

The Labor Market Report

St. Patrick's Day Fun Facts

**November
2013**

**Bill Haslam,
Governor**

TENNESSEE

Department of Labor and Workforce Development

St. Patrick's Day was originally a religious holiday honoring the person who introduced Christianity to Ireland in the fifth century. New York City hosted the first St. Patrick's Day parade on March 17, 1762, honoring the Irish soldiers serving in the English military when America was still a British colony. The parade has become an annual event and in 1995 Congress proclaimed March as Irish-American Heritage Month.

Where Are the Irish?

In 2012, there were 34.1 million United States residents who claimed Irish ancestry. Of that number, 22 million consider Irish to be their primary ancestry. The population in the Republic of Ireland was 4.6 million and Northern Ireland was 1.8 million. Only German ancestry was more frequently claimed in the U.S. There were 153,248 persons with Irish ancestry that became naturalized United States citizens in 2012.

New York State has the greatest number of people claiming Irish ancestry with 2.5 million people in the category. Massachusetts, at 22.6 percent, has the highest percentage of Irish or people with ancestry traced back to Ireland. The average

percentage for the U.S. population is 11.2 percent.

The Boston metropolitan area has 24.1 percent of its population that claims Irish ancestry, one of the highest percentages for the top 50 metro areas. It is also the home of the Boston Celtics professional basketball team. Some of the other metropolitan statistical areas with a high percentage of Irish ancestry population include: Scranton-Wilkes Barre, Pennsylvania (24.1 percent); Syracuse, New York (23.5 percent), Albany-Schenectady-Troy, New York (23.0 percent), Philadelphia-Camden-Wilmington, Pennsylvania-New Jersey-Delaware (21.6 percent), and Pittsburgh, Pennsylvania (19.9 percent). The Miami-Ft. Lauderdale, Florida MSA has only 1.6 percent Irish or Irish ancestry population.

Irish-American Demographics

Of people over 25-years old claiming Irish ancestry, 34.2 percent had a bachelor's degree or higher while 93.4 percent had a least a high school diploma. For the nation as a whole, the corresponding rates were 29.1 percent and 86.4 percent, respectively. The median income for households headed by an Irish American, in 2012, was *(Continued on Page 2)*

March is Irish-American Heritage Month

\$59,220 while 7.4 percent of Irish ancestry households were in poverty. In the U.S. the median income was \$51,371 and the poverty rate was 11.8 percent. The majority of Irish-Americans 16-years or older worked in the management, professional, and related occupations (41.1 percent). This was followed by sales and office occupations (25.9 percent); service occupations (15.9 percent); production, transportation, and material moving occupations (9.3 percent); and natural resources, construction, and maintenance occupations (7.7 percent).

The median age of U.S. residents are 37.4 years while those with Irish ancestry have a median age of 39.2 years old. In 2012, the home ownership rate in the U.S. is 63.9 percent while over two-thirds (68.9 percent) of Irish-Americans own their own home.

Famous Irish-Americans

There are twenty-two presidents that claim some Irish ancestry. This includes every U.S. president from 1977 to the present. President Obama's maternal ancestors came from County Offaly, Ireland. Tennesseans Andrew Jackson, James K. Polk, and Andrew Johnson were all of Irish ancestry. Other famous Irish ancestry presidents include Ulysses S. Grant, Theodore Roosevelt, Woodrow Wilson, and John Kennedy. President Kennedy was the only practicing Catholic of the group.

Other famous/infamous Irish-Americans include (alphabetically): Billy the Kid, Lizzy Borden, Tom Clancy, Walt Disney, F. Scott Fitzgerald, Henry Ford, Alfred Hitchcock, Georgia O'Keefe, Gene Kelly, and Ed Sullivan. There are also three U.S. Supreme Court Justices (Brennan, Kennedy, and Murphy).

Celebrating St. Patrick

Lime green chrysanthemums are often requested when celebrating St. Patrick's Day. In 2012, there were 21.5 million dollars worth of potted chrysanthemum that sold at wholesale florists. The traditional St. Patrick's Day dish is corned beef and cabbage. The U.S. produced 25.9 billion pounds of beef in 2012 combined with 2.3 billion pounds of cabbage. The largest cabbage producing states are California, New York, and Florida.

