

New Source Review newspaper advertisements for construction permit applications, October 6, 2016. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: October 4, 2016, October 5, 2016, or October 6, 2016. Public notices are generally published every week. The previous publication of public notices was September 22, 2016.

#### PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-03-09-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mrs. Michelle W. Owenby, Director, Division of Air Pollution Control, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, 15<sup>th</sup> Floor, Nashville, Tennessee 37243 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Any individuals with disabilities who wish to participate in these proceedings or to review these filings should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such initial contact may be in person, by writing, telephone, or other means, and should be made no less than ten (10) days prior to the hearing, or the date such party intends to review such filings, to allow time to provide such aid or service. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 2<sup>nd</sup> Floor, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, Nashville, TN 37243, (866) 253-5827 (toll free) or (615) 532-0200. Hearing impaired callers may use the Tennessee Relay Service (1-800-848-0298).

The applicant is New Cingular Wireless PCS, LLC dba AT&T Mobility with a mailing address of P.O. Box 5095, Room 4W200M, San Ramon, CA 94583. They seek to obtain an air contaminant permit (Division identification number: 03-0076/972032) for construction of a diesel-fired engine at 50 Cox Road, Holladay, TN 38341. This operation consists of one (1) diesel-fired emergency generator engine and associated equipment used to produce power. Due to the amount and type of emissions, the use of control equipment is not proposed. There would be no physical construction. Regulated air contaminants would be emitted by this source. Ms. J. Pratt is the assigned Division person.

For Benton County "Camden Chronicle"-- publish once on Thursday, October 6, 2016.

---

The applicant is Oakcrest Lumber, Inc. with a mailing address of 3287 Georgia Highway 41 South, Buena Vista, GA 31803. They seek to obtain air contaminant permit (Division identification number: 15-0139-02/971959P) for modification of a Woodworking Operation located at 1489 West Highway 25/70, Newport, TN 37821. This existing operation consists of planning of random width hardwood lumber with a double planer. A cyclone is used for pollution control. The requested modification is for the addition of woodworking equipment consisting of a gang rip saw, a panel rip saw, a tenoner, a sander, two molders, an end matcher, three chop saws, a frame saw, a wood hog, and a glue machine. Two fabric filters (baghouses) are proposed to be used as pollution control equipment, and it is also proposed that the outlet from the existing cyclone would no longer emit directly to the ambient air, but would instead be connected to the baghouses. There would be physical construction. Regulated air contaminants are emitted by this source. Mr. H. Flores is the assigned Division person.

For the Cocke County "Newport Plain Talk"-- publish once on Thursday, October 6, 2016.

---

The applicant is Bunge North America, Inc. with a mailing address of 4344 Everett Lake Road, Finley, TN 38030. They seek to obtain an air contaminant permit (Division identification number: 23-0048-01/71957) for modification of a Grain Elevator located at the previously mentioned address. This existing operation consists of receiving pits, storage silos, grain dryer, barge loading, and associated equipment used to store and distribute grain. The requested modification is for an increase in material throughput. A baghouse is used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Sarosh Kaiser is the assigned Division person.

For the Dyer County "State Gazette"-- publish once on Thursday, October 6, 2016.

---

The applicant is Bunge North America, Inc. with a mailing address of 4344 Everett Lake Road, Dyersburg, TN 38024. They seek to obtain an air contaminant permit (Division identification number: 23-0048-03/71958) for modification of a Grain Dryer located at the before mentioned address. This existing operation consists of a grain dryer and associated equipment used to remove moisture from grain. Number 2 fuel oil is used as fuel. The requested modification is for an increase in annual throughput capacity. There would be no physical construction. Regulated air contaminants are emitted by this source. Mrs. Sarosh Kaiser is the assigned Division person.

For the Dyer County "State Gazette"-- publish once on Thursday, October 6, 2016.

---

The applicant is Nissan North America, Inc. with a mailing address of 983 Nissan Drive, Smyrna, TN 37167. They seek to obtain an air contaminant permit for installation of a new Engine Assembly Line located at 520 Nissan Powertrain Drive, Decherd, TN 37324 as follows:

(1) Engine Machining Operation (Division identification number: 26-0091-08/72081). This existing operation consists of coolants, lubricants, machining lines (block, head, and crank) and associated equipment used to machine automobile engines. Mist eliminators are used for pollution control. Mist eliminators and dust collectors will be used for pollution control after the modification. The requested modification is to add a honing operation that utilizes a water-based honing fluid controlled by a mist eliminator and to add three cells in which metallic coating will be applied to cylinders with a machining process to remove excess coating and a dust collector on each cell for controlling emissions of particulate matter. There would be physical construction. Regulated air contaminants emitted by this source would increase. Mr. M. Reynolds is the assigned Division person.

