

# Tennessee Labor Market Report

Bill Lee  
Governor

Jeff McCord  
Commissioner

October  
2020

## Highlights

**Pages 1-2** The industries and occupations that grew during the COVID-19 pandemic in Tennessee

**Page 3** The annual average nonfarm employment rates and the not seasonally adjusted monthly labor force data

**Pages 6-9** Monthly nonfarm employment, long-term graphs of the unemployment and a brief explanation for each major MSA in Tennessee

**Page 10** Monthly nonfarm employment for each small MSA in Tennessee

**Page 11** The monthly consumer price index and wages by industries for production workers

## Industries & Occupations Adding Jobs During the COVID-19 Pandemic in TN

The detailed industries listed below increased in employment over the year from October 2019 to October 2020, continuing to grow from September 2020 through October 2020. Included are industries in both the goods-producing and service-providing industries. Essential industries, needed for survival while individuals sheltered at home or began working from home and many students were no longer in person in school, included food and beverage stores (such as grocery stores) and other stores which sell food (gas stations and general merchandise stores).

ment of companies and enterprises added 400 more jobs than the industry had in October 2019.

From October 2019 to October 2020, the educational and health services industries lost 12,100 jobs, but they have started growing again and remain among Tennessee's largest industries. Growth this October was in the ambulatory care industries, while hospitals continued to shed jobs. Although government lost 13,600 jobs over the year, nearly 4,000 jobs returned in October, especially in state and local education services.

### Goods-Producing Industries

Construction of buildings, which added 1,000 jobs over the year, continued its growth as projects in the pipeline were being completed. Providing products for building interiors, furniture and home furnishing stores in turn grew slightly over the year and now employ 400 more employees than a year ago. This demand has caused furniture manufacturing to continue slightly positive employment growth over the year as well.

A positive trend for engineering and technology could be re-shoring of manufacturing industries, since COVID-19 has disrupted global supply chains. Besides furniture manufacturing, durable goods manufacturing industries with employment greater than in October 2019 included the advanced manufacturing industries of non-metallic mineral products, primary metal, fabricated metal, machinery, and miscellaneous manufacturing, as well as fabricated metal.

### Service-Providing Industries

In the service-providing industries, both finance and insurance and real estate posted positive growth, with finance and insurance adding 1,200 jobs over the year. Banks were responsible for distributing funding for the federal CARES Act. Insurance industries experienced cost savings (fewer cars on the road; fewer patients with elective surgery) which aided their bottom line.<sup>1</sup> Real estate grew slightly, as completed buildings came on the market. Manage-

### Occupations

For the month of October 2020, the occupations with the most jobs listed on jobs4tn.gov requiring a high school education or more included:

- Registered nurses (12,676 jobs) and critical care nurses (912 jobs)
- General, operations, and all other managers (3,126 jobs)
- Nursing assistants (2,922 jobs)
- Licensed practical nurses (2,772 jobs)
- Physicians and surgeons, all other (1,722 jobs)
- Production workers, all other (1,542 jobs)
- Heavy and tractor-trailer truck drivers (1,491 jobs)
- Production supervisors (1,189 jobs)
- Medical assistants (983 jobs)
- Pharmacy technicians (802 jobs)
- Executive secretaries and administrative assistants (736 jobs)
- Computer programmers (719 jobs)

