Agenda Item: I.D.

DATE: January 29, 2009

SUBJECT: Approval of New Programs under the Postsecondary Authorization Act

ACTION RECOMMENDED: Approval

BACKGROUND INFORMATION: The Commission, under the Postsecondary Authorization Act, has the "power and duty" to act upon applications for authorization of educational programs in the state.   Applications have been reviewed and all necessary documentation for the institutions submitting new program applications is in accordance with the Act and postsecondary rules. The Committee on Postsecondary Educational Institutions, which is a review and advisory committee to the Commission, met on January 8, 2009 and affirmed staff recommendations for approval.

A.   DeVry University   Alpharetta, GA

DeVry University - Alpharetta is seeking authorization for one program, a Bachelor of Science in Multimedia Design and Development. The program will be taught by faculty from their authorized site in Alpharetta, GA.

1.   The Bachelor of Science in Multimedia Design and Development Program prepares graduates to create and distribute Web-enabled and other digital media. The curriculum provides areas of specialization which address contemporary needs and interests in multimedia design, web game development, interactive website development, and multimedia management. Graduates will use software applications to design, illustrate, compile and produce visual solutions for communications, especially the internet.

Program: Multimedia Design and Development
Credential Awarded: Bachelor of Science
Length of Program: 122 credit hours (30 months)

The institution participates in Title IV funding.

B.   DeVry University   Decatur, GA
DeVry University - Decatur is seeking authorization for one program, a Bachelor of Science in Multimedia Design and Development. The program will be taught by faculty from their authorized site in Decatur, GA.

1.   The Bachelor of Science in Multimedia Design and Development Program prepares graduates to create and distribute Web-enabled and other digital media. The curriculum provides areas of specialization which address contemporary needs and interests in multimedia design,

web game development, interactive website development, and multimedia management. Graduates will use software applications to design, illustrate, compile and produce visual solutions for communications, especially the internet.

Program: **Multimedia Design and Development**
Credential Awarded: **Bachelor of Science**
Length of Program: **122 credit hours (30 months)**

The institution participates in Title IV funding.

C. **DeVry University** **Memphis, TN**

DeVry University - Memphis is seeking authorization for four new programs: three Bachelor of Science Degree programs in Computer Information Systems, Multimedia Design and Development, and Network and Communication Management; and one Associate of Applied Science in Web Graphic Design. The programs will be taught by faculty from their authorized site in Memphis, Tennessee.

1. **The Bachelor of Science in Computer Information Systems Program** is designed to produce graduates who are able to: analyze, design and implement solutions to business problems; create and test computer information systems solutions; and demonstrate effective communication, problem-solving and project management skills. Graduates will be prepared to play essential roles on the business team, typically designing and implementing hardware and software solutions to business problems. Graduates are expected to possess knowledge, experience and skills that will enable them to adapt to change in this dynamic field through a lifelong learning process.

Program: **Computer Information Systems**
Credential Awarded: **Bachelor of Science**
Length of Program: **124 semester credit hours (30 months)**

2. **The Bachelor of Science in Multimedia Design and Development Program** prepares graduates to create and distribute Web-enabled and other digital media. The curriculum provides areas of specialization which address contemporary needs and interests in multimedia design, web game development, interactive website development, and multimedia management. Graduates will use software applications to design, illustrate, compile and produce visual solutions for communications, especially the internet.

Program: **Multimedia Design and Development**
Credential Awarded: **Bachelor of Science**
Length of Program: **122 credit hours (30 months)**

3. **The Bachelor of Science in Network and Communication Management Program** prepares graduates to integrate technology and business management coursework to address communication and networking voids in business organizations. The program addresses designing, implementing, securing and

managing networks in order to gain a technical understanding of networking data, voice and images as well as their strategic application in business. Graduates will possess the ability to develop network solutions, manage business technologies, demonstrate project management skills, apply research and problem solving skills, and communicate effectively. These skills will be applicable for analyzing communication needs and technology concerns for businesses/employers.

