

G 4

People in our society today believe that the rise of violence from modern movies and video games ~~is~~ has encouraged ~~young~~ young people to become violent. I do agree with this to some extent. ~~and I~~ ~~also~~ agree that it does have a major affect and influence on the young people viewing the movies and playing the games.

~~A majority of the teenagers today have become~~ pretty ~~addicted~~ addicted to some of these violent video games ~~as well as~~ ~~as~~ ~~just~~

~~They have become addicted to these games and movies and they have a major influence on their family and friends.~~

Playing and watching these games and movie can have a major influence on your family and friends

G-4

Score Point: 1

This response reflects fundamental deficiencies in persuasive writing skills. The writer agrees that viewing violent movies and video games can influence young people. The idea that teenagers can become addicted to these games is given to support this position; however, no relevant details are provided to support this belief. Additionally, the majority of the response is a rephrasing of the prompt.