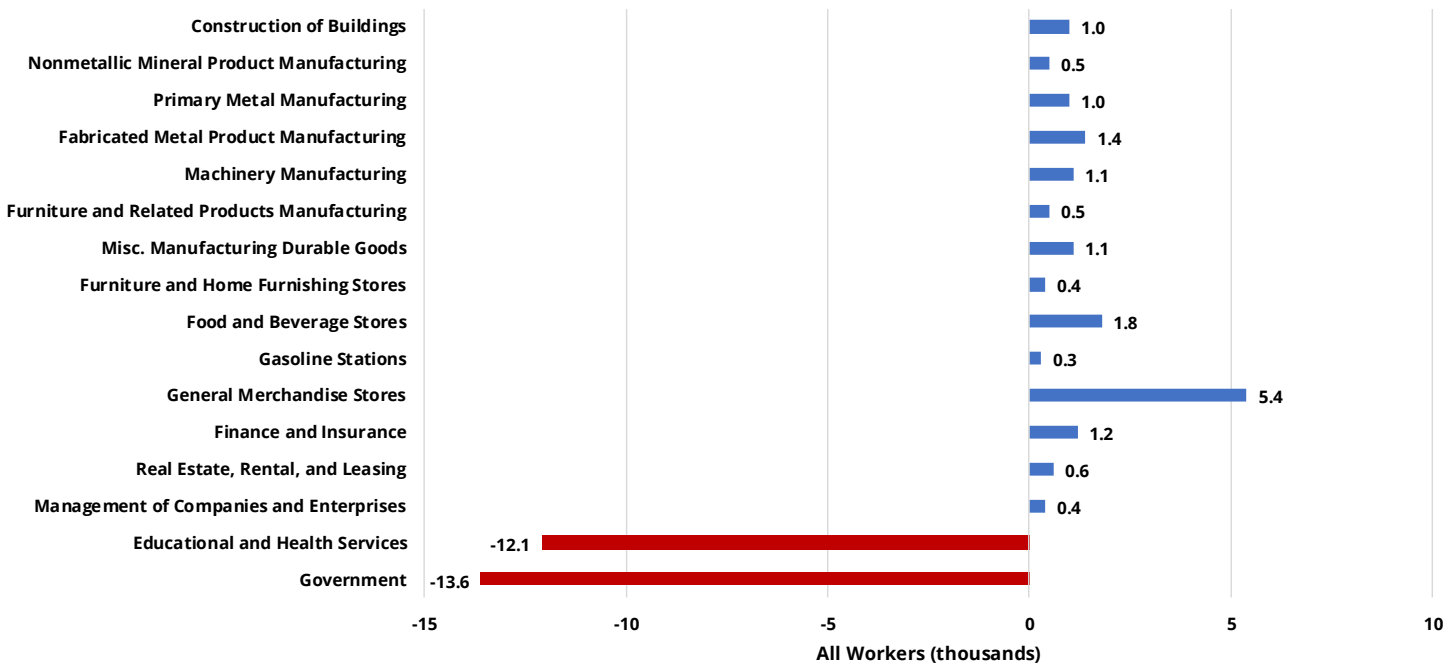

According to economists, control of the coronavirus will be needed before consumer confidence comes back and the economy returns to higher growth. In the next year, this will likely mean increased demand for nurses, public health workers, and laboratory personnel. Computer specialists are also developing new technologies for contact tracing.

<sup>1</sup> Amanda Holpuch. (August 14, 2020). U.S. health insurers doubled profits in second quarter amid pandemic. PNHP Fall 2020 Newsletter, p. 24.

## Nonfarm Employment & Labor Workforce Narrative

Total nonfarm employment decreased by 110,400 jobs from October 2019 to October 2020. There were decreases in leisure & hospitality (down 45,200 jobs), which includes decreases of 21,800 jobs in food services & drinking places; transportation equipment manufacturing (down 21,800 jobs); government (down 13,600 jobs), which includes decreases of 8,900 jobs in local government; education & health services (down 12,100 jobs), which includes decreases of 11,700 jobs in health care & social assistance; clothing & clothing accessories stores (down 7,900 jobs).

These decreases were partially offset by increases in general merchandise stores (up 5,400 jobs); building material/garden equipment/supplies (up 2,400 jobs); federal government (up 2,000 jobs); financial activities (up 1,800 jobs).

During the past month, nonfarm employment increased by 35,900 jobs. There were increases in professional & business services (up 17,200 jobs), which includes increases of 14,200 jobs in administrative/support/waste management; accommodation & food services (up 6,000 jobs), which includes increases of 5,600 jobs in food services & drinking places; local government (up 4,700 jobs).

These increases were partially offset by decreases in federal government (down 3,100 jobs); truck transportation and specialty trade contractors (both down 1,100 jobs); wholesale trade (down 800 jobs); nursing & residential care facilities (down 700 jobs).

Tennessee's seasonally adjusted estimated unemployment rate for October 2020 was 7.4 percent, up from the revised September 2020 rate of 6.5 percent. The United States unemployment rate for October 2020 was 6.9 percent, down from the revised September 2020 rate of 7.9 percent. In October 2019, the U.S. seasonally adjusted rate was 3.6 percent while the state rate was 3.3 percent.

The not seasonally adjusted unemployment rate increased in 93 counties and decreased in 2 counties. Williamson County had the lowest rate at 4.6 percent, up from the revised September rate of 3.8 percent. The highest rate was Shelby County at 11.0 percent, up from the revised unemployment rate of 10.3 percent in September.

The data from all the nonfarm employment estimates tables include all full- and part-time nonfarm wage and salary employees who worked during or received pay for any part of the pay period that includes the 12th of the month. This is a count of jobs by place of work. Agricultural workers, proprietors, self-employed persons, workers in private households, and unpaid family workers are excluded. These numbers may not add due