(2) Casting Operation (Division identification number: 26-0091-11/72081). This existing operation consists of a chip pre-heater, chip reclaim melting furnace, and associated equipment used to melt aluminum chips to make automobile engines. A wet scrubber is used for pollution control. The requested modification is to convert the chip pre-heater from electric to natural gas. There would be physical construction. Regulated air contaminants emitted by this source would increase. Mr. M. Reynolds is the assigned Division person.

For the Franklin County "Herald-Chronicle"-- publish once on Tuesday, October 4, 2016.

---

The applicant is Franklin County Animal Control with a mailing address of 420 Wilton Circle, Winchester, TN 37398. They seek to obtain an air contaminant permit (Division identification number: 26-0192-01/971760) for construction of an animal crematory operation located at 332 Utility Road, Winchester, TN 37398. This proposed operation would consist of a crematory and associated equipment used to incinerate animal remains. Diesel would be used for fuel. An afterburner would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. B. Hall is the assigned Division person.

For the Franklin County "Herald-Chronicle"-- publish once on Tuesday, October 4, 2016.

---

The applicant is Del Conca USA, Inc. with a mailing address of 155 Del Conca Way, Loudon, TN 37774. They seek to obtain air contaminant permits (Division identification numbers 53-0188-08 through 53-0188-10 / Log Number 972088 for the construction of three (3) 250 kW (335 hp) No. 2 Oil-Fired Emergency Generators (Model K130596640) for their Ceramic Tiles Manufacturing Operation located at the same address (mailing address). There will be physical construction and Regulated air contaminants would be emitted by this source. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. Mr. Younes Aleali is the assigned Division person.

For the Loudon County "News-Herald"-- publish once on Wednesday, October 5, 2016.

---

The applicant is ADM Milling Company with a mailing address of 240 Preston Street, Jackson, TN 38301. They seek to obtain an air contaminant permit (Division identification number: 57-0106-14/972074) for a Corn Milling Process located at the same address. This proposed operation would consist of storage bins, grain milling machines, vibrating screens, and associated equipment used to produce corn meal and other products derived from corn. Fabric filters will be used for pollution control. There would be physical construction. Regulated air contaminants are emitted by this source. Mr. E. King is the assigned Division person.

For the Madison County "Jackson Sun-Daily"-- publish once on Thursday, October 6, 2016.

---

The applicant is O'Neil Color and Compounding Corporation with a mailing address of 193 Commerce Place, Jasper, TN 37347-5312. They seek to obtain two air contaminant permits for modification of two sources located at same address as follows:

(1) Plastic Blending and Extrusion Operation (Division identification number: 58-0084-01/971683). This existing operation consists of eleven plastic blending and extruding lines, a color weighting room and associated equipment used for mixing various colorants with plastic resins. The requested modification is to increase material input rates. A dust collector is used for pollution control. There would be no physical construction. Regulated air contaminants emitted by this source would increase.

(2) Plastic Blending and Extrusion Operation (Division identification number: 58-0084-02/971684). This existing operation consists of two plastic blending and extruding lines and associated equipment used for mixing various colorants with plastic resins. The requested modification is to increase material input rates. A dust collector is used for pollution control. There would be no physical construction. Regulated air contaminants emitted by this source would increase. Mr. M. Baghernejad is the assigned Division person.

For the Marion County "Jasper Journal" -- publish once on Tuesday, October 4, 2016.

---

The applicant is Tyson Farms, Inc. with a mailing address of 5100 Tim Rice Road, South Fulton, TN 38257. They seek to obtain an air contaminant permit (Division identification number: 66-0109-07/971818) for the modification of a feed mill located at the same address. This existing operation consists of Sources 01 through 06. Fabric filters and cyclones are used for air pollution control. The requested modification is to include the truck loadout of finished livestock feed. There would be no physical construction. Regulated air contaminants are emitted by this source. Ms. J. Pratt is the assigned Division person.

For Obion County "Union City Daily Messenger"-- publish once on e Thursday, October 6, 2016.

