

Chart 6. Plan of Services		
Current Tennessee Law		Other States' Laws
Tennessee's cities are required to provide a plan of services prior to annexing territory by referendum or by ordinance. The plan of services must include but not be limited to police protection, fire protection, water services, electrical services, sanitary sewer services, solid waste collection, street construction and repair, recreation facilities and programs, street lighting, and zoning services. Also a reasonable implementation schedule for the provision of the services is required.	Senate Bill 1054 by Kelsey, House Bill 1263 by Carr was amended prior to being passed. Sections 5 and 6 were taken out of the bill before it passed. These sections would have added some requirements for the plan of services including requirements that the plan show the standards for delivering the services to the territory proposed to be annexed and information on the financial ability of the city to provide services to the territory proposed to be annexed.	<p>Twenty-four states require the city to create a plan of service before an annexation can take place.</p> <p>Twenty states have a required timeline for implementation of services.</p> <p>Fifteen states require budget/financial information be provided in the plan of services.</p>

Other States' Laws on Plan of Services							
State	Plan Required	Used as factor in determining whether to annex	Required Services			Timeline	Budget / Financial Information