Program: **Network and Communications Management**
Credential Awarded: **Bachelor of Science**
Length of Program: **124 credit hours (120 weeks)**

4. **The Associate of Applied Science in Web Graphic Design Program** prepares graduates to develop graphic media – web pages, marketing collateral, advertising, instructional material and multimedia projects – by applying a collaborative approach. Working in a variety of areas such as advertising, marketing, technical communications, publishing and training, web graphic designers use software applications to design, illustrate, compile and produce visual solutions for communications, especially for the Internet.

Program: **Web Graphic Design**
Credential Awarded: **Associate of Applied Science**
Length of Program: **67 semester credit hours (19 months)**

The institution participates in Title IV funding.

D. DeVry University – Online **Naperville, IL**

DeVry University - Online is seeking authorization for one program, a Bachelor of Science in Multimedia Design and Development. The program will be taught by faculty from their authorized site in Naperville, Illinois.

1. **The Bachelor of Science in Multimedia Design and Development Program** prepares graduates to create and distribute Web-enabled and other digital media. The curriculum provides areas of specialization which address contemporary needs and interests in multimedia design, web game development, interactive website development, and multimedia management. Graduates will use software applications to design, illustrate, compile and produce visual solutions for communications, especially the internet.

Program: **Multimedia Design and Development**
Credential Awarded: **Bachelor of Science**
Length of Program: **122 credit hours (30 months)**

The institution participates in Title IV funding.

E. DeVry University **Nashville, TN**

DeVry University - Nashville is seeking authorization for four new programs: three Bachelor of Science degree programs in Computer Information Systems, Multimedia Design and Development, and Network and Communication Management; and one Associate of Applied Science in Web Graphic Design. The programs will be taught by faculty from their authorized site in Nashville, Tennessee.

1. **The Bachelor of Science in Computer Information Systems Program** is designed to produce graduates who are able to: analyze, design and implement solutions to business problems; create and test computer information systems solutions; and demonstrate effective communication, problem-solving and project management skills. Graduates will be prepared to play essential roles on the business team, typically designing and implementing hardware and software solutions to business problems. Graduates are expected to possess knowledge, experience and skills that will enable them to adapt to change in this dynamic field through a lifelong learning process.

Program: **Computer Information Systems**
Credential Awarded: **Bachelor of Science**
Length of Program: **124 semester credit hours (30 months)**

2. **The Bachelor of Science in Multimedia Design and Development Program** prepares graduates to create and distribute Web-enabled and other digital media. The curriculum provides areas of specialization which address contemporary needs and interests in multimedia design, web game development, interactive website development, and multimedia management. Graduates will use software applications to design, illustrate, compile and produce visual solutions for communications, especially the internet.

Program: **Multimedia Design and Development**
Credential Awarded: **Bachelor of Science**
Length of Program: **122 credit hours (30 months)**

3. **The Bachelor of Science in Network and Communication Management Program** prepares graduates to integrate technology and business management coursework to address communication and networking voids in business organizations. The program addresses designing, implementing, securing and managing networks in order to gain a technical understanding of networking data, voice and images as well as their strategic application in business. Graduates will possess the ability to develop network solutions, manage business technologies, demonstrate project management skills, apply research and problem solving skills, and communicate effectively. These skills will be applicable for analyzing communication needs and technology concerns for businesses/employers.

Program: **Network and Communications Management**
Credential Awarded: **Bachelor of Science**
Length of Program: **124 credit hours (120 weeks)**

4. **The Associate of Applied Science in Web Graphic Design Program** prepares graduates to develop graphic media – web pages, marketing collateral,

advertising, instructional material and multimedia projects – by applying a collaborative approach. Working in a variety of areas such as advertising, marketing, technical communications, publishing and training, web graphic designers use software applications to design, illustrate, compile and produce visual solutions for communications, especially for the Internet.

Program: **Web Graphic Design**
Credential Awarded: **Associate of Applied Science**
Length of Program: **67 semester credit hours (19 months)**

The institution participates in Title IV funding.

F.   **Draughons Junior College**   **Clarksville, TN**

Draughons Junior College - Clarksville is seeking authorization for four new programs, two Associate of Applied Science Degrees in Human Resource Management and Police Studies and a Diploma and a Certificate of Completion in Human Resource Management. The programs will be taught at their authorized site in Clarksville, Tennessee.

