

# Division of Solid Waste Management Hazardous Waste Management Program

Annual Hazardous Waste Regulatory Program Report  
Reporting Year 2021

Table of Contents	
Preface	1
Number of Hazardous Waste Generators, Permitted, and Registered Facilities	3
List of Hazardous Waste Generators, Permitted, and Registered Facilities	4
Fees	79
Hazardous Waste Generated, Received, and Shipped	80
Number of Permits	81
Enforcement Actions	81
Recommendations	82

## **PREFACE**

Pursuant to Tennessee Code Annotated § 68-212-118 the following Annual Hazardous Waste Regulatory Program Report is prepared and submitted on December 1, 2023, for Reporting Year 2021 by the Commissioner of the Department of Environment and Conservation as well as the Underground Storage Tanks and Solid Waste Disposal Control Board. The report evaluates the performance of the State of Tennessee's Hazardous Waste Regulatory Program as stipulated in the Tennessee Code Annotated.

### **Summary of the State of Tennessee's Hazardous Waste Regulatory Program**

The Hazardous Waste Management Regulatory Program regulates activities associated with hazardous waste generation, transportation, storage, treatment, and disposal that are subject to the EPA's Resource Conservation and Recovery Act (RCRA) Subtitle C. The Hazardous Waste Management Program operates under the authority of the Hazardous Waste Management Act of 1977 (TCA §68-212-101 et seq.) and various Hazardous Waste Management rules.

Implementation of Tennessee's Hazardous Waste Program began in October 1980. The Memorandum of Agreement between the State of Tennessee and EPA, Region 4 was signed January 2017. Tennessee has been authorized by EPA to administer the majority of the federal program and receives a grant in support of this effort.

The coordinated state and federal program regulate activities such as:

- The permitting and inspection of hazardous waste storage, recycling, treatment, and disposal facilities.
- The management of hazardous waste from generators (primarily manufacturing industry) through the required waste stream notifications, annual reports, and waste reduction plans.
- The annual registration of hazardous waste transporters; and the regulation of used oil facilities.

Permitted hazardous waste management facilities receive hazardous wastes for treatment, storage, or disposal. These facilities are often referred to as treatment, storage, and disposal facilities, or TSDFs.

Permitted hazardous waste treatment facilities use various processes (such as incineration or oxidation) to alter the character or composition of hazardous wastes.

Some treatment processes enable waste to be recovered and reused in manufacturing settings, while other treatment processes dramatically reduce the amount of hazardous waste.

Permitted storage facilities temporarily hold hazardous wastes until they are treated or disposed of while disposal facilities are the final and permanent destination for hazardous wastes. The most common type of disposal facility is a landfill, where hazardous wastes are disposed of in carefully constructed units designed to protect groundwater and surface water resources.

The detailed regulations located in Tennessee Rules 0400-12-01-.06, 0400-12-01-.07, and 0400-12-02 ensure that TSDFs operate safely and protect human health and the environment. Facilities that currently or plan to treat, store, or dispose of hazardous wastes must obtain a RCRA permit using the procedures outlined in Rule 0400-12-01-.07 or 0400-12-02. A RCRA permit is a legally binding document that establishes operating requirements and provisions specific to the permit applicant, depending on the treatment, storage, or disposal activities conducted at the facility. Permits are written to address the specific geography of the facility, the types of hazardous waste management units, and the specific waste streams that will be managed at the facility. The permit outlines facility design and operation, lays out safety standards, and describes activities that the facility must perform, such as monitoring and reporting. Permits typically require facilities to develop emergency plans, train employees to handle hazards, perform the requirements of the permit such as groundwater monitoring in addition to providing financial assurance.

### Data Collection

Generators of hazardous waste and permitted treatment, storage, and disposal facilities are required to notify the state of their activity pursuant to the Hazardous Waste Management Regulations Chapter 0400-12- 01 et seq. Completed forms are required to be submitted by March 1<sup>st</sup> each year detailing their hazardous waste activity for the previous calendar year, frequently referred to as the “Report Year.”

<b>REPORTING PERIOD</b>	<b>MUST BE POSTMARKED</b>	<b>PRELIMINARY DATA ENTERED</b>
January 1, 2021 - December 31, 2021	March 1, 2022	December 2022

## **Hazardous Waste Generators, Permitted, and Registered Facilities**

The Tennessee Hazardous Waste Management Act of 1977, TCA Section 68-212-101, requires the Division of Solid Waste Management (DSWM) to identify and regulate hazardous waste generators, hazardous waste treatment storage and disposal facilities, and hazardous waste transporters. Hazardous waste generators are categorized into three groups: large quantity generators (LQG); small quantity generators (SQG); and very small quantity generators (VSQG). The numbers for each generator status are listed in Table 1.

