Building Tennessee's Tomorrow: Anticipating the State's Infrastructure Needs

July 2017 through June 2022

APPENDIX C: INVENTORY FORMS

Two separate inventory forms were used to collect data for the July 2017 through June 2022 Public Infrastructure Needs Inventory on which this report was based. The General Inventory Form is used to record information about the need for new or improved infrastructure, including new schools. The Existing Schools Inventory Form is used to record additional information about the conditions and facility needs at existing public schools from kindergarten through high school.

Survey forms from the United States General Accounting Office (GAO) provided the original model for the forms used in the first inventory of infrastructure needs in Tennessee during 1997. Since that time, the inventory form has been further customized to best meet the requirements of Chapter 1101, Public Acts of 1998, and Chapter 672, Public Acts of 2000 (see Appendix A).

Staff from Tennessee's nine development districts use the inventory forms to gather information for the inventory from local government officials and agencies in each county. At a minimum, they include

- county executives,
- mayors,
- local planning commissions,
- local public building authorities,
- local education agencies,
- utility districts, and
- county road superintendents.

TACIR has tried to strike a balance between requiring sufficient information to satisfy the intent of the law and creating an impediment to local officials reporting their needs. By law, the inventory is required of TACIR, but it is not required of local officials. Local officials may decline to participate without penalty; similarly, they may provide only partial information, making comparisons across jurisdictions difficult. But with each annual inventory, participants have become more familiar with the process, and more supportive of the program.

Extensive efforts are made to ensure that the information collected is accurate and meaningful. Development district staff work closely with local officials to make sure they are accurately capturing information. After development district staff enter information into the inventory database, there are extensive quality control programs run to make sure information is entered correctly and is internally consistent.

With each inventory, TACIR staff assesses the potential for over or under-reporting by comparing reported needs to indicators of need, such as county size and population, and to factors related to the ability to fund infrastructure, such as taxable property and sales.

State of Tennessee

Tennessee Advisory Commission on Intergovernmental Relations Existing School Facility Needs Inventory Form

Include projects needed to be in some stage of development at any time between July 1, 2017, and June 30, 2037. Record all information based on the condition or project status as of July 1, 2017.

Each facility need at the school must involve a cost of fifty thousand dollars (\$50,000) or greater to be included in this inventory. A. SCHOOL IDENTIFICATION A1.School Number: A4. Grades Served: A unique number identifying the school system & the school, assigned by the TN Dept. of Education. A5.School Status: A2.School System Name: (i.e., Active, Inactive, Pending) Status Begin Date: __ A6.Inventory County: ___ **A3. School Name** (legal name of the school): The county in which this school campus is located. **B. CAMPUS CONDITION AND NEEDS** BI. Construction year of main campus building: _ (Indicate the year of construction for the main building on campus.) B2. Recent construction or renovations: (List each project that occurred within the last ten years if its cost was equal to or greater than \$50,000. List projects by type [e.g., new school, classroom, science lab, auditorium, cafeteria, library and gym projects should be listed separately]) Project FY Sq. Final Description Code Completed **Footage** Cost \$ \$ B3. Will the school use leased space to meet its facility needs? Yes or No__ If yes, list the annual cost: ______ What is the term of the lease? Begin date: _____ End date: _ B4. Are any of this school's facilities used by another educational institution for educational purposes? Yes or No: ______ If "yes", list the shared facility, the institution with which it is shared and the reason for sharing. Shared Facility Sharing Institution Reason ABC Middle School The middle school does not have a gym **Example:** Gymnasium B5. Does this school use another institution's facilities for programs or classes because of inadequate facilities? Yes or No: __ _ If "yes", list the institution, the facility used, and the reason. Program Institution Reason XYZ Middle School Library research class Our school's library is inadequate.

WWW.TN.GOV/TACIR 13.

provide the date of clo	sure in the table below.		years? Yes or No: If "yes" If "yes", identify the replacement facility		
Date of Planned Closure	Name of the Replacemer	nt School	Project or Replacement School		
•	o change the function If "yes", provide the date of		ility within the next five years entify the new function.		
Date of Change		New	Function		

B8. List all technology infrastructure needs at this facility. Technology infrastructure includes capital assets such as electronic devices and computers. For purposes of this inventory, technology does not include application software (e.g., Adobe Reader, MS-Office) or telecommunication devices (e.g., telephones, radios). Technology infrastructure needs may be included regardless of cost. All other needs included in this inventory must involve a capital cost of not less than fifty thousand dollars (\$50,000).

Technology Infrastructure Needs	Stage of Development	Estimated Cost
		\$
		\$
		\$

B9. Does this school building need any modifications in order to comply with federal or state mandates (excluding the state EIA)? Yes or No: ______ If "yes", complete the following table. Federal and state mandates are rules, regulations, or laws adopted by the federal or state governments that require a building modification in order to achieve compliance. Record a mandate need only if the entire cost is the result of a mandate. Costs associated with the Education Improvement Act of 1992 (EIA) are captured only in **Section C**; therefore, do not report EIA-related costs in this table. If there are other federal or state mandate needs not shown in the table, contact TACIR Staff.