You might want to celebrate St. Patrick's Day in Ireland's capital city of Dublin. For those who do not want to travel that distance there are 16 Dublin's in the United States. The largest are Dublin, California (population 47,156) and Dublin, Ohio (population 31,392). You could also celebrate at Emerald Isle, North Carolina (population 3,669); Irishtown, Illinois; or Clover (in Illinois, Minnesota, Pennsylvania, South Carolina, and Wisconsin). There are seven places named Shamrock, the floral emblem of Ireland. They include Shamrock, Texas (population 1,910), Mount Gay-Shamrock, West Virginia (population 1,779), and Shamrock Lakes, Indiana (population 231). There are three Shamrock Townships. They are in Minnesota (population 1,272), Nebraska (population 413), and Missouri (population 40).

NONFARM EMPLOYMENT & LABOR FORCE NARRATIVE

Total nonfarm employment increased by 39,600 jobs from November 2012 to November 2013. There were large increases in accommodation/food services (up 12,800 jobs), which included an increase of 11,200 jobs in food services/drinking places; professional/business services (up 7,900 jobs), which included increases of 6,300 jobs in professional/scientific/technical services and 1,100 jobs in management of companies/enterprises; and retail trade (up 7,000 jobs), which included increases of 2,600 jobs in motor vehicle/parts dealers and 1,000 jobs in building material/garden/supplies stores. Other significant increases were in health care/social assistance (up 5,700 jobs), which included increases of 5,800 jobs in social assistance and 3,700 jobs in ambulatory health care services combined with a decline of 3,600 jobs in hospitals; transportation equipment manufacturing (up 5,600 jobs); financial activities (up 3,800 jobs), which includes an increase of 3,000 jobs in finance/insurance; arts/entertainment/recreation (up 3,000 jobs); and state government education (up 1,300 jobs).

These increases were partially offset by declines in local government educational services (down 4,200 jobs) and transportation/warehousing (down 1,000 jobs).

During November 2013 nonfarm employment increased by 21,500 jobs. A majority of this increase occurred in retail trade (up 9,600 jobs), which includes increases of 3,000 jobs in general merchandise stores, 2,900 jobs in clothing/clothing accessories stores, and 1,500 jobs in sporting goods/hobby/book/music stores; and professional/business services (up 5,900 jobs), which includes increases of 3,700 jobs in administrative/support/waste management and 1,900 jobs in professional/scientific/technical services. There were other seasonal increases in food services/drinking places (up 2,100 jobs), transportation/warehousing (up 1,500 jobs), wholesale trade (up 1,300 jobs), and social assistance (up 1,100 jobs). This was partially offset by a decline of 1,500 jobs in arts/entertainment/recreation.

Tennessee's seasonally adjusted estimated unemployment rate for November 2013 was 8.1 percent, down 0.4 percent from the revised October 2013 rate.

The United States unemployment rate was 7.0 percent in November 2013. In November 2012, the national rate was 7.8 percent while the state unemployment rate was 7.7 percent.

Across Tennessee, the unemployment rate decreased in 93 counties, increased in Sequatchie County, and remained the same in Overton County. There were 11 counties with rates lower than 6.0 percent. In November 2013, the lowest rate was in Williamson County at 5.0 percent, down 0.7 percent from the previous month, while the highest rate was in Scott County at 15.7 percent, down from 16.2 in October.

The data from all the nonfarm employment estimates tables include all full- and part-time nonfarm wage and salary employees who worked during or received pay for any part of the pay period that includes the 12th of the month. This is a count of jobs by place of work. Agricultural workers, proprietors, self-employed persons, workers in private households, and unpaid family workers are excluded. These numbers may not add due to rounding. Data are based on the 2012 benchmark.

Total nonfarm employment increased by 900 jobs from October 2013 to November 2013. There were seasonal increases in retail trade (up 500 jobs), and professional/business services and educational/health services (both up 300 jobs). This was partially offset by declines of 300 jobs in nondurable goods manufacturing and 200 jobs in mining/logging/construction.

During the past 12 months, nonfarm employment increased by 1,000 jobs. During the year, goods-producing jobs declined by 300 jobs while service-providing jobs increased by 1,300.
