## Agenda

Final Reading Item: IV. S.

#### **Educator Licensure, Praxis Changes, Policy**

#### The Background:

In compliance with T.C.A. § 49-5-5605 Tennessee has required newly licensed teachers to demonstrate subject-area content knowledge by means of a licensure exam. This is done to ensure that teachers have entry-level competency in the content area, and to validate the mastery of licensure standards that were covered within the preparation program. The State Board of Education prescribes which tests are taken in the various subject areas and approves the passing scores for each of the licensure examinations.

Praxis Licensure testing requirements and passing scores are found in State Board Policy number 5.105.

This year the Educational Testing Service (ETS) has conducted a number of test revisions to update assessed content knowledge. Adjustments to these exams result in new code numbers and, in some cases, new titles. The new exams under consideration to take effect on September 1, 2014 include:

- 5701 Agriculture
- 5024 Education of Young Children
- 5018 Elementary Education: Content Knowledge
- 5017 Elementary Education: Curriculum, Instruction and Assessment
- 5122 Family and Consumer Sciences
- 5358 Gifted Education
- 5440 Middle School Science
- 5402 School Psychologist
- 5952 Sociology
- 5331 Speech-Language Pathology

To support the decision-making process for State Departments of Education with regards to establishing passing scores [i.e. cut scores] for these Praxis assessments, research staff from ETS designed and conducted two multi-state standard setting studies for each exam. The studies also collected content-related validity evidence to confirm the importance of the content specifications for entry-level teachers.

The standard setting studies involved two expert panels, comprised of teachers, administrators and college faculty. The recommended cut scores for each panel, as well as the average cut score across the two panels, were provided to help state departments of education determine appropriate cut (or passing) scores.

Due to the number of tests involved with revisions this year, a chart has been attached with the changes in test number, test title, and recommendations for passing scores, along with an updated version of Policy 5.105 reflecting these changes.

### The Recommendation:

The Department of Education recommends adoption of this item on final reading. The SBE staff concurs with this recommendation.

# **Test Code/ Passing Score Changes for 2014-15**

New Test Name and	Current	Current	Current	Multi-State	TDOE
