School Counselor Policy

Proposed Changes for April Final Reading

Proposed changes will clarify:

- The TN counseling model puts forth guidelines on best practices for counseling based on those developed by the American School Counselors Association (ASCA).
- Recommendation that counselors spend 80% of their time on direct student services and 20% on program management, support, and fair share responsibilities.
- A part of fair share responsibilities for counselors **may include assisting with the implementation of the school testing program**, but should not be responsible for overall administration of that testing program.
