

These are the items I would
 put in a time capsules one
 of them is a mix cd with like
 rock hip hop Rap Country and
 a fourth is a watch and
 the last one is a can of
 pop and the reason I would
 put that stuff in a time
 capsules is so the people can
 tell the differences between the
 different music and the reason
 I would put a watch in there
 because so the people can tell
 what time it is and the reason
 for the pop is so they can taste
 some thing new. and that is what
 I would put in a time capsules
 and why

G-6**Score Point: 2**

This response reflects flawed proficiency in expository writing skills. The writer identifies three items to be placed in a time capsule and provides reasons for these selections; however, the key ideas are presented without further development. Serious errors in writing conventions make the response difficult to understand.