---

The applicant is All-Tenn Animal Cremation Service with a mailing address of 2106 Ritter Road, La Vergne, TN 37086. They seek to obtain an air contaminant permit (Division identification number: 75-0573-03/71947) for construction of a Pet Crematory Incinerator located at same address. This proposed operation would consist of an incinerator unit and associated equipment for incinerating of pet remains. Natural gas would be used as fuel. An afterburner, secondary chamber temperature monitor and opacity monitor would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mrs. Sarosh Kaiser is the assigned Division person.

For the Rutherford County "Daily News Journal" -- publish once on Thursday, October 6, 2016.

---

The applicant is Lisega Inc. with a mailing address of 370 East Dumplin Valley Road, Kodak, TN 37764. They seek to obtain a construction permit (Division identification number: 78-0219-05/71602) for construction of a cryogenic pipe support manufacturing process located at the same address. This proposed operation would consist of polyurethane foam mold preparation, polyurethane foam manufacturing, pipe support assembly and polyurethane foam testing. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. H. Flores is the assigned Division person.

For the Sevier County "Mountain Press"-- publish once on Thursday, October 6, 2016.

---

The applicant is New Cingular Wireless PCS, LLC dba AT&T Mobility with a mailing address of P.O. Box 5095, Room 4W200M, San Ramon, CA 94583. They seek to obtain an air contaminant permit (Division identification number: 84-0128/972034) for construction of a diesel-fired engine at 1995A Highway 51 South, Covington, TN 38019. This operation consists of one (1) diesel-fired emergency generator engine and associated equipment used to produce power. Due to the amount and type of emissions, the use of control equipment is not proposed. There would be no physical construction. Regulated air contaminants would be emitted by this source. Ms. J. Pratt is the assigned Division person.

For Tipton County "Covington Leader"-- publish once on Thursday, October 6, 2016.

---

The applicant is New Cingular Wireless PCS, LLC dba AT&T Mobility with a mailing address of P.O. Box 5095, Room 4W200M, San Ramon, CA 94583. They seek to obtain an air contaminant permit (Division identification number: 84-0129/972035) for construction of a diesel-fired engine at 5985 Highway 59 South, Mason, TN 38049. This operation consists of one (1) diesel-fired emergency generator engine and associated equipment used to produce power. Due to the amount and type of emissions, the use of control equipment is not proposed. There would be no physical construction. Regulated air contaminants would be emitted by this source. Ms. J. Pratt is the assigned Division person.

For Tipton County "Covington Leader"-- publish once on Thursday, October 6, 2016.

---

The applicant is Claiborne Hauling, LLC dba Loyston Quarry with a mailing address of P.O. Box 14909, Knoxville, TN 37914. They seek to obtain an air contaminant permit (Division identification number: 87-0034-01/72107) for the construction of a Non-Metallic Mineral Processing Unit located at 569 Loyston Road, Maynardville, TN 37807. This operation will replace the non-metallic mineral processing unit currently permitted at this facility and will consist of three crushers, two screens, and fourteen conveyers. Wet suppression is used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Chelsea Meadows is the assigned Division person.

For the Union County "News Leader"-- publish once on Tuesday, October 4, 2016.

---

The applicant is New Cingular Wireless PCS, LLC dba AT&T Mobility with a mailing address of P.O. Box 5095, Room 4W200M, San Ramon, CA 94583. They seek to obtain an air contaminant permit (Division identification number: 91-0099/972036) for construction of a diesel-fired engine at 215 Fairlane Drive, Waynesboro, TN 38485. This operation consists of one (1) diesel-fired emergency generator engine and associated equipment used to produce power. Due to the amount and type of emissions, the use of control equipment is not proposed. There would be no physical construction. Regulated air contaminants would be emitted by this source. Ms. J. Pratt is the assigned Division person.

For Wayne County "Wayne County News"-- publish once on Wednesday, October 5, 2016.

---

The applicant is Tri Star Energy, LLC with a mailing address of 1740 Ed Temple Blvd., Nashville, Tennessee 37208. They seek to obtain air contaminant permit(s) (Division identification number(s): 94-0384-01/971941G for the installation of Gasoline Dispensing Facility, the facility is located on 7001 Berry Farms Crossing(6190 Twice Daily), Franklin, Tennessee 37064.The requested operation is for the approval to emit regulated air pollutants. Mr. Jim A. Attar is the assigned Division person.

For the Williamson County "AM Section of the Tennessean"--- publish once on Wednesday, October 5, 2016.