1.   **The Associate of Applied Science in Human Resource Management Program** is designed to provide students with in-depth knowledge of laws governing the employment process. The program also prepares students to write employment policies and procedures and to apply these laws to employment related decisions. Graduates will learn how to research human resource laws, cases and issues. Graduates will also gain knowledge of interviewing techniques, ethical versus unethical behavior and develop their skills in management, including planning, staffing and leading a Human Resources Department.

Program: **Human Resource Management**
Credential Awarded: **Associate of Applied Science**
Length of Program: **96 quarter credit hours (24 months)**

2.   **The Associate of Applied Science in Police Studies Program** is designed to provide students with the knowledge and skills for entry into and/or advancement within the police operations field. Graduates will learn critical thinking skills, decision making and communication skills. The program prepares the students for employment in, but not limited to, law enforcement, crime control, and counterterrorism.

Program: **Police Studies**
Credential Awarded: **Associate of Applied Science**
Length of Program: **96 quarter credit hours (24 months)**

3.   **The Diploma in Human Resource Management Program** is designed to provide students with the skills necessary to write legal employment policies, procedures and employee handbooks. Students will learn how to research human resource laws, cases and issues, as well as how to support the key tasks

of the human resources department. Graduates will gain general knowledge of interviewing techniques, ethical versus unethical behavior and develop skills in planning and organizing the human resources department.

Program: **Human Resource Management**
Credential Awarded: **Diploma**
Length of Program: **72 quarter credit hours (18 months)**

4.   **The Certificate of Completion in Human Resource Management Program** is designed to prepare students to write employee handbooks for an organization. Students will learn how to research human resource law and cases and support the key tasks of the human resources department.

Program   **Human Resource Management**
Credential Awarded: **Certificate of Completion**
Length of Program: **48 quarter credit hours (12 months)**

The institution participates in Title IV funding.

G.   **Draughons Junior College**   **Murfreesboro, TN**

Draughons Junior College - Murfreesboro is seeking authorization for three new programs, an Associate of Applied Science Degree in Human Resource Management and a Diploma and a Certificate of Completion in Human Resource Management. The programs will be taught at their authorized site in Murfreesboro, Tennessee.

1.   **The Associate of Applied Science in Human Resource Management Program** is designed to provide students with in-depth knowledge of laws governing the employment process. The program also prepares students to write employment policies and procedures and to apply these laws to employment related decisions. Graduates will learn how to research human resource laws, cases and issues. Graduates will also gain knowledge of interviewing techniques, ethical versus unethical behavior and develop their skills in management, including planning, staffing and leading a Human Resources Department.

Program: **Human Resource Management**
Credential Awarded: **Associate of Applied Science**
Length of Program: **96 quarter credit hours (24 months)**

2.   **The Diploma in Human Resource Management Program** is designed to provide students with the skills necessary to write legal employment policies, procedures and employee handbooks. Students will learn how to research human resource laws, cases and issues, as well as how to support the key tasks of the human resources department. Graduates will gain general knowledge of interviewing techniques, ethical versus unethical behavior and develop skills in planning and organizing the human resources department.

Program: **Human Resource Management**

Credential Awarded: **Diploma**
Length of Program: **72 quarter credit hours (18 months)**

3.   **The Certificate of Completion in Human Resource Management Program** is designed to prepare students to write employee handbooks for an organization. Students will learn how to research human resource law and cases and support the key tasks of the human resources department.

Program   **Human Resource Management**
Credential Awarded: **Certificate of Completion**
Length of Program: **48 quarter credit hours (12 months)**

The institution participates in Title IV funding.

H.   Draughons Junior College   **Nashville, TN**

Draughons Junior College – 340 Plus Park is seeking authorization for three new programs, an Associate of Applied Science in Human Resource Management and a Diploma and a Certificate of Completion in Human Resource Management; the programs will be taught by faculty from Draughons authorized site in Nashville, Tennessee.

1.   **The Associate of Applied Science in Human Resource Management Program** is designed to provide students with in-depth knowledge of laws governing the employment process. The program also prepares students to write employment policies and procedures and to apply these laws to employment related decisions. Graduates will learn how to research human resource laws, cases and issues. Graduates will also gain knowledge of interviewing techniques, ethical versus unethical behavior and develop their skills in management, including planning, staffing and leading a Human Resources Department.

