

G 7

If I was a superhero my day would be fun. I would go around the world and help people with their problems. I would act nice and polite in front of people I don't know. I would change a lot of things like giving kids extra recess at school for getting good grades on their report card. That is what I would do if I was a superhero.

G-7

Score Point: 2

This response reflects flawed proficiency in narrative writing skills. The writer responds to each question presented in the prompt (where would you go, what would you do, and would you change anything?). Although the response is virtually error free, more development is needed to earn a higher score.
