# Agenda

Update on Care Coordination Tool RFP

Briefing on profiles of children in Health Homes

# Briefing on children in Health Homes

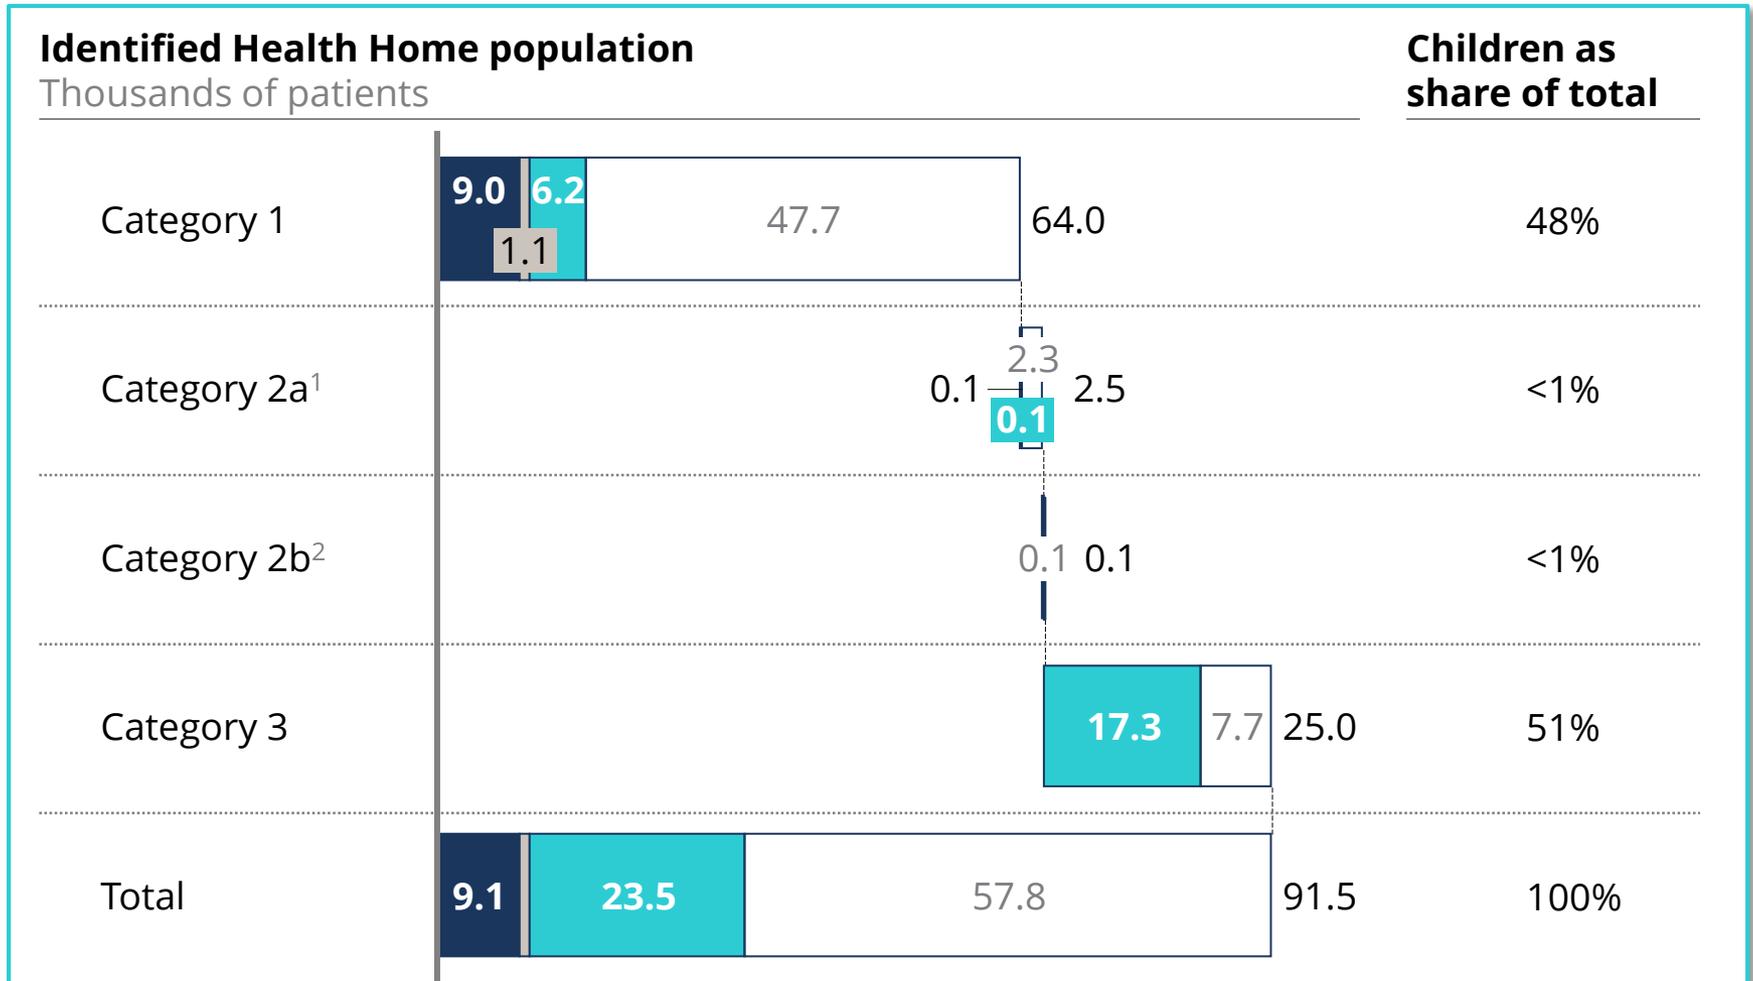

- 1 Overview of children in Health Homes by inclusion criteria**
- 2 Breakdown by age**
- 3 Breakdown by diagnosis**
- 4 View of utilization patterns**
- 5 Breakdown of provider types for BH treatments**

# 1 Review: Health Home member identification criteria

		<b>Working Health Home criteria</b>	
<b>Claims-based</b>	<b>Category 1: Diagnostic criteria only</b>	<b>Anytime during the year, diagnosis or code of:</b> <ul style="list-style-type: none"> <li>• Schizophrenia</li> <li>• Bipolar disorder</li> <li>• Personality disorder</li> <li>• Other mood disorders</li> <li>• Psychosis</li> <li>• Abuse and psychological trauma</li> <li>• Attempted suicide or self-injury</li> <li>• Homicidal ideation</li> </ul>	
	<b>or</b>	<b>Category 2: Diagnostic and utilization criteria</b>	<b>One or more behavioral health-related (a) inpatient admissions or (b) crisis stabilization unit admissions or residential treatment facility admissions; during the last 12 months WITH a diagnosis of:</b> <ul style="list-style-type: none"> <li>• Major depression</li> <li>• Other depression</li> <li>• Adjustment reaction</li> <li>• Anxiety</li> <li>• PTSD</li> <li>• Substance use</li> <li>• Psychosomatic disorders</li> <li>• Conduct disorder</li> <li>• Emotional disturbance of childhood and adolescence</li> <li>• Somatoform disorders</li> <li>• Other / unspecified</li> </ul>
<b>Provider referral</b>	<b>Category 3: Functional need</b>	<b>Provider documentation of functional need, to be determined by the provider and verified by the MCO. Designed to align with new L2 case management medical necessity criteria; approximated by the number of patients with 2 or more L2 case management visits</b>	

# 1 Breakdown of adults and children in identified Health Home population by inclusion criteria

- Children with no L2CM visit
- Children with 1 L2CM visit
- Children with 2 or more L2CM visits
- Adults<sup>3</sup>

