

New Source Review newspaper advertisements for construction permit applications, August 20, 2009. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: August 18, August 19, or August 20, 2009. Public notices are generally published every two weeks. The previous publication of public notices was August 6, 2009.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Lincoln Memorial University with a mailing address of 6965 Cumberland Gap Parkway, Harrogate, TN 37752. They seek to obtain air contaminant permits for Emergency Generators located at the same address, as follows:

- (1). Natural Gas-Fired Emergency Generator (Division identification number: 13-0033-12/62984). This existing operation consists of a natural gas-fired generator. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Ms. O. Jacobsen is the assigned Division person.
- (2). Diesel-Fired Emergency Generator (Division identification number: 13-0033-13/62987). This existing operation consists of a diesel-fired generator. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Ms. O. Jacobsen is the assigned Division person.

For the Claiborne County "Claiborne Progress"-- published once on or before Thursday, August 20, 2009.

The applicant is Medina Funeral Home & Cremation Service with a mailing address of 302 West Church Street, Medina, TN 38355. They seek to obtain an air contaminant permit (Division identification number: 27-0217-01/62934) for construction of a Crematory located at the same address. This proposed operation would consist of a crematory and associated equipment used to incinerate human remains. Liquid Propane would be used for fuel. An afterburner, secondary chamber temperature monitor and opacity monitor would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. Sarosh Kaiser is the assigned Division person.

For the Gibson County "Milan Mirror-Exchange" -- published once on or before Thursday, August 20, 2009.

The applicant is Sekisui TA Industries, Inc. with a mailing address of 75 Industrial Park Drive, Rogersville, TN 37857. They seek to obtain an air contaminant permit (Division identification number: 37-0079-01/62950) for modification of a Surface Coating Operation located at the same address. This existing operation consists of one (1) lip coater and associated drying oven used to coat polypropylene film. The requested modification is to add second pressure sensitive adhesive coating line that applies water-borne adhesive to plastic film to produce tape. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants emitted by this source would increase. Ms. O. Jacobsen is the assigned Division person.

For the Hawkins County "Rogersville Review"--published once on or before Thursday, August 20, 2009.

The applicant is Maymead Materials, Inc. with a mailing address of P. O. Box 911, Mountain City, Tennessee 37683. They seek to obtain a construction permit (Division identification number: 46-0001-01/962935P) to allow them to increase the process weight rate of their Jaw Crusher CR1 from 350 tons per hour to 750 tons per hour at their site at Forge Creek Road, Highway, 1.0 Mile South of Mountain City, Tennessee 37683. This proposed operation covers a rock crushing and sizing operation with wet suppression control for the limestone operations. There would be no physical construction. Particulate matter will be the regulated air contaminant emitted by this source. Mr. Malcolm Butler is the assigned Division person.

For the Johnson County "Tomahawk"-- published once as soon as possible on or before August 20, 2009.

The applicant is Mantria Industries, LLC. with a mailing address of 555 City Avenue, Suite 430, Bala Cynwyd, PA 19004. They seek to obtain a Construction Permit (Division identification number: 51-0040-01/62889) for construction of a Carbonization Process Unit (Carbon Reclamation facility) Operation located at 228 Industrial Avenue, Hohenwald, TN 38462. This existing operation uses only Biomass feedstock as the process material and associated equipment to reclaim carbon. A Catalytic Afterburner, Limestone Slurry Bed, Carbon Filter and Fabric Filter will be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. Sarosh Kaiser is the assigned Division person.

For the "Lewis County Herald" -- published once on or before Thursday, August 20, 2009.

The applicant is St. Andrews Market with a mailing address of 730A Middle Tennessee Blvd., Suite 16, Murfreesboro, TN 37129. They seek to obtain an air contaminant permit (Division identification number: 75-0645-01/62947) for construction of a Gasoline Dispensing Facility at, 1725 St. Andrews Murfreesboro, TN 37129. This proposed operation would consist of three (3) underground tanks and six (6) gasoline nozzles. A Stage I and Stage II vapor recovery would be used for gasoline emission control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Collins is the assigned Division person.

For the Rutherford County "Daily News Journal"-- published once on or before Thursday, August 20, 2009.

The applicant is American Environmental LLC with a mailing address of 5191 Sullivan Gardens Parkway, Kingsport, Tennessee 37660. They seek to obtain an air contaminant permit (Division identification number: 82-0432-01/62923) for construction of a Portable Wood Recycling Operation located at 391 Moreland Drive, Kingsport, TN 37660. This proposed operation would consist of a Portable Wood Recycler Machine with 375 hp diesel engine used to recycle wood. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. Hymelia Craig is the assigned Division person.

For Sullivan County "Kingsport Times-News" --publish once on or before Thursday, August 20, 2009.

The applicant is Vulcan Materials Company, LP with a mailing address of P.O. Box 7, Knoxville, TN 37901. They seek to obtain an air contaminant permit for construction of a sources located at 379 Leeville Road, Lebanon, TN 37090 as follows:

- 1) Rock Crushing Facility (Division identification number: 95-0222-08/62913) This proposed operation would consist of a gravel stockpile, sand stockpile, screening equipment, conveyors crushers, bin, pugmill and associated equipment used to crush stone. Wet suppression would be used for pollution control. Regulated air contaminants would be emitted by this source. Mr. Will Collins is the assigned Division person.
- 2) Two Generators (Division identification number: 95-0222-09/62929) This proposed operation would consist of two (2) diesel internal combustion engines and associated equipment used to produce power. Due to the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Collins is the assigned Division person.

For the Wilson County "Lebanon Democrat"-- published once on or before Thursday, August 20, 2009.