Program: **Human Resource Management**
Credential Awarded: **Associate of Applied Science**
Length of Program: **96 quarter credit hours (24 months)**

2.   **The Diploma in Human Resource Management Program** is designed to provide students with the skills necessary to write legal employment policies, procedures and employee handbooks. Students will learn how to research human resource laws, cases and issues, as well as how to support the key tasks of the human resources department. Graduates will gain general knowledge of interviewing techniques, ethical versus unethical behavior and develop skills in planning and organizing the human resources department.

Program: **Human Resource Management**
Credential Awarded: **Diploma**
Length of Program: **72 quarter credit hours (18 months)**

3. **The Certificate of Completion in Human Resource Management Program** is designed to prepare students to write employee handbooks for an organization. Students will learn how to research human resource law and cases and support the key tasks of the human resources department.

Program   **Human Resource Management**
Credential Awarded: **Certificate of Completion**
Length of Program: **48 quarter credit hours (12 months)**

The institution participates in Title IV funding.

I. **Lab Four**   **Memphis, TN**

Lab Four is seeking authorization for three Certificate of Completion programs in: Administrative Professional with Microsoft Office Specialist, Introduction to Medical Terminology, and Preparatory-Microsoft Certified IT Professional (MCITP): Enterprise Support Technician. The programs will be taught by faculty at their authorized site in Memphis, Tennessee.

1. **The Certificate of Completion in Administrative Professional with Microsoft Office Specialist Program** is designed to prepare students to be proficient office administrators. Students will gain experience in using Microsoft Office applications, office procedures, and management techniques. Additionally, students will learn how to keep an office organized and running smoothly, plan and schedule meetings and appointments, prioritize tasks, and exhibit professional behavior.

Program: **Administrative Professional with Microsoft Office Specialist**
Credential Awarded: **Certificate of Completion**
Length of Program: **72 contact hours (12 weeks)**

2. **The Certificate of Completion in Introduction to Medical Terminology Program** provides knowledge about diagnostic codes specific to the ICD-9-CM and CPT coding terminology. The objective of this program is for students to master coding, billing, legal issues regarding Medicare fraud and abuse, and the Health Insurance Portability and Accountability Act. The curriculum includes: Introduction to Medical Terminology, Human Body in Health and Disease, and Diagnostic Procedures and Pharmacology.

Program: **Introduction to Medical Terminology**
Credential Awarded: **Certificate of Completion**
Length of Program: **72 contact hours (12 weeks)**

3. **The Certificate of Completion in Preparatory - Microsoft Certified IT Professional (MCITP): Enterprise Support Technician Program** is designed to provide an overview of operating system concepts and how to troubleshoot Microsoft Windows Vista. This program also prepares students to enter into the information technology industry. The curriculum includes: Installing Windows Vista, Upgrading and Migrating to Windows Ultimate Edition, Troubleshooting Operating Systems, and Maintaining and Optimizing Windows Vista.

Program:	**Preparatory - Microsoft Certified IT Professional (MCITP): Enterprise Support Technician**
Credential Awarded:	**Certificate of Completion**
Length of Program:	**72 contact hours (12 weeks)**

The institution does not participate in Title IV funding.

J. Miller - Motte Technical College   Chattanooga, TN

Miller - Motte Technical College - Chattanooga is seeking authorization for one new program, an Associate of Applied Science Degree Program in Respiratory Therapy (online & onsite). The program will be taught with a blended format, with general education courses taught on-line and the remaining of the program taught by faculty at their authorized site in Chattanooga, Tennessee.

1. **The Associate of Applied Science in Respiratory Therapy Degree Program (online & onsite)** will provide students with the skills necessary to manage, control, and treat problems associated with cardiopulmonary disease. Students will acquire knowledge regarding respiratory and cardiac diseases, as well as receive training in respiratory care procedures. Students will complete eighty-eight quarter hours of major course requirements to include: Microbiology, Anatomy & Physiology, Medical Terminology, Pathology, Pharmacology, Medical Law & Ethics, and Respiratory Therapy didactic and clinical courses. Additionally, students will take twenty-eight quarter hours of General Education courses to include: English Composition, General Psychology, Physical Science, and College Mathematics.