Note: There are ~3,000 members with one, and only one, level 2 case management visits that do not meet Category 1 or 2 criteria. These individuals are not included in the expected identified population

1 Utilization criteria includes inpatient stay    2 Utilization criteria includes residential treatment admission or crisis stabilization service    3 All adults in identified population

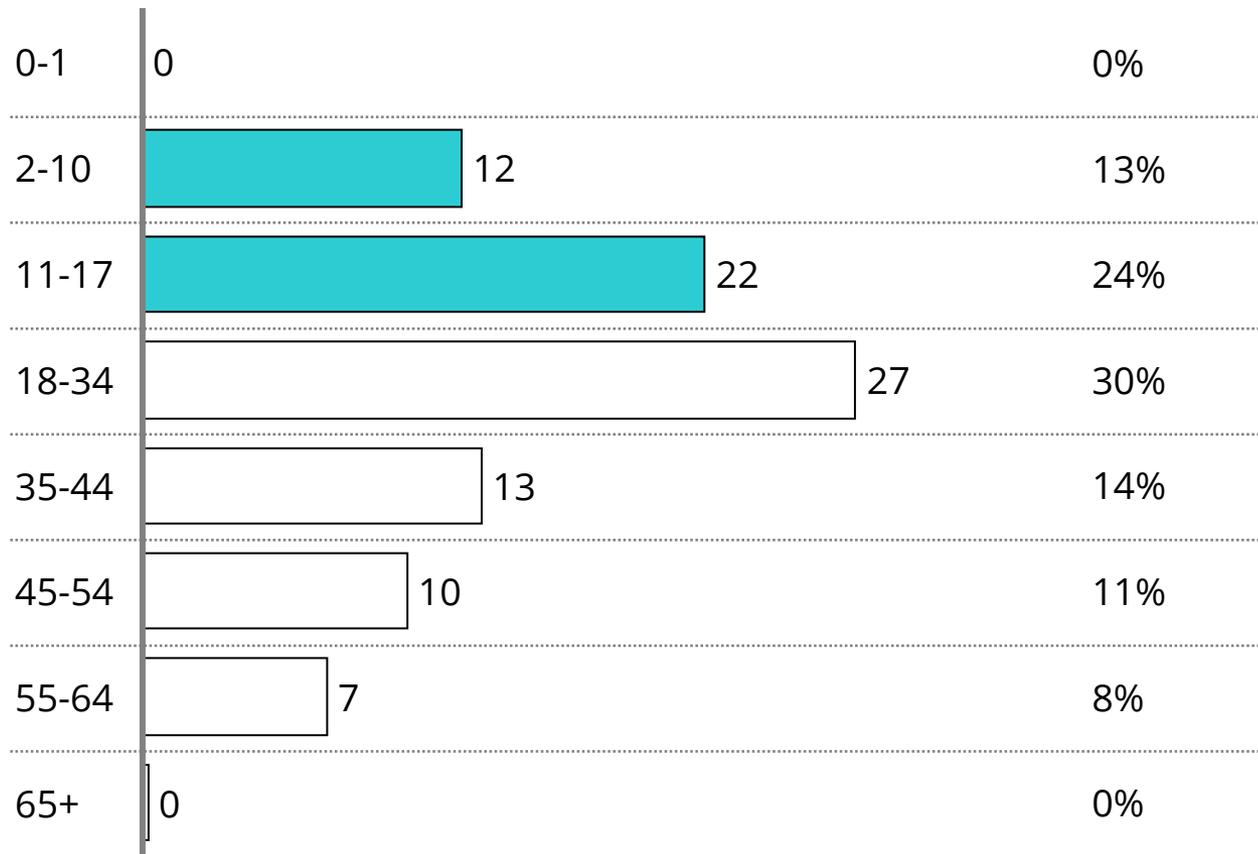

Source: TN 2014 claims data

## 2 Breakdown of identified Health Home population by age ■ Under 18 18 and over

### Potential health home members by age

Thousand unique patients

