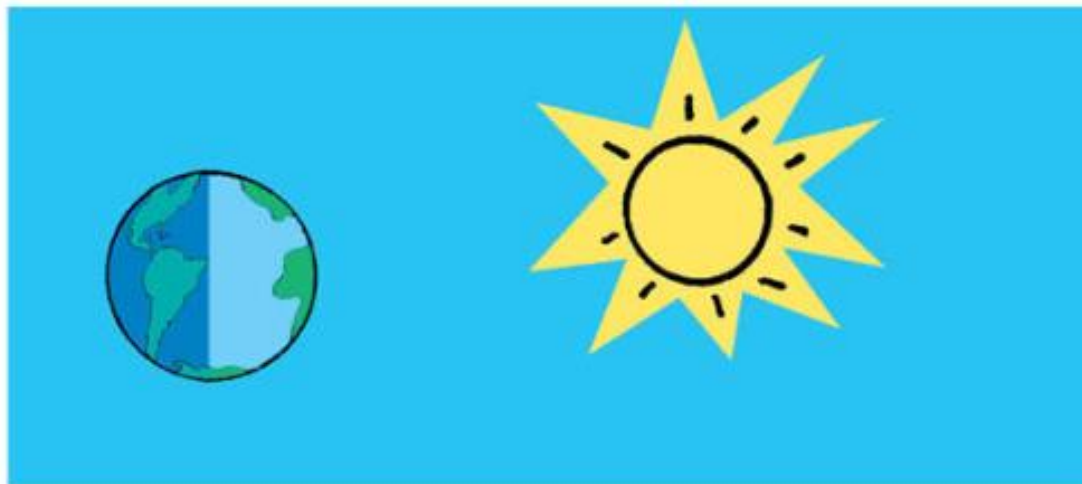

Earth spins around and around.

We have day when we face the sun.

We have night when we face away from the sun.
