Rev 10/31/2016

To verify specific products from a QPL supplier are approved, follow the steps below:

1. Open the "Producer Supplier Materials" window:

2. Click the "Producer Supplier Name" column header to sort all records from A to Z. Scroll till you get to the P/S name you are looking for. NOTE: If there is more than one listing for a specific P/S, you want the one with "QPL" listed in the "Producer Supplier Type" column:

Producer Supplier List				_ ×

3. When you select the row you want, the window that will open lists material codes tied to them.

Producer/Supplier	89900342 Eubank Asphalt Paving		
Material Code	Material Full Name	Material Category	Active
QPL.13.001	Cold Patch (High-Performance, Asphalt)	QPL	Y
QPL.13.005	Cold Patch (High Performance, Concrete)	QPL	Y
T 2.407	T2 Asphaltic Crack Sealing Strips	T2	Y
T2.411	T2 Longitudinal Joint Stabilization	T2	Y
T2.501	T2 Concrete Pavement	T2	Y
T2.502	T2 Joints	T2	Y
T2.604.4	T2- Miscellaneous 604 Materials	T2	Y
T2.617	T2 Bridge Deck Sealant	T2	Y

4. Note the QPL material code you are looking for and open that material code in the Approved Materials" window (first icon on the "Approved Lists" tab). The upper portion of the window lists the product name. When you select a product there, you will see an expiration date in the bottom section that will verify if the product is still

active or expired:
