

## **Families First Resource Eligibility**

## **Policy 23.04**

Effective: January 15, 2024

#### Introduction

The Tennessee Department of Human Services shall consider the equity value of all resources that are owned by and available to assistance unit members to potentially meet the needs of the assistance unit in determining eligibility for Families First.

#### Scope

The purpose of this policy is to provide guidance in determining the amount of resources available to the assistance unit.

#### **Policy**

#### **Resource Amounts**

- 1. All resources owned or jointly owned by assistance unit (AU) members must be considered prior to approval of Families First benefits.
  - a. The total value and equity value of all resources must be verified. See <u>Families First</u> <u>Resource Eligibility Procedures</u> for additional information
  - b. The availability of resources must also be verified.
- 2. The equity value of all available resources is considered countable unless exempt as listed in Families First Excluded Resources.
- 3. Ownership of resources is determined by whose name appears on the document, registration, and/or title for the resource.
  - Resources that are not typically registered or titled belong to the individual who claims ownership.
- 4. Available resources are tested against the Families First resource limit as listed on the <u>Family</u> Assistance Standards Desk Guide.

Date of Last Review: 01/10/2024

Date of Next Review: 01/10/2027

 If the total of the available countable resources is greater than this limit by any amount, the AU is not eligible for Families First.

## Resources of Individuals Who Are Not AU Members

The resources of individuals who are not AU members are not countable unless:

- 1. The resource belongs to an ineligible non-citizen who is in the home AND is the parent of a child in the AU.
- 2. The resource belongs to an individual who is excluded from the AU but would be a mandatory AU member if not for the disqualification. See policy 23.01 Families First Assistance Units.

#### **Treatment of Commingled Liquid Resources**

- Any liquid resource that is not countable (excluded resource) will retain this status as long as the resource is kept in a separate account and not commingled in an account with countable liquid resources.
  - a. All excluded liquid resources that are commingled with countable resources will retain their exemption for six (6) months from the date that the resources are commingled.
  - b. After six (6) months, the total amount of the commingled account will be a countable resource.
- A resource that has been excluded because it is prorated income and has been commingled in an account with countable resources will not be counted as a resource for the period of time over which it has been prorated.
  - The resource cannot be counted as income and a resource during the same period of time.

Effective Date: 01/15/2024

RDA SW22

#### **Jointly Owned Resources**

- 1. If the Families First AU reports a jointly owned resource, the AU member's share of any countable resource is applied to the AU's resource limit.
  - a. If the individual can demonstrate that they have access to less than a pro rata share, only the portion to which the individual has access will be counted towards the AU's resource limit.
  - b. A jointly owned resource is considered inaccessible to the AU if:
    - The jointly owned resource cannot be practically sub-divided, AND
    - ii. Access to the AU's share of the resource is dependent on the agreement of the joint owner, AND
    - iii. The joint owner, who is not an AU member, refuses to comply so that the AU member can obtain their share of the resource.
- 2. The fact that an AU member's name appears on a jointly-named asset with that of a non-AU member does not conclusively mean that the resource is jointly owned.
  - a. The AU member must be given the opportunity to prove that they do not have any ownership rights to the resource.
  - b. The key to determining ownership is in the written language or oral understanding surrounding the creation of the jointly owned asset.
  - c. Consider the source of the funds or asset and for whom the use and benefit of the funds/asset are intended and used.
  - d. The burden of proof that they have no ownership in the funds is on the AU member.

# Sale of Real Property during the Nine (9) Month Exemption Period

 Real property that is not homestead property and that the AU is making a good faith effort to sell is not a countable resource for up to nine (9) months if the AU signs the <u>HS-3303 Notice of</u> <u>Express Property and Repayment Agreement</u> and agrees to repay the Families First benefits received during the period of exemption.

Date of Last Review: 01/10/2024

Date of Next Review: 01/10/2027

- 2. The amount repaid cannot exceed the amount of the net proceeds of the sale.
- 3. If the real property is sold during the nine (9) month exemption period, the customer must repay the amount f the overpayment within five (5) business days of receiving the proceeds of the sale.
- 4. Any proceeds remaining after the five (5) business day period are considered an available resource.
- 5. If the case is closed for any reason during the exemption period, the entire amount of Families First received during the nine (9) month exemption period is considered an overpayment.
- 6. If the customer has been making a good faith effort to sell the property and it remains unsold at the end of the nine (9) month period, the eligibility counselor must evaluate to determine whether the property should be considered inaccessible.
  - The customer will be required to repay the Families First received in the initial nine (9) month exemption once the property is sold.
