

Period of Performance Helpful Information Using Edison

1

Identifying Federal Report Obligations

Option 1:Identify each Project ID associated to Federal report & use query TN_KK_PROJ_LEDGER on Ledger DETAIL_ENC by Project ID on the reporting date needed & identify the PO/Travel Authorizations remaining amount = "Obligation to report" Guidelines exists for using Project Query for Commitment Control

Ledgers:

DETAIL PRE "DETAIL_ENC" DETAIL EXP

Run Control ID TN_KK	_PROJ_LEDGER_ENC	Report Manager	Process Monitor	Run
Query Name TN_KK_PROJ_L	EDGER Search			
*Description Project Encumbr	rances			
Jpdate Parameters				
Prompt Name	Value			
BUSINESS_UNIT	34501			
DEPTID	%			
PROJECT_ID	HSCSE_F66_18			
LEDGER	DETAIL_ENC			
BUDGET_PERIOD	2019			

Identifying Federal Report Obligations

Option 1:Run TN_KK_PROJ_LEDGER query Example

Pivot table the results separating Federal & State & use Value filter on the PO No. field to "not between (-.01 & +.01) to remove the PO with zero amounts

Identifying Federal Report Obligations

Option 3:

Compare the State Fiscal Year and Federal Fiscal year Supplier Contract budgets against query results from TN_PU_CN021 = the difference between contract budget and contract expenditures could be the "Obligation to report."

Option 4:

Track the "Obligation to report" on an Excel file by either the Program or Finance staff and communicate to the reporting individual those obligations.

Remember: Don't forget about Delegated Grant Agreements!

Transaction Dates vs. Accounting Dates

- Edison controls on the "Accounting Date" of the Project ID and does not allow for expenditures to occur prior to the Start Date on the Project ID which is on the Grant/Customer (revenue) Contract.
- It is the "Trans Date" or "Service Date" that one should pay attention to as it relates to the Accounts Payable module. This (Trans/Service) date should be:
 - Trans Date and Service Date should be the same date
 - After the "Start Date" of the Grant
 - Before the "End Date" of the Grant
 - Be in the "Period of Performance"

Transaction Dates vs. Accounting Dates

- Pass through from other agencies also needs to review that the Transaction Dates are in the Period of Performance.
- Take care that when Customer (revenue) Contracts/Grants cover multiple years and one is either trying to close out older grants and the agency is doing reallocations that the values that one is reallocating are in the proper "Period of Performance" associated to the Grant.

OLT (Over the Billing Limit) of the Customer (revenue) Contract

- Having 12/30/2018 gives the project the ability to allow for accounting date transactions through the 90 day window.
- However, the billing limit of \$79,034.00 controls and stops the transactions from billing and recognizing revenue, they go to OLT.

Carryforward with Separate Control/Accounting

- Can be tracked separately if an additional new Project ID is created and associated to the existing Customer (revenue) Contract.
- Customer (revenue) Contract's billing limit would not change, however the first Project ID associated to the Customer (revenue) Contract would need the budget reduced by the amount "carryforward" on the new Project ID.
