Preface

Companion Guides (CG) may contain two types of data, instructions for electronic communications with the publishing entity (Communications/Connectivity Instructions) and supplemental information for creating transactions for the publishing entity while ensuring compliance with the associated ASC X12 IG (Transaction Instructions). Either the Communications/Connectivity component or the Transaction Instruction component must be included in every CG. The components may be published as separate documents or as a single document.

The Communications/Connectivity component is included in the CG when the publishing entity wants to convey the information needed to commence and maintain communication exchange.

The Transaction Instruction component is included in the CG when the publishing entity wants to clarify the IG instructions for submission of specific electronic transactions. The Transaction Instruction component content is limited by ASCX12's copyrights and Fair Use statement.

Express permission to use ASC X12 copyrighted materials has been granted to TennCare related to this CG. The underlying TR3 that is used as the basis for this CG can be purchased at <http://store.X12.org>.

Transaction Instruction (TI)

1 TI Introduction

1.1 Background

1.1.1 Overview of HIPAA Legislation

The Health Insurance Portability and Accountability Act (HIPAA) of 1996 carries provisions for administrative simplification. This requires the Secretary of the Department of Health and Human Services (HHS) to adopt standards to support the electronic exchange of administrative and financial health care transactions primarily between health care providers and plans. HIPAA directs the Secretary to adopt standards for transactions to enable health information to be exchanged electronically and to adopt specifications for implementing each standard HIPAA serves to:

- Create better access to health insurance
- Limit fraud and abuse
- Reduce administrative costs

1.1.2 Compliance according to HIPAA

The HIPAA regulations at 45 CFR 162.915 require that covered entities not enter into a trading partner agreement that would do any of the following:

- Change the definition, data condition, or use of a data element or segment in a standard.
- Add any data elements or segments to the maximum defined data set.
- Use any code or data elements that are marked “not used” in the standard’s implementation specifications or are not in the standard’s implementation specification(s).
- Change the meaning or intent of the standard’s implementation specification(s).

1.1.3 Compliance according to ASC X12

ASC X12 requirements include specific restrictions that prohibit trading partners from:

- Modifying any defining, explanatory, or clarifying content contained in the implementation guide.
- Modifying any requirement contained in the implementation guide.

1.2 Intended Use

The Transaction Instruction component of this companion guide must be used in conjunction with an associated ASC X12 Implementation Guide. The instructions in this companion guide are not intended to be stand-alone requirements documents. This companion guide conforms to all the requirements of any associated ASC X12 Implementation Guides and is in conformance with ASC X12's Fair Use and Copyright statements.

2 Included ASC X12 Implementation Guides

This table lists the X12N Implementation Guides for which specific transaction Instructions apply and which are included in Section 3 of this document.

Unique ID	Name
005010X218	Payment Order/Remittance Advice (820)

3 Instruction Tables

These tables contain one or more rows for each segment for which a supplemental instruction is needed.

Legend
SHADED rows represent "segments" in the X12N implementation guide.
NON-SHADED rows represent "data elements" in the X12N implementation guide.

V5010X218 Payment Order/Remittance Advice

Loop ID	Reference	Name	Codes	Notes/Comments
	ST	820 Header		For large files, TennCare creates ST/SE transaction breaks based upon an external control parameter. This limit has changed from the maximum of 999,999 to 300,000 based upon trading partner feedback and is subject to future change.
	BPR	Financial Information		
	BPR01	Transaction Handling Code		TennCare currently uses "I".
	BPR04	Payment Method Code		"CHK" for positive BPR02 values and "NON" for negative BPR02 values.
	BPR10	Originating Company		TennCare uses its tax id preceded by a "1" (i.e. "1626001445").

		Identifier		
	TRN	Reassociation Trace Number		
	TRN01	Trace Type Code		TennCare uses "3"
	TRN02	Reference Identification		TennCare builds this value from Remittance Advice (RA) identifier and the ST02 control number separated by a "pipe" character. For example: "123456789 1234".
	TRN03	Originating Company Identifier		Same value as BPR10.
	REF	Premium Receivers Identification Key		TennCare uses "14" in REF01. In REF02, it uses the trading partner identifier found in ISA08 and GS03.
1000A	N1	Premium Receiver's Name		TennCare uses N103 = FI.
1000B	N1	Premium Payer's Name		TennCare uses N103 = FI.
2000A	ENT	Organization		TennCare uses "AG" in ENT02.

		Summary Remittance		
2000B	ENT	Individual Remittance		TennCare uses "34" in ENT03
2100B	NM1	Individual Name		NM108 will be "N" and NM109 is composed of a 2-digit region code, followed by the individual's Recipient ID (RID).
2300B	RMR	Individual Premium Remittance Detail		RMR01 will be "AZ" and RMR02 is a description of coverage composed of four items separated by "pipe" characters- "payment type", "rate type", "legend", and "rate".
2300B	DTM	Individual Coverage Period		TennCare makes capitation payments on a calendar month basis. The Coverage date of a payment is for a full month, unless the recipient's eligibility period is less than a full month.

4 TI Additional Information

4.1 Business Scenarios

(Intentionally left blank.)

4.2 Payer Specific Business Rules and Limitations

The trading partner id for TennCare is “626001445TC” and will be used in ISA06 and GS02.

The TennCare-assigned trading partner id for the recipient will be used in ISA08 and GS03.

4.3 Frequently Asked Questions

(Intentionally left blank.)

4.4 Other Resources

(Intentionally left blank.)

5 TI Change Summary

There are no previous versions in this format.