Program:	**Respiratory Therapy**
Credential Awarded:	**Associate of Applied Science Degree**
Length of Program:	**116 quarter credit hours (24 months)**

The institution is in the process of receiving programmatic accreditation from the Committee on Accreditation of Allied Health Programs (CAAHEP) upon recommendation of the Committee on Accreditation for Respiratory Care (CoARC). Currently, the institution holds an Approval of Intent to begin the respiratory care program. A self study will be due no later than May 18, 2009 and the review will take approximately 4-6 weeks. At that time, more information may be requested or the Letter of Review will be granted. Students will not be admitted until verification of the Letter of Review is received.

The institution participates in Title IV funding.

K.   Nashville Auto Diesel College   **Nashville, TN**

Nashville Auto-Diesel College is seeking authorization for four new Associate of Occupational Studies programs in: Automotive and Diesel Technology, Automotive and Diesel Technology with Automotive Undercar Specialty, Automotive and Diesel Technology with Heavy Equipment Maintenance, and Collision Repair and Refinishing Technology. The programs will be taught by faculty from their authorized site in Nashville, Tennessee.

1.   **The Associate of Occupational Studies in Automotive and Diesel Technology Program** is designed to build upon the diploma program by including general education courses and preparing students for entry into the automotive and/or diesel industry. Students will be taught theory, function, diagnostics, and repair of automotive and diesel engines. Using industry standard tools and equipment, students diagnose and repair electrical and mechanical systems on automobiles and trucks. This program prepares students for entry level management positions.

Program: **Automotive and Diesel Technology**
Credential Awarded: **Associate of Occupational Studies**
Length of Program: **88.5 semester credit hours (20.5 months)**

2.   **The Associate of Occupational Studies in Automotive and Diesel Technology with Automotive Undercar Specialty Program** is designed to build upon the diploma program by including general education courses and to teaching students theory, function, diagnostics, and repair of automotive and diesel engines with emphasis on undercar and chassis component repair. Additionally, students will study construction and operation of fuel systems, electronics and tune ups for diesel equipment. Students also will study automatic transmissions, transmissions and drive lines, air conditioning, electrical systems, automotive brake, steering and suspension systems. This program prepares students for entry level management positions.

Program: **Automotive and Diesel Technology with Automotive Undercar Specialty**
Credential Awarded: **Associate of Occupational Studies**
Length of Program: **88.5 semester credit hours (20.5 months)**

3.   **The Associate of Occupational Studies in Automotive and Diesel Technology with Heavy Equipment Maintenance Program** is designed to build upon the diploma program by including general education courses and to allowing students to focus on training in the heavy equipment industry. Students will study fuel and emission systems, electrical systems, hydraulics, alternative fuels, welding and safety specific to the Heavy Equipment industry. This program prepares students for entry level management positions.

Program: **Automotive and Diesel Technology with Heavy Equipment Maintenance**

Credential Awarded: **Associate of Occupational Studies**
Length of Program: **88.5 semester credit hours (20.5 months)**

4.   **The Associate of Occupational Studies in Collision Repair and Refinishing Technology Program** is designed to build upon the diploma program by including general education courses and to teach students a comprehensive understanding and hands-on application of industry standard collision repair. Additionally, students take the following courses: introductory collision repair and welding, paint equipment, spraying techniques, fabrication, electrical and mechanical, repair, and computerized estimating and measuring. This program prepares students for entry level management positions.

Program: **Collision Repair and Refinishing Technology**
Credential Awarded: **Associate of Occupational Studies**
Length of Program: **88.5 semester credit hours (20.5 months)**

The institution participates in Title IV funding.

L.   National College of Business and Technology   Nashville, TN

National College of Business & Technology- Nashville is seeking authorization for one new program, a Diploma in Desktop Support. The program will be taught by faculty from their authorized site in Nashville, Tennessee.

