Total	66	14	21%	8

INSTRUCTIONS: For each low producing program, please provide a response as to whether the program should be retained, consolidated, terminated or inactivated. If the recommendation is to retain or consolidate the program, please identify steps to increase productivity. If a program will be consolidated, please provide the proposed timeframe for consolidation and termination of existing program. Programs recommended for inactivation or termination should include proposed date. Responses to all low-producing programs are due to THEC by Dec 22, 2009.

Programs identified as low producing does not include new programs that have not matured and are currently being reviewed through the post-approval monitoring process.

Changes since May 2009:

- (1) Transfer of programs from UTK to UTMHSC: Audiology (MA), Audiology (AUD), Speech Pathology (MS), and Speech & Hearing Science (PhD) effective July 2009.
- (2) New low-producing programs identified: Aerospace Eng (PhD), Chemical Eng (PhD) and Sociology (PhD)
- (3) Programs removed from low-producing list: 3 bachelor's programs -- Public Admin, Agricultural Science and Economics

Programs identified as low producing does not include new programs that have not matured and are currently being reviewed through the post-approval monitoring (PAM) process. Programs in PAM are not included in the total active program count.

Changes since May 2009:

- (1) Inactivation of Forensic Technology (MSFT) and Health Sciences Admin (MS) programs
- (2) Correction of inventory to reflect Medicinal Chemistry as a concentration within the Pharmaceutical Sciences, PhD program
- (3) Transfer of programs from UTK to UTMHSC: Audiology (MA), Audiology (AUD), Speech Pathology (MS), and Speech & Hearing Science (PhD) effective July 2009.
- (4) New low-producing programs identified: Speech & Hearing Science (PhD) and Microbiology (PhD)
