

TENNESSEE CANCER COALITION

prevention · early detection · treatment · survivorship

About Us

TC2 is a statewide, multidisciplinary, coalition of progressive leaders in cancer care and support. TC2 provides networking, education, best practice sharing, and partnership opportunities for individuals and organizations.

Our Mission

To measurably reduce the burden and impact of cancer for Tennesseans through prevention, early detection, and survivorship.

State of TN Cancer Plan

The STCP serves as the evidence-based blueprint for members regarding health equity, cancer risk reduction, screening, treatment, survivorship, palliative care, and inherited cancer.

What is the impact of cancer in Tennessee?

- The top 3 most common types of cancer diagnoses include lung, female breast, and prostate.
- The top 4 most common types of cancer leading to death include lung, colorectal, female breast, and prostate.
- Cancer remains the 2nd leading cause of death.
- On average, 2 out of 5 individuals in the US will be diagnosed with cancer in their lifetime.

What is the burden of cancer?

The burden and impact of cancer are the physical, mental, social, and financial toll cancer takes on patients, survivors, caregivers, families, and the community.

Why should you join?

TC2 is free to join. Your membership will connect you to nearly 80 statewide organizations and over 100 individuals working together to create healthier communities in Tennessee.