1.   **The Diploma in Desktop Support Program** is designed to provide graduates with the ability to be successful in a PC repair position or in a help desk environment. The program will provide the skills to support end users and to troubleshoot in desktop environments running Microsoft Windows operating system.

Program: **Desktop Support**
Credential Awarded: **Diploma**
Length of Program: **48 quarter credit hours (12 months)**

The institution participates in Title IV funding.

M.   Nashville Auction School   Tullahoma, TN

Nashville Auction School is seeking authorization for one new program, a Certificate of Completion in Automobile Auctioneer License Education Program. The program will be taught by faculty from their authorized site in Tullahoma, Tennessee.

Nashville Auction School is currently authorized to offer two Certificate of Completion programs in: Auctioneering 101 and 30 Hour Qualifying Education.

1.   **The Certificate of Completion in Automobile Auctioneer License Education Program** is designed for the professional auctioneer seeking licensure as a Tennessee Public Automobile Auctioneer. This course will explore the issues

involved in public auctioning of automobiles and will focus on legal and business issues unique to the sale and transfer of the title of motor vehicles in Tennessee. Students will receive instruction in auction laws, Tennessee motor vehicle laws, business practices, contracts, escrow accounts, and liability issues.

Program: **Automobile Auctioneer License Education**
Credential Awarded: **Certificate of Completion**
Length of Program: **30 contact hours (3.5 days)**

The institution does not participate in Title IV funding.

N.   Park University   Millington, TN

Park University is seeking authorization to offer two new Bachelor of Science Management degree programs in Finance and Marketing. The programs will be taught by faculty from their authorized site in Millington, Tennessee.

1.   **The Bachelor of Science in Management/Finance Degree Program** is designed to impart an understanding of the various areas and principles of finance and provide the student with a body of specialized knowledge and analytical methods. The desired outcome is to prepare students to pursue careers in finance within either the public or private sector. A strong emphasis is placed on the analytical process and preparing students to make sound financial decisions within the workplace. As a part of this program students will also spend a large concentration of their time in the area of economics. This part of the study includes both theoretical and application components which focus around the various economic models. Students in the program are also expected to gain a basic understanding of the accounting process and terminology. Though finance is the main focus of the program, students will also receive a well rounded management knowledge by completing coursework in areas such as: Business Policy, Productions and Operations, Business Law, Marketing, and a capstone course that provides students with decision making opportunities through the use of simulated scenarios. Internships or other part-time positions are encouraged to assist students in gaining a practical knowledge of the subject matter.

Program: **Management/Finance**
Credential Awarded: **Bachelor of Science**
Length of Program: **120 semester credit hours (40 months)**

2.   **The Bachelor of Science Management/Marketing Degree Program** is designed to provide students an in-depth understanding of the various marketing disciplines. A wide range of marketing specific topics will be covered within the program including, but not limited to: Advertising, Personal Selling, Marketing Management, International Marketing, Retailing, and Market Research. Other areas such as accounting and economics are covered within

the course of the program. Though marketing is the main focus of the program, students will also receive a well rounded management knowledge by completing coursework in areas such as: Business Policy, Productions and Operations, Business Law, Marketing, and a capstone course that provides students with decision making opportunities through the use of simulated scenarios. Internships or other part-time positions are encouraged to assist students in gaining a practical knowledge of the subject matter.

Program: **Management/Marketing**
Credential Awarded: **Bachelor of Science**
Length of Program: **120 semester credit hours (40 months)**

The institution participates in Title IV funding.

O.   South College   **Knoxville, TN**

South College is seeking authorization for one new Doctor of Pharmacy Degree Program. The program will be taught by faculty from their authorized site in Knoxville, Tennessee.

1.   **The Doctor of Pharmacy Degree Program** is designed to educate students to be highly qualified pharmacy practitioners. The professional pharmacy curriculum is completed in three years. The first year, students will study subjects such as: biochemistry, pathophysiology, medicinal chemistry, pharmacology, pharmaceutics and Introductory Pharmacy Practice Experiences. The second year, students will gain extensive knowledge of pharmacotherapy and continuation in the Pharmacy Practice course. The third year, students focus on experiential education and complete eight (8) Advanced Practice Experiences in five (5) week rotations consisting of six (6) required and two (2) elective rotations. Graduates will be eligible to sit for the North American Pharmacy Licensing Examination (NAPLEX) and the jurisprudence examination in the State of Tennessee.