Transporters of hazardous waste are required to obtain a permit if they drop off or pick up hazardous waste in the State of Tennessee. The DSWM permits and tracks both in state and out of state transporters that operate or reside in Tennessee. Other states require an EPA ID for such a transporter (just as Tennessee requires out of state transporters to have an EPA ID from their home state). An effort is made to check transporters against other databases, particularly US DOT web sites.

**Table 1: Number of Hazardous Waste Generators, Permitted, and Registered Facilities**

Note: Data queried from a local database and EPA RCRAInfo some data values may change slightly as adjustments and audits are completed.

<b># OF FACILITIES</b>	<b>HAZARDOUS WASTE ACTIVITY</b>
1,643	Very Small Quantity Generators (VSQG)
653	Small Quantity Generators (SQG)
554	Large Quantity Generators (LQG)
53	TSDF Facilities
252	Hazardous Waste Transporters
35	Hazardous Waste Transfer Facilities
76	Used Oil Transporters
37	Used Oil Transfer Stations

Note: Data provided by Waste Activity Audit Section.

Note: Some data values may change slightly as adjustments and audits are completed. This can occur over a period of years. Every attempt is made to obtain the most current data. All raw data is received from Fiscal Services and then it is matched to internal documentation which gives the final data used for reporting. Report received from Fees on November 30, 2022.

**Hazardous Waste Generated, Received, and Shipped in the State of Tennessee**

The Hazardous Waste Generated in the State of Tennessee is separated into two distinct categories, wastewaters, and non-wastewater. Wastewaters are defined using the following handling codes: H03 Released onsite directly to publicly owned treatment works (POTW); H06 onsite wastewater treatment unit; H07 onsite elementary neutralization. All other waste is determined to be a non- wastewater.

**Table 4a: Wastewater vs. Non-wastewater Generated in Tennessee**

WASTEWATER GENERATED	POUNDS	TONS
Total Amount of Wastewater	90,273,397,797.14	45,136,698.89
Total Amount of Waste Generated in TN	89,937,929,988.08	44,968,964.99
Percent Wastewater of Total	99%	

Note: Data was supplied by Waste Audit on March 7, 2023; 2021 ALR from ALL sources some data values may change slightly as adjustments and audits are completed.

**Table 4b: Hazardous Waste Received from Outside of Tennessee Compared to Waste Generated and Transported within Tennessee**

WASTE RECIEVED	POUNDS	TONS
Total Waste Received Within TN	181,991,555.10	90,995.78
Waste Received Outside TN	163,121,837.70	81,560.92
Percentage Waste Received from Out of TN	89%	

Note: Data was supplied by Waste Audit on March 9, 2023; 2021 ALR from ALL sources some data values may change slightly as adjustments and audits are completed.

**Table 4c: Hazardous Waste Shipped Out of State Compared to Waste Shipped Within Tennessee**

WASTE SHIPPED	POUNDS	TONS
Total Waste Shipped Offsite for Treatment/ Disposal	219,285,506.03	109,642.75
Total Waste Shipped Out of TN	191,104,252.50	95,552.13
Percentage Shipped Outside of TN	87%	

Note: Data was queried from local database March 7, 2023, some data values may change slightly as adjustments and audits are completed.

**Table 5: 2021 Number of Permit Applications Received, Granted, Requested, and Pending, by Type**

PERMIT TYPE	START 2021	RECIEVED 2021	FINAL DETERMINATION 2021	PENDING END OF 2021
Storage	4		1	3
Storage/Treatment	4	1	1	4
Open Burning (Treatment)	1			1
Combustion (Treatment)	2			2
Disposal	0			0
Post-Closure	2		1	1
Corrective Action	1	1	1	1
TOTAL	14	2	4	12

Note: Data provided by Hazardous Waste Permitting Section.

**Table 6: 2021 Number and Type of Enforcement Actions in Process and Initiated During Reporting Period**

ORDER TYPE	ORDER COUNT	CLOSED 2021	PENDING IN 2021
Notices of Violation Issued	213	213	0
Warning Letters Issued	7	7	0
Director's Orders Issued	7	3	4
Commissioner's Orders Issued	2	0	2
Permit Appeal	1	1	0
Compliance Agreement	0	0	0
Consent Order	0	0	0

Note: Data provided by Enforcement and Compliance.

**RECOMMENDATIONS FOR LEGISLATIVE ACTION TO IMPROVE THE HAZARDOUS WASTE REGULATORY PROGRAM**

The State of Tennessee is authorized by a memorandum of agreement between the State of Tennessee and the United States Environmental protection Agency, Region 4, to administer the Resource Conservation and Recovery Act Hazardous Waste Program. As the Federal Program is amended, the State Program must be amended to remain in compliance with the requirements of 40 C.F.R. Part 271. The State of Tennessee, Division of Solid Waste Management, Hazardous Waste Program prepares amendments for stake holder review and submits the amendments to the Underground Storage Tank and Solid Waste Disposal Control Board for review/approval.