Share of total

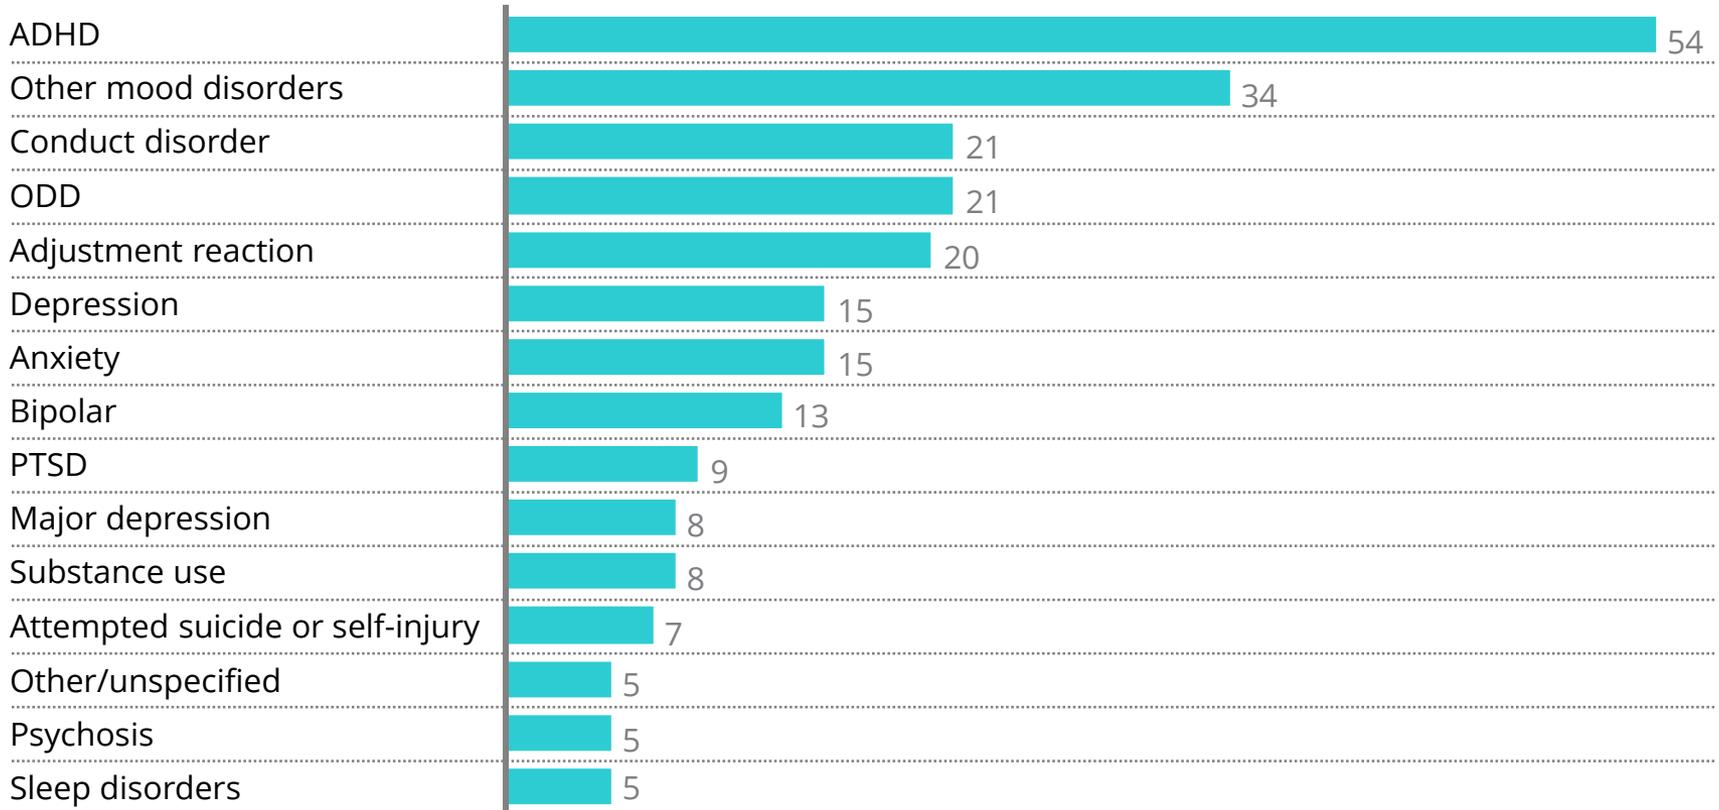

- Children account for 37% of the total identified Health Home population – and 25% when Category 3 is removed
- Among children, adolescents 11-17 account for about two thirds, and a third are children less than 11 years old

### 3 Diagnoses of children in the identified population

#### Breakdown of BH diagnoses for children

Percent, 100%=34K unique patients for children (0-17) in identified Health Home population (duplicated patients)