Program: **Pharmacy**
Credential Awarded: **Doctor**
Length of Program: **192 quarter credit hours (36 months)**

South College has contacted the Tennessee Board of Pharmacy to inform them of the institution's intent to establish a South College School of Pharmacy. The institution will submit applications to the Southern Association of Colleges and Schools (SACS) and the Accreditation Council for Pharmacy Education (ACPE) for the purposes of seeking accreditation of the Doctor of Pharmacy Degree Program. Students will not be admitted until verification of the required approvals from SACS and ACPE are received.

The institution participates in Title IV funding.

P.   University of Phoenix – Online (Axia College)   Phoenix, AZ

University of Phoenix – Online (Axia College) is revising nineteen Associate of Arts programs in: Accounting, Communications, Criminal Justice, Financial Services, Foundations of Business, General Studies, Health Care Administration, Health Care Administration/Medical Records, Health Care Administration/Pharmacy Practice, Hospitality, Travel, and Tourism, Human Services Management, Information Technology, Information Technology/ Information Technology Support, Information Technology/ Networking, Information Technology/Programming, Information Technology/Web Design. These revisions will replace the currently approved programs. The institution is recruitment only and all classes are available online.

Program: **Accounting (Revised)**
Credential Awarded: **Associate of Arts**
Length of Program: **60 semester credit hours (23 months)**

Program: **Communications (Revised)**
Credential Awarded: **Associate of Arts**
Length of Program: **60 semester credit hours (23 months)**

Program: **Criminal Justice (Revised)**
Credential Awarded: **Associate of Arts**
Length of Program: **60 semester credit hours (23 months)**

Program: **Financial Services (Revised)**
Credential Awarded: **Associate of Arts**
Length of Program: **60 semester credit hours (23 months)**

Program: **Foundations of Business (Revised)**
Credential Awarded: **Associate of Arts**
Length of Program: **60 semester credit hours (23 months)**

Program: **General Studies (Revised)**
Credential Awarded: **Associate of Arts**
Length of Program: **60 semester credit hours (23 months)**

Program: **Health Care Administration (Revised)**
Credential Awarded: **Associate of Arts**
Length of Program: **60 semester credit hours (23 months)**

Program: **Health Care Administration/Medical Records (Revised)**
Credential Awarded: **Associate of Arts**
Length of Program: **60 semester credit hours (23 months)**

Program: **Health Care Administration/Pharmacy Practice (Revised)**
Credential Awarded: **Associate of Arts**
Length of Program: **60 semester credit hours (23 months)**

Program: **Hospitality, Travel, and Tourism (Revised)**
Credential Awarded: **Associate of Arts**
Length of Program: **60 semester credit hours (23 months)**

Program: Human Services Management (Revised)
Credential Awarded: Associate of Arts
Length of Program: 60 semester credit hours (23 months)

Program: Information Technology (Revised)
Credential Awarded: Associate of Arts
Length of Program: 60 semester credit hours (23 months)

Program: Information Technology/Information Technology Support (Revised)
Credential Awarded: Associate of Arts
Length of Program: 60 semester credit hours (23 months)

Program: Information Technology/Networking (Revised)
Credential Awarded: Associate of Arts
Length of Program: 60 semester credit hours (23 months)

Program: Information Technology/Programming (Revised)
Credential Awarded: Associate of Arts
Length of Program: 60 semester credit hours (23 months)

Program: Information Technology/Web Design (Revised)
Credential Awarded: Associate of Arts
Length of Program: 60 semester credit hours (23 months)

Program: Paraprofessional Education (Revised)
Credential Awarded: Associate of Arts
Length of Program: 60 semester credit hours (23 months)

Program: Psychology (Revised)
Credential Awarded: Associate of Arts
Length of Program: 60 semester credit hours (23 months)

Program: Sports Management (Revised)
Credential Awarded: Associate of Arts
Length of Program: 60 semester credit hours (23 months)

The institution participates in Title IV funding.
