

Division of Solid Waste Management Hazardous Waste Program

Annual Report
Report Year **2018**

Table of Contents

Preface	Page 3
The number and type of hazardous waste handlers permitted and/or registered by the Commissioner	Page 5
Fees due, paid, and past due by number and type of hazardous waste handlers	Page 7
The amount of hazardous waste, by type, generated, transported, treated, stored, and disposed of in Tennessee	Page 9
The number of permit applications received, granted, requested, and pending, by type	Page 11
The number and type of enforcement actions in process and initiated during the reporting period, and the results of such enforcement actions	Page 13
A list of hazardous waste generators, transporters, and disposal facilities in Tennessee	Page 15

PREFACE

The Commissioner of the Department of Environment and Conservation as well as the Underground Storage Tanks and Solid Waste Disposal Control Board hereby submit this report on behalf of the State of Tennessee's Hazardous Waste Regulatory Program.

About the Solid Waste Management's Hazardous Waste Program

The Hazardous Waste Management Program regulates hazardous waste generation, transportation, storage, treatment, and disposal. It has authority over facilities subject to Environmental Protection Agency (EPA) Resource Conservation and Recovery Act (RCRA) Subtitle C. Such activities are overseen by EPA Region 4. The Hazardous Waste Management Program operates under the authority of the Hazardous Waste Management Act of 1977 (T.C.A. §68-212-101 et seq.) and various Hazardous Waste Management rules.

Implementation of Tennessee's hazardous waste program began in October 1980, although regulation of hazardous waste is also a federal responsibility under RCRA. Tennessee has been authorized by EPA to administer the majority of the federal program and receives a grant in support of this effort. Other funding for this program is obtained through a fee collection system as well as State appropriations.

The coordinated state and federal program regulates activities such as:

- the permitting and inspection of hazardous waste storage, recycling, treatment, and disposal facilities;
- the management of hazardous waste from generators (primarily manufacturing industry) through the required waste stream notifications, annual reports, and waste reduction plans;
- the annual registration of hazardous waste transporters
- the regulation of used oil facilities and transfer facilities

Hazardous waste management facilities receive hazardous wastes for treatment, storage, or disposal. These facilities are often referred to as treatment, storage, and disposal facilities, or TSDFs.

Treatment facilities use various processes (such as incineration or oxidation) to alter the character or composition of hazardous wastes. Some treatment processes enable waste to be recovered and reused in manufacturing settings, while other treatment processes dramatically reduce the amount of hazardous waste.

Storage facilities temporarily hold hazardous wastes until they are treated or disposed of while disposal facilities permanently contain hazardous wastes. The most common type of disposal facility is a landfill, where hazardous wastes are disposed of in carefully constructed units designed to protect groundwater and surface-water resources.

The detailed regulations located in Tennessee Rules 0400-12-01-.06 and .07 ensure that TSDFs operate safely and protect human health and the environment. Facilities that currently or plan to treat, store, or dispose of hazardous wastes must obtain a RCRA permit using the procedures outlined in Rule 0400-12-01-.07. A RCRA permit is a legally binding document that establishes operating requirements and various provisions specific to the needs of the permit applicant depending on the treatment, storage, or disposal activities conducted at the facility. Permits are written to address the specific geography of the facility, the types of hazardous waste management units, and the specific waste streams that will be managed at the facility. The permit also outlines facility design and operation, lays out safety standards, and describes activities that the facility must perform, such as monitoring and reporting. Permits typically require facilities to develop emergency plans, obtain insurance and financial backing, and train employees to handle hazards and can include facility-specific requirements such as groundwater monitoring.

How the data is collected:

Handlers of hazardous waste are required to notify the state of their activity pursuant to the HAZARDOUS WASTE MANAGEMENT REGULATIONS CHAPTER 0400-12-01. Completed forms are required to be submitted by March 1st of each year detailing their hazardous waste activity for the previous calendar year, frequently referred to as the "Report Year."

Start of Data Period	End of Data Period	Must be Postmarked by	Preliminary Data is Keyed by	Audit and Data Entry
January 1, 2018	December 31, 2018	March 1, 2019	December 2019	September 2020

NUMBER OF HAZARDOUS WASTE GENERATORS TYPES

Hazardous Waste Handlers Permitted or Registered by the Commissioner

The Tennessee Hazardous Waste Management Act of 1977, TCA Section 68-212-101, requires the Division of Solid Waste Management (DSWM) to identify and regulate hazardous waste generators, hazardous waste treatment storage and disposal facilities, and hazardous waste transporters. Hazardous waste generators are categorized into three groups: large quantity generators (LQG); small quantity generators (SQG); and conditionally exempt small quantity generators (CESQG). The numbers for each generator status are listed in Table 1.

Transporters of hazardous waste are required to obtain a permit if they drop off or pick up hazardous waste in the State of Tennessee. The DSWM permits and tracks both in state and out of state transporters as long as they operate or reside in Tennessee. Other states require an EPA ID for such a transporter (just as Tennessee requires out of state transporters to have an EPA ID from their home state). An effort is made to check transporters against other databases, particularly US DOT web sites.