#### Any children in HH target population

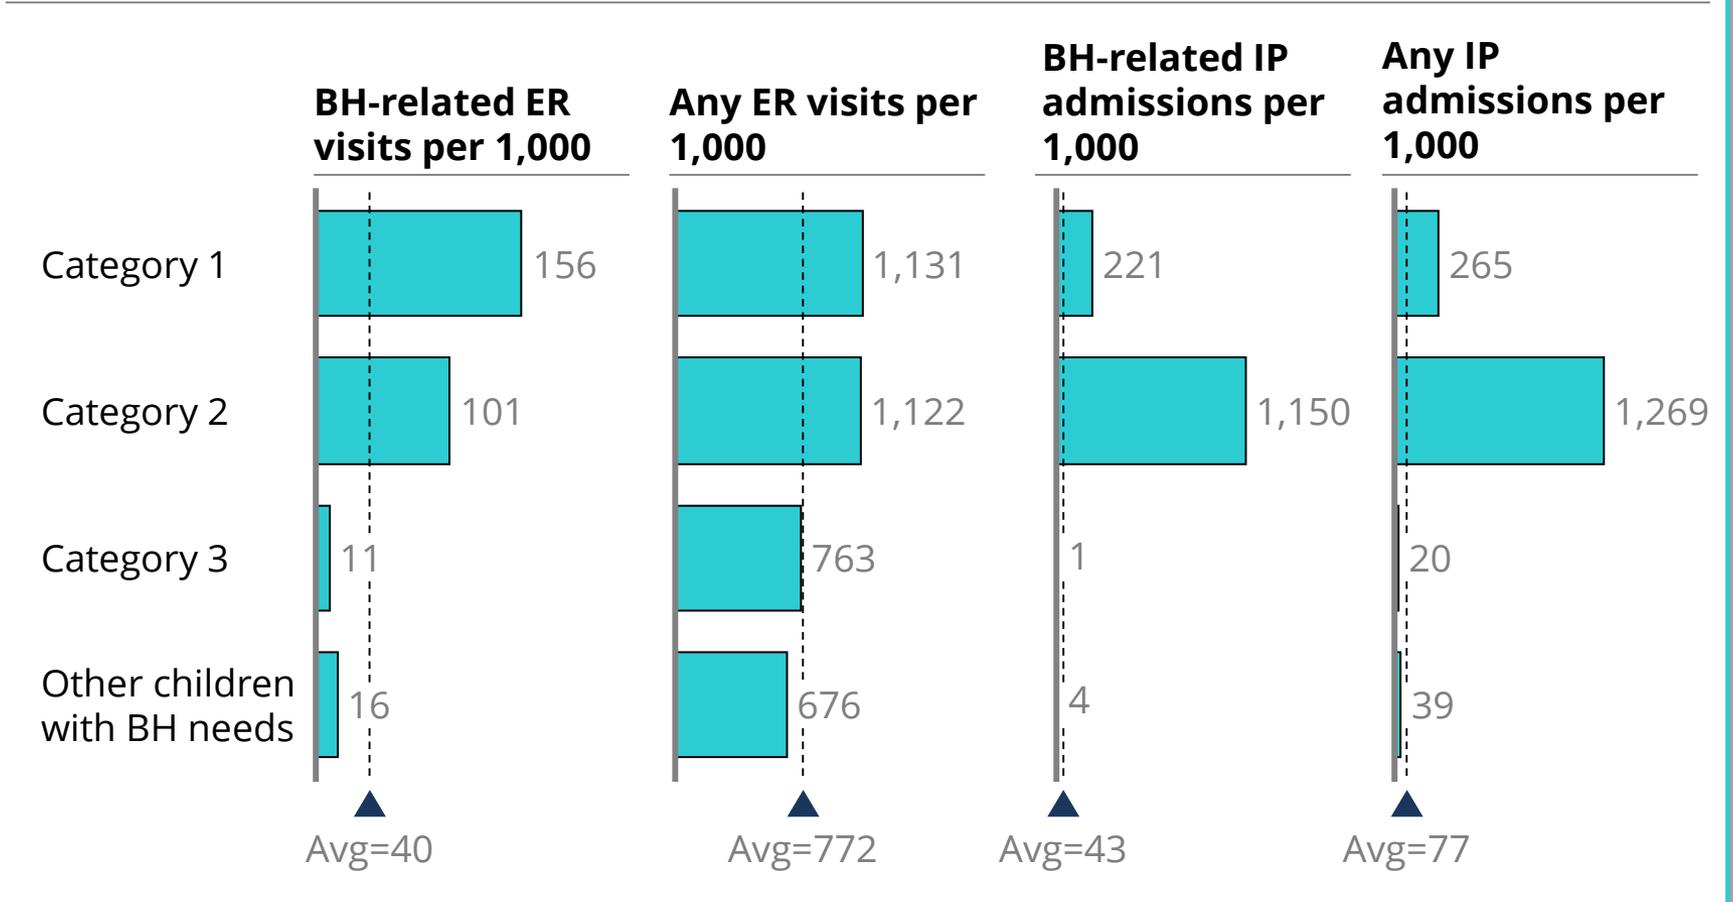

Note: All BH diagnoses with more than 5% prevalence for children in the target population. Members can have multiple conditions. Members with BH needs defined as a member with at least one BH diagnosis and receiving treatment.