Mandate	Description of Facility Modification Required	Stage of Development	Estimated Cost
Americans with Disabilities Act			\$
Asbestos			\$
Regulation of State Fire Marshal/Fire Codes			\$
Individuals with Disabilities Education Act of 1990			\$
Led-based paint Poisoning Prevention			\$
Tennessee Petroleum Underground Storage Tanks Act			\$

FACILITY RATING SCALE:

Excellent: can be maintained in a "like new" condition and continually meet all building code and functional requirements with only minimal routine maintenance.

Good: does not meet the definition of "excellent", but the structural integrity is sound and the facility can meet building code and functional requirements with only routine or preventive maintenance or minor repairs that do not hinder its use.

Fair: structural integrity is sound, but the maintenance or repairs required to ensure that it meets building code or functional requirements hinder—but do not disrupt—the facility's use.

Poor: repairs required to keep the structural integrity sound or to ensure that it meets building code or functional requirements are costly and disrupt—or in the case of an individual component may prevent—the facility's use.

STAGE OF PROJECT: The current stage of development for a project recorded in the Public Infrastructure Needs Inventory should be recorded based on its status as of **July 1, 2017**, and it may be any one of the following:

Conceptual: identified as an infrastructure need with an estimated cost, but not yet in the process of being planned or designed.

Planning/Design: development of a set of specific drawings or activities necessary to complete a project identified as an infrastructure need.

Construction: actual execution of a plan or design developed to complete or acquire a project identified as an infrastructure need. If the project was reported in a prior survey, you may need to report the project stage as Complete or Canceled if work is no longer active.

Completed: construction or acquisition is concluded and the capital facility or land asset is available to provide the intended public benefit.

Canceled: terminated at any stage from conceptual through design or construction; eliminated from consideration for any reason other than completion; to be removed from the Public Infrastructure Needs Inventory.

B10. Using the facility rating scale provided above, list the number of facility components at this school by condition and estimate the cost to put all components in good condition. (Do not include costs recorded in previous sections or for EIA needs in section C.)

	t				Infrastructure nee	eded to put fair o good conditio		onents in
Component	Excellent	Poop	Fair	Poor	Number of Components by Type of Project	Stage of development	Estimated Cost (must be ≥\$50,000)	Square Footage
Example:	2	10	6	2	6 to be upgraded	Conceptual	\$100,000	3,000
Classrooms (Permanent)		10	0	_	2 to be replaced	Plan & Design	\$150,000	1,000

Tennessee Advisory Commission on Intergovernmental Relations General Public Infrastructure Needs Inventory Form

Includes K-12 New School Construction & System-wide Needs

Include projects needed to be in some stage of development at any time between July 1, 2017, and June 30, 2037.

Record all information based on the project status as of July 1, 2017.

Record all information based on the project status as of July 1, 2017. Each project must involve a cost of fifty thousand dollars (\$50,000) or greater to be included in this inventory of needs. Project Identification: Number (A numeric identifier auto generated by the system). Project Name: 10. Is this project public infrastructure? ☐ Yes or ☐ No **Project Description:** (do not repeat name or describe location; indicate size/scope if appropriate) _ 15. Where is this project needed? (Be as specific as possible (include latitude and longitude); do not repeat city/county.) Bridge Number(s) Notes: __ Is this a regional project [i.e., serving users from more than one county]?

Yes or
No County(ies): County or where the project is located. City(ies): City or cities in which this project is located. If outside a municipality, record as "unincorporated". Entity(ies) responsible for the project: _ Entity that will oversee the implementation of the project. Owner: Governmental entity that will hold legal title to the capital facility or land asset upon completion of the project. If leased, record lessee entity here and note in Question 19 that this project involves a lease. ☐ County ☐ State 8. Owner's level of government: ☐ Federal ☐ Special District ☐ Joint (multiple levels) ☐ Other (public-private venture, etc.) 9. Type of Project: List A (select no more than one) List B (select no more than one) Business District Development Other Utilities ■ Community Development Broadband ☐ Fire Protection Storm Water ■ Public Housing Transportation (TDOT# if known ____ ☐ Industrial Sites & Parks ☐ air ☐ bridge ☐ rail ☐ road ☐ ITS ☐ transit ■ K-12 New School Construction (select sub-type) □ navigation □ sidewalk □ signalization new school other ■ Law Enforcement Water & Wastewater ☐ School-system-wide Need (select sub-type) ☐ Libraries, Museums & Historic Sites ■ water supply wastewater Other Education II. Is this project included in a capital improvement Other Facilities program (CIP)? ☐ Yes or ☐ No ■ Post-secondary Education CIP# (if known) _ Public Buildings Public Health Facilities 12. School System [if applicable] Number: ☐ Recreation Name: _ Solid Waste 13. What is the primary reason this project needed? (If a combination, check all that apply.) ☐ Community Population ■ Public Health Economic Development Enhancement Growth or Safety ☐ Federal Mandate (list applicable federal law) ☐ State Mandate (list applicable state law)