Table 1: Hazardous Waste Handlers

# OF FACILITIES	HAZARDOUS WASTE ACTIVITY
1672	Conditionally Exempt Small Quantity Generators
585	Small Quantity Generators
521	Large Quantity Generators
50	TSD Facilities
48	Hazardous Waste Transporters
274	Hazardous Waste Transfer Facilities
38	Used Oil Transporters
75	Used Oil Facilities

Note: Data queried from local database some values may change slightly as adjustments and audits are completed.

GENERATOR FEES

Table 2: Fees Due, Paid, and Past Due

FEE CODE	FEE CODE DESCRIPTION	INVOICE	PAYMENT	BALANCE	RATIO
114	ONLINE PAYMENT FEE	69.00	68.00	1	99%
513	TSD APP FEE PERMIT MOD	37,700.00	37,700.00	-	100%
514	TSD STORAGE APP FEE PART B	16,200.00	16,200.00	-	100%

574	USED OIL TRANSFER FACILITIES	32,000.00	30,000.00	2,000.00	94%
575	NEW HAZ WASTE STREAM FEE	71,700.00	69,800.00	1,900.00	97%
576	VARIANCE WAIVER RVW	1,500.00	1,500.00	-	100%
716	CIVIL PENALTIES AND DAMAGES	261,883.00	247,383.00	14,500.00	94%
	TOTAL INVOICE/PAYMENT	3,318,736.35	3,254,120.76	64,615.59	98%

Note: Some data values may change slightly as adjustments and audits are completed. This can occur over a period of years. Every attempt is made to obtain the most current data. HW TRANSPORTER MAINT FEE is collected from November 1, 2017 to January 31, 2018 all other fees are from January 1 to December 31, 2018.

All raw data is received from Fiscal Services and then it is matched to internal documentation which gives the final data used for reporting.

WASTE GENERATED

Hazardous Waste Generated, Received, and Shipped in the State of Tennessee

The Hazardous Waste Generated in the state of TN is separated into two distinct categories, wastewaters and non-wastewaters. Wastewaters are defined using the following handling codes: H03 Released onsite directly to publicly owned treatment works (POTW); H06 On site wastewater treatment unit; H07 On site elementary neutralization. All other waste is determined to be a non- wastewater.

Table 3a: Wastewater vs. Non-wastewater Generated in TN		
	POUNDS	TONS
Total Amount of Waste Water	83,991,076,830	41,995,538
Total Amount of Waste Generated in TN	84,855,886,994	42,427,943
Percent Wastewater of Total	98%	98%

Table 3b: Hazardous Waste Received from Outside of TN Compared to Waste Generated and Transported within TN		
	POUNDS	TONS
Waste Received Outside TN	311,407,483	155,704
Total Waste Received Within TN	352,534,113	176,267
Percentage Waste Received from Out of State	88.3 %	88.3 %

Table 3c: Hazardous Waste Shipped Out of State Compared to Waste Shipped Within Tennessee		
	POUNDS	TONS
Total Waste Shipped Offsite for Treatment/ Disposal	226,604,459	111,802
Total Waste Shipped Out of State	180,166,707	90,083
Percentage Shipped Outside of TN	80%	80%

Note: Data was queried from local database some data values may change slightly as adjustments and audits are completed.

PERMIT APPLICATIONS

Table 4: [YEAR] Number of Permit Applications Received, Granted, Requested, and Pending, by Type

PERMIT TYPE	AT START OF [YEAR]	RECEIVED IN [YEAR]	FINAL PERMIT DETERMINATION DURING YEAR	PENDING/ON HAND END OF [YEAR]
STORAGE	2	1		3
STORAGE/TREATMENT	4		1	3
OPEN BURNING (TREATMENT)	1			1
COMBUSTION (TREATMENT)	1	1		2
DISPOSAL	0			0
POST-CLOSURE	6		2	4
CORRECTIVE ACTION ONLY	1	1	1	1
TOTAL	15	3	4	14

Note: Received and reviewed from the Division of Solid Waste Management's Hazardous Waste Permitting Group.

ENFORCEMENT ACTIONS

Table 5: [YEAR] Number and Type of Enforcement Actions in Process and Initiated During Reporting Period

ORDER TYPE	ORDER COUNT	CLOSED [YEAR]	PENDING IN [YEAR]
Notices of Violation Issued	148	148	0
Warning Letters Issued	24	24	0
Director's Orders Issued	15	15	12
Commissioner's Orders Issued	0	0	0
Permit Appeal	1	1	0
Compliance Agreement	1	0	1
Consent Order	2	2	1

Note: Data queried from internal database and RCRAInfo EPA Hazardous waste information depository Data received and reviewed from the Division of Solid Waste Management Enforcement Section.