## 4 Utilization by children in the identified population compared to other children with behavioral health needs

### ER and IP utilization for children in the HH target and other children with BH needs

Annual utilization per 1,000 annualized members

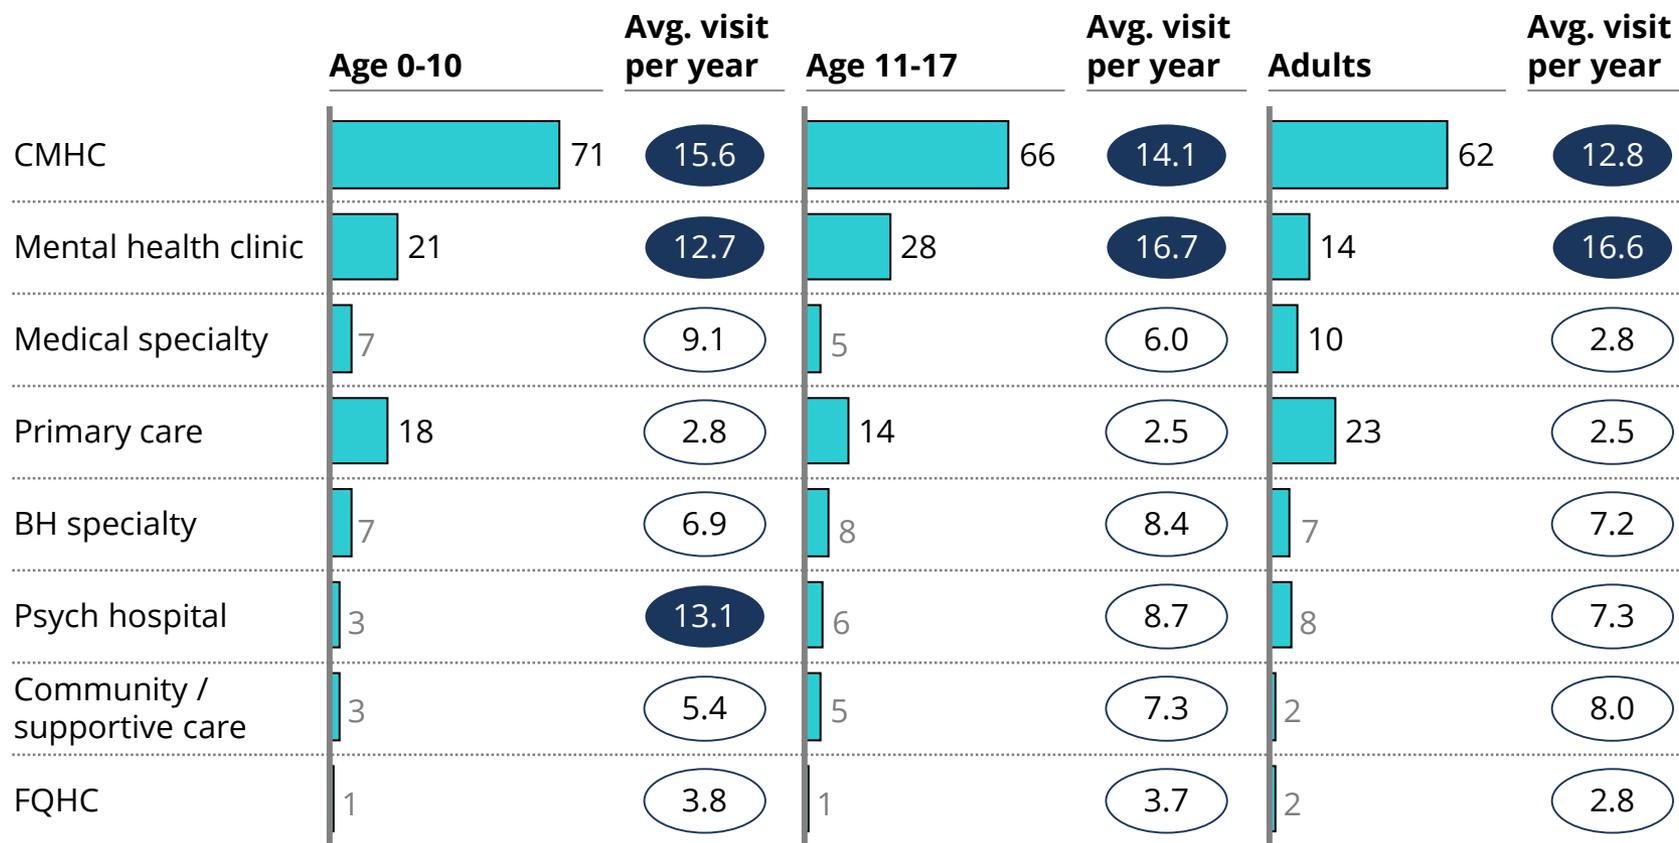

Note: Members with BH needs defined as a member with at least one BH diagnosis and receiving treatment.  
Source: TN 2014 claims data

## 5 Care access patterns by age group in the identified population

xx More than 10 visits per year

### Share of identified population with BH OP visits for each billing provider class

Percent of HH target population (duplicated members)

Note: Hospital, ER, Long-term care, Surgical specialty, BH residential facility, and other (e.g., transportation, labs) not shown.  
 Average annual visit calculated based on only members with visits to the given provider type
